DOMINION BUREAU OF STATISTICS

OTTAWA - CANADA

Published by Authority of the Rt. Hon. C. D. Howe, Minister of Trade and Commerce

Memorandum

SUMMARY OF CANAL STATISTICS OCTOBER, 1956

Price per year \$1.00

The amount of freight transported through the eleven Canadian canals during the month of October totalled 5,118,784 tons, an increase of 733,984 tons or 16.7 per cent over the October, 1955 total of 4,384,800 tons. Increased traffic was reported by the Welland, the St. Lawrence and three of the smaller canals, while a decrease was recorded at the Canadian lock of the Sault Ste. Marie canal. Commodities responsible for the overall advance over the previous October include wheat, bituminous coal, iron ore and fuel oil. The number of vessel passages advanced to 3,964 from 3,263 and the registered net tonnage rose to 4,567,420 tons from 3,890,151 in October, 1955.

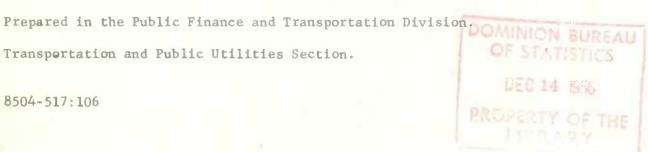

Sault Ste. Marie Canals - Canadian and United States Locks: Although the amount of freight through the Canadian lock declined this October to 275,391 tons from 288,037 in October 1955, the total cleared through the combined system rose to 16,394,498 tons from 15,175,994, a gain of 1,218,504 tons or 8.0 per cent, due mainly to increased eastbound shipments of iron ore which advanced to 13,087,974 tons from 12,260,842; wheat rose to 537,760 tons from 473,417 and crude petroleum increased to 115,839 tons from 66,488. Westbound shipments of bituminous coal rose to 1,339,567 tons from 1,116,809 in the previous October. The number of vessel passages increased to 2,903 from 2,789 while the registered net tonnage rose to 13,632,491 net tons from 12,882,895.

Welland Ship Canal: Total freight transported through the Welland Ship canal in October increased to 2,987,708 tons from 2,529,568 in October 1955, an increase of 458,140 tons or 18.1 per cent. Commodities which contributed to the advance this October include: wheat which totalled 277,035 tons as compared with 211,684 tons a year earlier; bituminous coal which advanced to 658,883 tons from 558,989; iron ore which rose to 896,721 tons from 720,973 and fuel oil which increased to 118,812 tons from 76,765 in the preceding October. Decreases were reported for flaxseed and crude petroleum. A total of 1,182 vessels of 2,583,811 registered net tons cleared through the system as compared with the October 1955 total of 1,029 vessels of 2,201,106 net tons.

St. Lawrence Canals: The volume of freight shipped through the St. Lawrence system during October amounted to 1,790,603 tons as compared with 1,526,240 tons in October 1955, a gain of 264,363 tons or 17.3 per cent. Although the tonnage of a number of commodities including rye, flour, crude petroleum and newsprint was lower than in the previous October, an overall increase was reported as the tonnage was higher for such commodities as wheat, corn, oats, barley, bituminous coal, iron ore, gasoline and fuel oil. Wheat shipments advanced to 308,291 tons from 175,818; bituminous coal rose to 251,936 tons from 228,180; iron ore increased to 352,445 tons from 300,604 and cargoes of fuel oil totalled 132,405 tons as against 111,895 in the previous October. Vessel passages numbered 1,458 aggregating 1,283,697 registered net tons as compared with 1,253 vessels of 1,127,128 net tons in the preceding October.
