DOMINION BUREAU OF STATISTICS  
APR 27 1958  
PROPERTY OF THE LIB  
Memorandum

Vol. 2, No. 2

Price: \$3.00 per year

## SHIPPING STATISTICS

February, 1958

The total volume of freight handled at Canadian ports during February amounted to 3,389,363 tons, an increase of 76,041 tons or 2.3 per cent over the February 1957 total of 3,313,322 tons. In foreign trade loadings rose 11.8 per cent to 1,680,268 tons while unloadings declined 16.3 per cent to 501,392 tons. In coastal trade loadings decreased 1.5 per cent to 565,998 tons, while unloadings increased slightly to 641,705 tons. Cargo tonnage for the two months January and February totalled 6,331,803 tons as compared with 6,871,011 in the same period last year. Loadings and unloadings in foreign trade decreased 4.6 per cent to 4,297,527 tons from 4,506,222 while freight handled in coastal trade decreased 14.0 per cent to 2,034,276 tons from 2,364,789. Vessel arrivals and departures in both services totalled 10,682 as against 11,106 in February 1957 while registered net tonnage dropped to 8,972,688 tons from 9,245,110. For the first two months of the year the number of vessels was down by 2,639 from last year.

Commodities loaded in greatest volume in foreign trade were wheat, lumber, gypsum, newsprint and general. Although decreases were reported in shipments of crude oil and general, there were sizeable increases in cargoes of wheat, lumber, iron ore and barley. As a result there was a net increase of 177,257 tons from the previous February in the amount of cargo destined to foreign ports. Receipts from foreign ports were down by 97,954 tons, an increase of 41,036 tons in shipments of crude petroleum being more than offset by decreases of 93,693 and 30,595 tons in petroleum products and iron ore.

In coastal trade the greatest volume of shipping was recorded in petroleum products, pulpwood, sand, gravel and crushed stone, and general cargo. Although unloadings of many commodities including iron ore and bituminous coal were lower than in the previous February increases in sand, gravel and crushed stone, and general cargo resulted in an overall increase this February of 5,554 tons.

As compared with February 1957, cargo loaded at Atlantic and lower St. Lawrence River ports increased 26.7 per cent to 968,548 tons while cargo loaded at Pacific coast ports dropped 2.2 per cent to 1,274,918 tons. Unloadings on the other hand fell 22.1 per cent in the Atlantic region to 440,594 tons while rising 4.9 per cent in the Pacific area to 702,503 tons. Traffic on the Great Lakes was negligible in February of both years as a result of winter freeze up.

Canadian ports registering the greatest volume of cargo handled during February were: Vancouver, 1,070,627 (965,212 in February, 1957); Halifax, 628,628 tons (635,195); and Saint John, 410,175 tons (314,717).

Prepared in the Transportation and Public Utilities Section,  
Public Finance and Transportation Division.
