PRELIMINARY REPORT

ELECTRIC RAILWAYS OF CANADA

For Year ended December 31.

1929

Electric railways in Canada carried 836,729,851 passengers during 1929, which was an increase over the 1928 traffic of 28,706,236, or 3.5 per cent, the two largest systems, in Montreal and Toronto, accounting for increases of 14,451,494 and 13,179,911, respectively. Some of the railways, however, showed considerable decreases in traffic, the largest being 3,218,566 passengers on the Ottawa system. The Hamilton Radial Railway discontinued service on January 5. With the exception of the Quebec Railway, Light and Power Company, the passengers carried by buses operated by the railways are included in "Fare passengers carried".

Gross revenues amounted to \$58,268,980, as against \$55,632,761 in 1928. Operating expenses increased by \$1,302,421 and the net operating revenue, amounting to \$18,183,340, was larger than for 1928 by \$1,333,798.

There was a decrease of 16 miles in first main track and 1 mile in second track, making a total decrease of 17 miles in track operated as at December 31, 1929.

Of the 57 railways reporting, including the Hamilton Radial which operated only 5 days, 9 failed to earn operating expenses, 17 showed a deficit in the year's operation before making deductions for reserves and special charges and for dividends, and 7 paid dividends amounting to \$3,325,248. The municipal systems, however, do not pay dividends but 30 railways reported a total credit balance transferred to profit and loss account after making all deductions for reserves, dividends, etc. of \$2,506,482, as against \$1,676,742 for 27 railways in 1928 and the remaining railways showed a loss of \$1,290,354 as against \$1,729,111 in 1928. After making all profit and loss adjustments during the year, the net surplus was \$1,014,016; 32 railways reporting a surplus of \$2,273,456 and 25 railways a deficit of \$1,259,440.

The data for the Montreal Tramways, which operates on a cost of service agreement with the city of Montreal, have been adjusted in this report to make the accounts comparable with those of other railways.

This preliminary report is necessarily abridged; the complete report is being printed and may be had upon application to the Bureau.
