SUMMARY OF CANAL STATISTICS

FOR

DECEMBER

AND

SEASON OF NAVIGATION

1932

Sault Ste. Merie Canals: Canadian and United States Locks:

Traffic started through the Canadian lock on April 17 and closed on December 16, amounting to 2,314,079 tons, compared with 2,219,567 tons in 1931. Traffic through the United States locks decreased by 57 per cent and the total traffic through all four locks amounted to 20,481,047 tons. This was 24,125,278 tons less than the 1931 total and was the lightest tonnage lince 1897. The large decrease was in iron ore which amounted to only 3,607,119 tons, as against 24,259,964 tons in 1931 and a record of 64,917,703 tons in 1929, and was a new low record for the past forty years. Up-bound coal was also light, soft coal shipments amounting to only 7,190,371 tons, or about half of the normal tonnage. Wheat increased over 1931 shipments from 189,272,600 tushels to 207,227,164 bushels.

Welland Ship Canal:

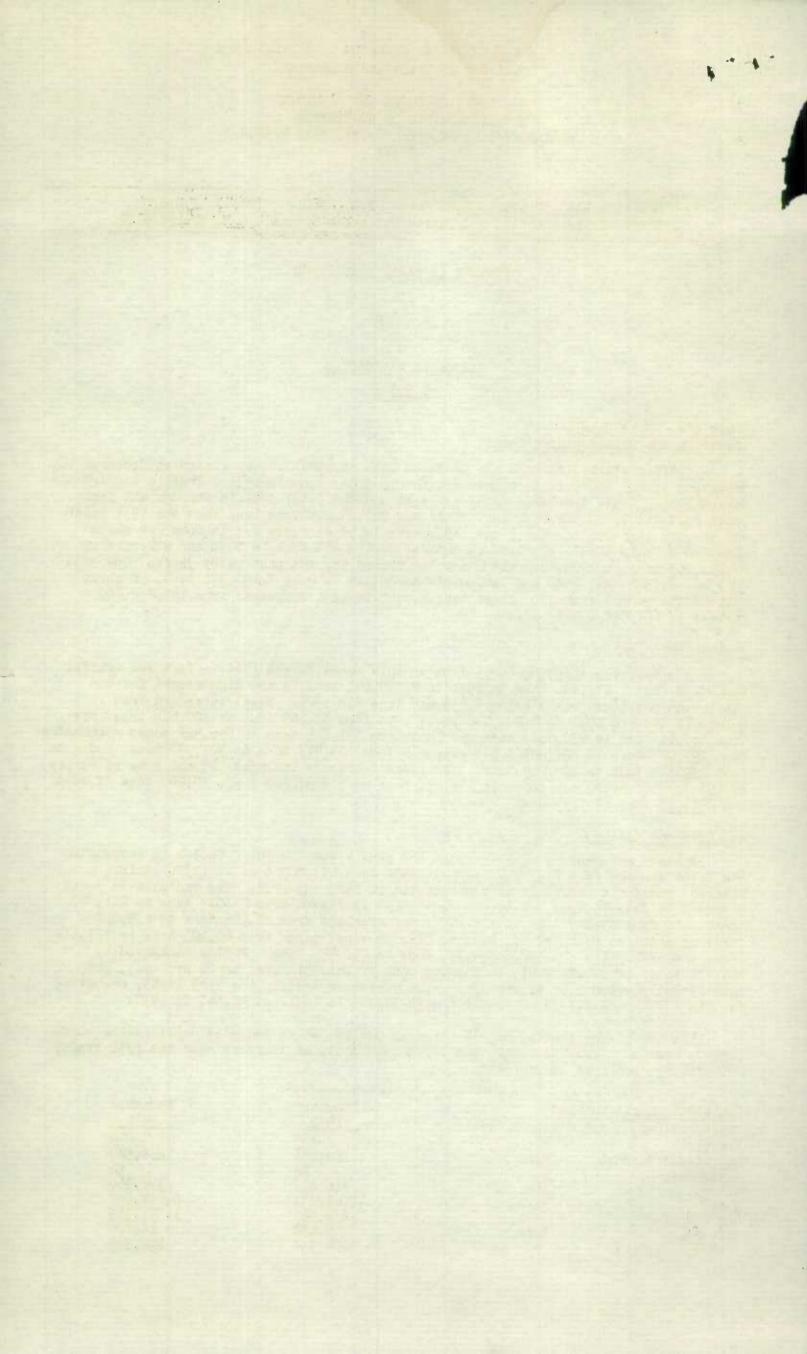

The improved shipping conditions on this canal showed their effect and traffic increased from 7.273,886 tons in 1931 to 8,535,641 tons, a new high record for the canal, the previous record being 7,439,617 tons for 1928. Wheat increased from 2.146,418 tons in 1931 to 2,926,509 tons; corn from 81,685 tons to 300,686 tons; rye from 26,011 tons to 232,368 tons; gasolene from 131,645 tons to 296,522 tons; merchandise from 297,017 tons to 522,588 tons; pulpwood from 209,415 tons to 301,997 tons, and coke from 139,313 tons to 292,255 tons. The large decreases included 205,868 tons of barley, 34,153 tons of petroleum and other, 74,057 tons of bituminous coal, 30,207 tons of sand and 241,517 tons of iron ore.

