INTERNATIONAL BRIDGE, FERRY AND TUNNEL COMPANIES1936

International bridge, ferry and tunnel companies operating between Canada and the United States, all across the Ontario boundary, reported 6,450,357 motor vehicles, 259 horse-drawn vehicles, 1,589 pedal cycles and 19,251,915 pedestrians and passengers of vehicles other than drivers, or a total of 25,704,120 persons crossing the border in both directions during 1936 as against a total of 24,028,184 in 1935.

Operating revenues increased from \$2,918,864 in 1935 to \$3,329,454 in 1936 and the operating expenses from \$2,392,160 to \$2,443,811. The total capital outstanding, including stocks and bonds, was reduced from \$52,436,822 to \$30,679,349 due largely to reorganization of the Detroit and Canada Tunnel Corporation which had been in receivership. The number of employees was reduced from 976 to 921 and the total payrolls were reduced from \$915,849 to \$910,006.

The Bureau's report, "The Tourist Trade" shows the number of persons entering Canada from the United States by railway and boat, the tourist automobiles entering and the average number of persons per car and the same information for tourists going to the United States. Using these data the approximate total number of crossings was computed, which excludes local traffic at many points not using commercial ferries, bridges and tunnels. The total crossings for 1934, 1935 and 1936 were as follows:

	<u>1934</u>	<u>1935</u>	<u>1936</u>
Motorists crossing on highways	7,014,000	8,303,000	11,951,000
Railway passengers, exclusive of through passengers, and boat passengers exclusive of ferries	2,165,000	2,516,000	2,870,000
