TONNAGE OF CARGO LOADED AND UNLOADED  
AT CANADIAN PORTS 1975

Preliminary

This bulletin represents a preview of 1975 shipping statistics which are due for publication later this year. The attached table gives totals of tons loaded and unloaded at Canadian ports during the year 1975 in both International and Domestic shipping. The figures represent short tonnages (i.e., 2,000 lb.). The ports listed are those included in the Annual Publications, "Shipping Report Part II and Part III".

The following should be noted in analysing the attached table:

- (1) The statistics are compiled from reports submitted by operators to the collector of Customs and Excise.
- (2) Transshipment, i.e., cargo moved from one vessel to another within a port, are excluded.
- (3) Intra-port movement, i.e., movement of cargo within port boundaries, are excluded.

TONNES DE MARCHANDISES EMBARQUÉES ET DÉBARQUÉES  
AUX PORTS DU CANADA 1975

Données provisoires

Le présent bulletin donne un aperçu de la statistique du transport maritime de 1975 qui sera publiée au cours de l'année. Le tableau ci-joint donne le nombre total de tonnes de marchandises embarquées et débarquées aux ports du Canada en 1975 dans le cadre de la navigation nationale et internationale. Les données sont présentées en tonnes courtes (c.-à.-d., 2,000 livres). La liste des ports est identique à celle des bulletins; annuels, "Transport Maritime: partie II et partie III".

On fera bien de tenir compte des remarques qui suivent pour l'analyse du tableau ci-joint:

- (1) Les statistiques sont fondées sur les déclarations des exploitants aux receveurs des douanes et accise.
- (2) Les transbordements, c'est-à-dire les mouvements de marchandises d'un navire à un autre à l'intérieur d'un même port ne sont pas compris.
- (3) Les mouvements de marchandises à l'intérieur d'un même port ne sont pas compris.
