Prior to 1960 the information in these four parts was contained in the annual publications - "The Motor Vehicle" - Catalogue No. 53-203 and - "The Motor Vehicle - Preliminary Report of Registrations and Size, Weight and Safety Regulations" - Catalogue No. 53-204.

Registrations

Table 1 is a historical summary showing the increase in registrations since 1903 when Ontario became the first province to establish a requirement for the registration of motor vehicles.

All motor vehicles which are licensed to operate on public highways are included in Table 3 "Registrations of Motor Vehicles, Drivers, etc.". Motorcycles, including motor bicycles, are classified as motor vehicles. Trolley coaches are registered as motor vehicles in Nova Scotia, Quebec and Ontario, but for licensing purposes Quebec does not distinguish them from motor buses. In other provinces trolley coaches do not require provincial motor vehicle licences. "New" registrations are defined as vehicles registered for the first time in the reporting province and include used, as well as new vehicles.

Provincial licensing laws vary considerably on the definition of gasoline stations and garages. These refer not only to service stations which sell gasoline and garages which engage in the task of repairing motor vehicles but also to other outlets. For example, Ontario lists as a retail outlet any place having (a) a gasoline pump and (b) a licence to sell gasoline, while British Columbia includes new car dealers selling gasoline. In Ontario and British Columbia the group "Garages" includes establishments which do not perform automotive repair work such as used car lots, storage for vehicles, parking lots etc.

Motor vehicles licensed during the 1961 registration year increased 5.0 p.c. to 5,517,023 from 5,256,341 in 1960. Passenger car registrations were 4,325,682, 5.4 p.c. higher than the 4,104,415 licensed in the previous year, while registrations of commercial vehicles increased 3.5 p.c. to 1,156,979 from 1,117,450. Motorcycles, including motor bicycles, decreased to 34,362 from 34,476 reported in 1960.

At the end of the 1961 registration year there were ten motor vehicles registered for every 33 Canadians. Saskatchewan and Alberta have the largest number of motor vehicles in relation to population, with ten for every 26 persons. For passenger cars only there were ten for every 42 Canadians. Ontario and British Columbia had the largest number of passenger cars in relation to population at ten per 35 persons. All regions showed increases over the previous year in the number of vehicles per capita except Ontario, Manitoba, Alberta and British Columbia which remained unchanged from 1960.

Gains in total registrations occurred in all provinces, ranging from a low of 3.1 p.c. in Ontario to a high of 10.5 p.c. in Nova Scotia.

In table 4 the totals represent the number of vehicles registered in each of the cities, counties, etc. according to the home address of the owner. These data are made available through the courtesy of R.L. Polk & Co. (Canada) Ltd. of Toronto for all provinces except Quebec. Quebec data were provided by the Department of Transportation and Communications of the Province of Quebec.
