## SUMMARY OF CANAL STATISTICS SEPTEMBER, 1956

Price per year \$1.00

The total tonnage of freight locked through the eleven Canadian canal systems in September amounted to 4,941,658 tons, an increase of 623,036 tons or 14.4 per cent more than the September 1955 total of 4,318,622 tons. Increased traffic was reported by the Sault Ste. Marie, the Welland Ship, the St. Lawrence and four of the smaller canals. Commodities responsible for the general improvement over the previous September included wheat, barley and iron ore through the Welland Ship and St. Lawrence canals, and bituminous coal through the St. Lawrence. The number of vessel passages advanced to 4,267 from 3,614 and the registered net tonnage rose to 4,328,503 tons from 3,848,513. The number of passengers carried this September declined to 11,050 from 19,693, while the number of pleasure craft lockages rose to 7,142 from 6,508.

Sault Ste. Marie Canals - Canadian and United States Locks: The amount of freight shipped through the combined system this September rose to 16,447,076 tons from 16,069,198 in the previous year, an advance of 377,878 tons or 2.4 per cent. Eastbound shipments of wheat increased to 674,271 tons from 308,760; barley advanced to 276,873 tons from 174,645, and crude petroleum rose to 133,637 tons from 66,601. A few decreases were recorded, including iron ore which dropped to 12,938,357 tons from 13,465,835. Westbound shipments of bituminous coal rose to 1,446,560 tons from 1,286,074 in the previous September. The total number of vessel passages increased to 2,924 from 2,894 while the total registered net tonnage rose to 12,778,521 tons from 12,547,939.

Welland Ship Canal: The volume of freight carried through the Welland Ship canal in September amounted to 2,784,258 tons as compared with the September 1955 total of 2,504,561. The advance of 279,697 tons, or 11.2 per cent, was due mainly to heavier traffic in wheat and iron ore. Wheat shipments totalled 286,382 tons, as compared with 227,240 a year earlier; barley advanced to 136,421 tons from 106,285 and iron ore increased to 1,021,712 tons from 743,523. A decrease was registered for bituminous coal, which declined to 533,695 tons from 652,460. A total of 1,170 vessels of 2,387,945 registered net tons was cleared through the system, as compared with the September 1955 total of 1,083 vessels of 2,147,640 net tons.

St. Lawrence Canals: The total freight transported through the St. Lawrence system during September increased to 1,782,782 tons from 1,477,592 in September 1955, a gain of 305,190 tons or 20.7 per cent. Commodities which were transported in greater volume included wheat, barley, bituminous coal and iron ore. Wheat shipments advanced to 269,551 tons from 193,358; barley rose to 124,794 tons from 48,670; bituminous coal increased to 294,041 tons from 203,638 and iron ore shipments were up by 36,762 tons, to 380,106 from 343,344. Several of the other commodities registered slight gains. Vessel passages numbered 1,529 aggregating 1,261;792 registered net tons, as compared with 1,283 vessels of 1,087,324 net tons in the preceding September.

Prepared in the Public Finance and Transportation Division.

Transportation and Public Utilities Section.
