INTERNATIONAL BRIDGE, TUNNEL AND FERRY COMPANIES

8504-524 31-10-52

1 9 5 1

The principal statistics for commercial or toll bridges, ferries and a tunnel for pedestrians and vehicular traffic, traversing waters between Canadian and United States ports are given in this report. Railway car ferries and railway bridges and tunnels are not included nor are international public bridges operated free of tolls. At Cornwall, Ontario, the Cornwall International Bridge Company Ltd. operates a roadway on a railway bridge. At Fort Frances, the International Bridge and Terminal Company passes both railway and vehicular traffic across its bridge. At Sarnia, the toll bridge, opened in October, 1938, is operated by a Michigan State Commission and the second bridge, the Rainbow, at Niagara Falls is operated by an Ontario - New York Commission. This bridge was opened November 1, 1941 and replaced a bridge (Fall's View) operated by a private company, which was destroyed by ice in 1938. The ferry from Anacortee, Washington, to Sidney, B.C., traffic for which is included for the first time in this report, is a part of the San Juan Islands ferry service operated by the State of Washington. The remainder of the facilities are operated by commercial organizations. At the close of the season there were two bridges and four ferries operating across the St. Lawrence River, four bridges and one ferry across the Niagara River, one ferry across the lower end of Lake Erie, one bridge and one tunnel across the Detroit River, five ferries and one bridge across the St. Clair River, one ferry across the St. Mary's River, one bridge and one ferry across the Rainy River and one ferry across the Strait of Georgia to Vancouver Island. Ferries here mean ferry companies. Some companies operate several vessels.

The overall activity of the reporting companies indicated that several new records were established in 1951 on the strength of a larger volume of international travel by motor vehicle. Operating revenues totalled \$7,362,490 compared with \$6,769,672 in 1950 and \$6,585,664 in 1949. The increase over the preceding year was thus \$592,818 or nearly 9 p.c. Expenses advanced to \$3,226,041 from \$2,767,542 one year earlier and net operating revenues rose to \$4,136,449. Net income for the year amounted to \$2,568,289 a drop of \$108,365 from that reported in 1950 due to heavier taxes. Ferry companies did not fare quite as well financially in 1951 as in the year preceding while most bridge and tunnel companies also showed minor declines in net income. Improved credits on net income account had been reported from 1943. As well the capital position has been reduced from \$15,190,022 at the end of 1943 to \$9,290,764 for 1951, with a sharp drop in funded debt of over \$6 million. Investment was placed at some \$28,269,951 at the end of 1951. Dividenis and reserves were pared from \$1,002,384 in 1950 to \$704,217. Employees totalled 585 against 567 in 1950 and salaries and wages increased by \$205,338 to \$1,625,908 for 1951. Average earnings were thus \$2,779 against \$2,505 one year earlier, up 10.9 p.c.

Some 13,788,000 motor vehicles crossed in 1951 compared with 12,486,000 in 1950 and 11,873,000 in 1949. Volume was well above double the 1941 total of 5,846,000 vehicles. The total for pedestrians and passengers other than drivers of vehicles rose from 28,157,538 in 1950 to 29,868,806 in 1951 but still 389,000 below the peak of 30,257,633 in 1948.

The aggregate of international vehicle, pedestrian and passenger flow between the two neighbours represents the greatest co-mingling of nationals anywhere in the world. The Bureau sstimates that some 24,880,000 American visits were made to Canada during 1951 while over 18,587,000 Canadians returned from visiting in the United States. Canadian travel to the States was at record levels, and for a population of 14.1 millions is indeed unique.

⁽¹⁾ Excludes the capital stock and funded debt of the Niagarm Lower Arch Bridge and the capital stock, the funded debt and investments of the bridge of the International Bridge and Terminal Co. Capital stock and investment of Lewiston-Queenston Bridge excluded from 1942 to 1949 only.

 ⁽²⁾ Increase is due to revaluation of the Detroit & Canada Tunnel Co.
 (3) Decrease due mainly to revaluation Cornwall International Bridge purchased by local interests

from American company, September 16, 1949.

(4) Includes investment and capital stock of Lewiston - Queenston bridge which was purchased from International Railway Co. in October, 1949.
