SUMMARY OF CANAL STATISTICS

For DECEMBER and SEASON of NAVIGATION, 1958

Total freight shipped through Canadian canals during the 1958 season of navigation amounted to 35,096,767 tons, a decline of 2,134,563 or 5.7 per cent from the 1957 total of 37,231,330 tons. As in 1957, the three major canals recorded decreases; freight traffic through the Sault Ste. Marie canal was down by 31.2 per cent, through the Welland canal by 4.9 per cent and through the St. Lawrence canals by 3.5 per cent. While the smaller inland canals also reported decreased traffic, freight through the Canso canal registered an increase of 33 per cent. Vessel passages declined to 27,370 from 29,432 in the previous year while registered net tonnage dropped to 31,654,014 tons from 33,122,019.

Sault Ste. Marie Canals - Canadian and United States Locks:

The volume of freight transported through the combined system during the 1958 season of navigation dropped to 76,681,513 tons from 111,792,230 in 1957 with tonnage through the Canadian lock declining to 1,228,661 tons from 1,784,700. A drop of over 32 million tons in east bound shipments of iron ore to 54,036,936 tons from 86,187,035 accounted for 91 per cent of this decrease while a decline of 2,604,073 tons in west bound shipments of bituminous coal to 6,385,784 accounted for another 7 per cent. The number of vessel passages decreased to 16,633 from 21,303 while registered net tonnage fell to 63,476,106 tons from 90,380,270.

Welland Ship Canal:

Freight cleared through the Welland Ship Canal amounted to 21,274,194 tons as compared with 22,373,869 in the previous year, a drop of 1,099,675 tons. Decreases in iron ore and coal more than offset increases recorded in other commodities. Shipments of iron ore dropped to 4,259,811 tons from 5,483,746, bituminous coal to 4,400,800 tons from 5,504,683 and crude petroleum to 326,011 tons from 947,740. On the other hand shipments of wheat increased to 3,630,261 tons from 2,763,745, barley to 1,336,175 tons from 763,249 and sand, gravel and stone to 503,118 from 149,833. Vessel passages declined to 8,736 from 9,154 and net registered tonnage to 17,821,357 tons from 19,476,027.

St. Lawrence Canals:

Freight tonnage carried through the St. Lawrence canals during 1958 amounted to 11,762,280 tons compared with 12,191,142 in the previous year, a decrease of 428,862 tons. Cargoes of bituminous coal dropped to 1,028,361 tons from 1,642,773, iron ore to 1,526,109 tons from 2,497,045 and fuel oil to 547,365 tons from 734,914. Among commodities transported in greater volume were wheat, which increased to 2,784,147 tons from 2,085,263, oats to 259,528 tons from 157,684, barley to 1,028,762 tons from 494,524 and crude petroleum to 247,935 tons from 61,399. A total of 11,184 vessels aggregating 9,114,416 registered net tons passed through the system as against 11,546 vessels of 8,890,933 net tons in 1957.

Prepared in the Transportation and Public Utilities Section, Public Finance and Transportation Division.

8504-517-128
