INTERNATIONAL BRIDGE, FERRY AND TUNNEL COMPANIES

1931

According to reports of international bridge, ferry and tunnel companies for 1931 there was an increase in passenger traffic across the international boundary between Canada and the United States compared with the 1930 traffic. Railways and lake boats also reported an increased sale of tickets for international travel.

Total traffic of international bridge, ferry and tunnel companies during 1931 consisted of 7,597,983 motor vehicles, 213 horse-drawn vehicles and 26,128,757 pedestrians and passengers, exclusive of drivers of vehicles. This tally counts one round trip as two trips. Including drivers, the total number of persons crossing the border on ferries, bridges and through tunnels was 33,726,740. Other international crossings, according to the report on Tourist Traffic, included:

	1930	1931
	Persons	Persons
Motorists crossing on highways	10,650,200	8,537,474
Railway passengers exclusive of through passengers	1,872,500	2,539,616
Boat passengers other than ferry	500,060	508,500
Total	13,022,760	11,585,590
Bridge, Ferry and Tunnel	31,597,976	33,726,740
Grand Total	44,620,736	45,312,310

The highway motorist traffic is estimated, based on the Customs data on motor vehicles entered and exported and the average number of persons per vehicle as computed from returns supplied by tourists.

The heaviest traffic was between Detroit and Windsor and Walkerville where two ferry companies operate across the Detroit river in addition to one bridge and a tunnel for pedestrians and vehicles; a railway tunnel and three systems of railway ferries also cross at this point. The traffic on the bridges across the Niagara river at Fort Erie, Niagara Falls and Queenston was also heavy.