St. Lawrence Canals:

A heavy movement of wheat inrough the canals was the chief factor in increasing the total tonnage from 6,036,980 tons in 1931 to 6,693,800 tons in 1932. This, however, was not a record as it was exceeded in 1927 and 1928. The increase in wheat amounted to 763,075 tons, or 39 per cent. Rye increased from 41,017 tons to 221,147 tons, corn from 83,845 tons to 173,285 tons; gasolene from 63,906 tons to 173,022 tons; merchandise from 392,487 tons to 582,703 tons; paper from 60,103 tons to 121,814 tons, and anthrosite coal from 134,730 tons to 230,453 tons. Barley decreased by 235,771 tons, or 50 per cent, bitibinous coal by 161,451 tons, or 20 per cent, and sand by 263,923 tons, or 6. per cent. The passenger traffic was very light, amounting to only 1,784 passengers as compared with 43,866 in 1931 and 51,848 in 1930.

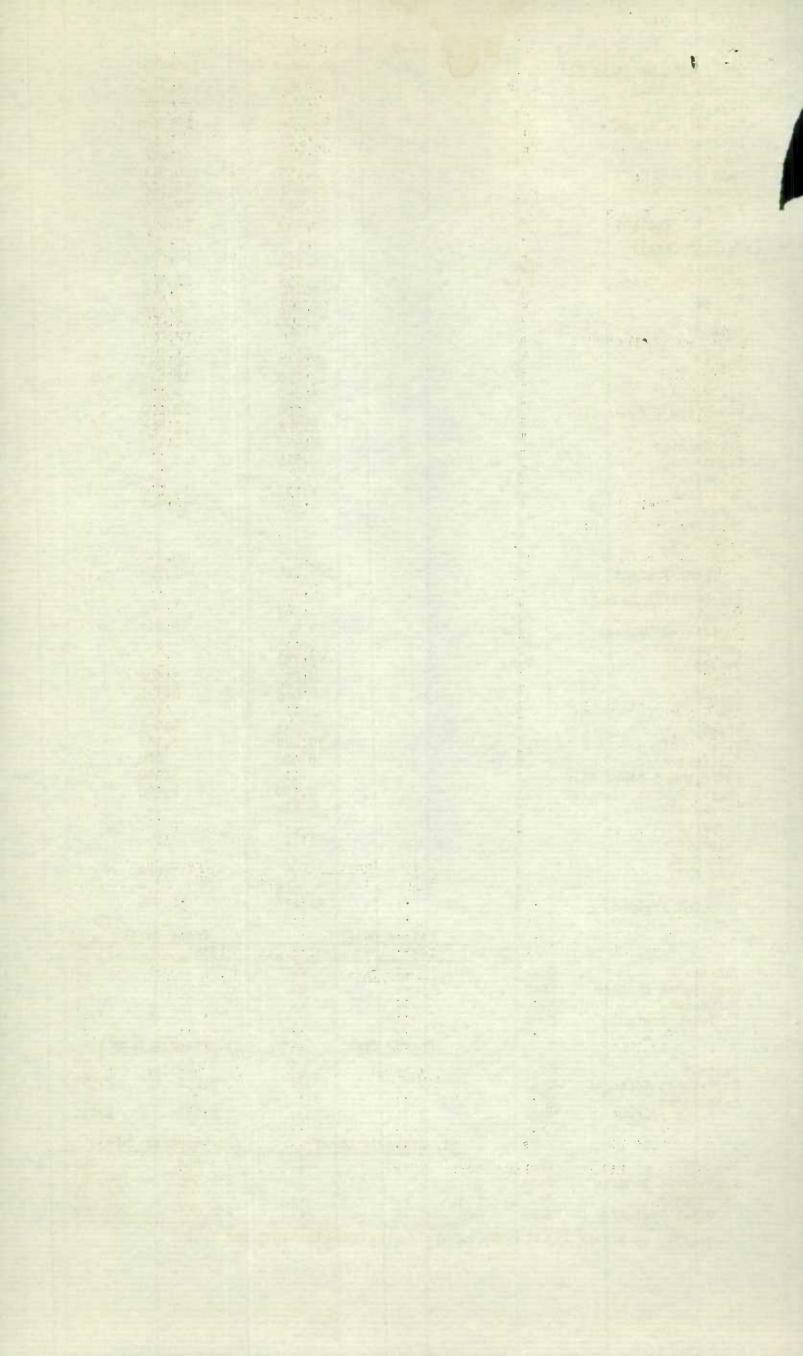

The sum of the traffic on all Caradian canals, which includes duplications where cargoes use more than one canal, was 17,955,709 tons, an increase over the 1931 traffic of 1,766,635 tons, or 10 per cent.
