PRELIMINARY REPORT  
ELECTRIC RAILWAYS OF CANADA  
FOR YEAR ENDED DECEMBER 31,

1927

Electric railways in Canada carried 781,398,194 fare passengers during 1927, which was an increase over the previous year of 32,687,358, or 4.4 per cent. There was practically no change from 1926 in the average fare which was 6.25 cents and, with heavier traffic, passenger revenue increased by \$1,993,038. Other sources of revenue did not show as high rates of increase and freight and other car earnings showed decreases, so that total revenues were larger by only \$1,783,202, or 3.4 per cent.

Operating expenses were heavier than in 1926 by \$1,162,858, the large increase being \$823,249 in operation of cars which includes wages of conductors, motormen, car house employees and also the operators of motor buses. All motor bus expenses are included with other transportation expenses which explains the rapid increase in this account during the past three years.

The Toronto Transportation Commission and the Winnipeg Electric operate buses on which street car tickets are accepted and they do not segregate the revenue from the bus operation. Any total which did not include the revenues of these systems would be of little value, but all railways operating buses have kept a record of the mileage and during 1927 the total bus mileage was 8,263,498.

Another account showing a large relative increase was advertising which increased by \$26,230, or 24 per cent. This was undoubtedly necessary on account of the increased competition of the private and public automobile and motor bus.

Although there was a net increase in the passenger traffic of all the railways, many of the smaller systems showed a falling off in the number of fare passengers carried. The Peterboro Radial ceased operations on March 31 and the Chatham, Wallaceburg and Lake Erie ceased operating passenger cars on July 1, but continued a freight service. The Schomberg and Aurora, a branch of the Toronto and York Radial, also ceased operation on June 20 and the Kitchener and Bridgeport railway, which was purchased October 1, 1923, by the city of Kitchener was operated along with the Kitchener and Waterloo railway as the Kitchener Public Utilities Street Railway department.

There were few increases in single track mileages and none of any size. The net reduction of 32.03 miles was almost entirely made up of a reduction of 10.98 miles on the Montreal Tramways and the 14.14 miles of the Schomberg and Aurora and 6.45 miles of the Peterboro Radial which ceased operation. The only double tracking of any importance was 2.96 miles by the British Columbia Electric, 4.26 miles by the Montreal Tramways and 1.31 miles by the Winnipeg Electric.

Although the railways as a whole showed a net income, before deducting dividends and reserves and special charges, of \$9,419,592, there were 26 railways which showed losses aggregating \$1,212,796 and only 7 railways paid dividends.

For the first time in the past 27 years no passengers were killed in electric railway accidents, but 7 employees and 71 other persons were killed. Other persons include trespassers on railway right-of-way, pedestrians on the streets and persons in vehicles, etc. The numbers of other persons both killed and injured were larger than for any year since 1920 which is probably due to the increased congestion of traffic on the streets caused mainly by the automobiles and motor trucks.

REPORT OF THE COMMISSIONER  
OF POLICE

TO THE COUNCIL OF THE CITY OF NEW YORK,  
RECEIVED, AND APPROVED, JUNE 25, 1863.

THE POLICE.

THE POLICE FORCE.

THE POLICE OFFICERS.

THE POLICE DEPARTMENT.

THE POLICE OFFICERS.

The Hydro Electric Power Commission of Ontario operated the Guelph Radial, Peterboro Radial and Sandwich, Windsor and Amherstburg railways as the Guelph, Peterboro and Essex districts of the Hydro Electric railways. The Toronto Transportation Commission took over the operation of the Toronto and York Radial on January 11, (the city of Toronto is the owner), and continued the operation of the Township of York and Town of Weston railway as explained in the 1926 report.

Below are shown comparative tables of the electric railways as a whole and on pages 3 - 6 are shown the principal data of each railway for 1927.

Mileage Operated

	<u>First Main Track</u>	<u>Second Main Track</u>	<u>Total Main Track</u>
1922	1,725	513	2,238
1923	1,736	511	2,247
1924	1,737	525	2,262
1925	1,738	543	2,280
1926	1,684	553	2,237
1927	1,652	563	2,215

Capital

	<u>Stocks</u>	<u>Bonds, etc.</u>	<u>Total</u>
1922	\$76,949,185	\$111,309,789	\$188,258,974
1923	76,674,185	122,395,685	199,069,870
1924	76,482,085	137,285,575	213,767,660
1925	58,567,242	163,201,978	221,769,220
1926	57,779,518	158,029,002	215,808,520
1927	58,873,778	163,678,939	222,552,717

	<u>Gross Revenues</u>	<u>Operating Expenses</u>	<u>Net Operating Income</u>
1922	\$49,660,485	\$35,986,872	\$13,673,613

1926	748,710,836	3,493,457	118,566,321
1927	781,398,194	3,269,028	127,062,864

which I expect will be done by the end of the month.  
I will add one condition concerning the same  
and that is that you will receive it back with  
such a letter, so that the staff can evaluate and  
decide if it is worth the additional cost of shipping  
it back to me. I will also let you know if there  
are any additional charges.

I am sorry to have to do this, but I consider this to be a very important part of my work.

Yours,

John C. Smith
