Vol. 9, No. 1

PASSENGER BUS STATISTICS (INTERCITY AND RURAL)

In response to numerous requests for detailed historical tables concerning monthly operating and financial data for intercity and rural bus companies in Canada, a series showing reported information for the period January 1975 to December 1978 has been prepared.

These data were originally published in various issues of the Statistics Canada Daily and have been summarized here for the convenience of users of statistics on the intercity bus industry in Canada. As with earlier releases, the following observations apply:

Data relating to other services such as charter or contract are specific to the surveyed passenger bus carriers and are not indicative of over-all charter and contract operations;

Passengers paying a fare to the operator of one vehicle and travelling on a second or third vehicle on a transfer are counted for the first vehicle only;

Total distance run in a revenue service includes distance run empty which was necessary to provide the revenue service;

Conditions specifically enumerated in the footnotes at the end of the tables may affect comparison of the data.

For further information, contact W. Burr (613-995-1976), Head, Surface Transport Section, Transportation and Communications Division, Statistics Canada, Ottawa K1A 0V1.

STATISTIQUE DES AUTOBUS-VOYAGEURS (INTERURBAIN ET RURAL)

Afin de donner suite aux nombreuses demandes de tableaux historiques détaillés concernant les chiffres mensuels sur l'exploitation et les finances des sociétés d'autobus-voyageurs (interurbains et ruraux) au Canada, on a établi un bulletin qui présente les renseignements déclarés pour la période allant de janvier 1975 à décembre 1978.

Les données publiées ici ont paru pour la première fois dans divers numéros du Quotidien de Statistique Canada. Le présent résumé est destiné aux utilisateurs des statistiques sur l'industrie canadienne des autobus interurbains. Comme par le passé, il faut tenir compte des remarques suivantes:

Les données relatives à d'autres services, tels que les services de location ou à forfait, s'appliquent exclusivement aux transporteurs enquêtés et non à toute l'industrie du transport par location ou à forfait;

Le nombre de passagers payant leur billet à l'opérateur d'un véhicule et voyageant dans un deuxième ou un troisième véhicule avec une correspondance n'est calculé que pour le premier véhicule;

La distance totale parcourue comprend la distance parcourue sans passager en vue de fournir le service requis;

Les indications paraissant dans les notes des tableaux peuvent influencer les comparaisons des données.

Pour d'autres renseignements, communiquer avec M.W. Burr (613-995-1976), Chef du transport de surface, Division des transports et des communications, Statistique Canada, Ottawa K1A 0V1.
