SHIPPING REPORT

YEAR ENDED MARCH 31, 1940

The Shipping Report for years prior to the fiscal year ended March 31, 1938 was compiled by the Customs Division of the Department of National Revenue. This work was transferred to the Dominion Bureau of Statistics and the statistics for subsequent years have been compiled by the Bureau from summary returns made by the collector of customs at each port.

Cargoes are shown only in tons of 2,000 pounds. The majority of cargoes are so reported and where reported in tons of 40 cubic feet they have been added to the tons weight. Crew were compiled only for inbound vessels. The difference for outbound vessels is small.

Sea-going vessels calling at two or more ports are reported in from sea and out coastwise at the first port and in from sea at the second port. Also, vessels calling at two or more ports on an outbound voyage are reported departed sea-going at the first port, arrived coastwise and departed sea-going at the second port. Consequently the total arrivals and total departures at any port in any of the three services may not coincide. The difference in the number and tonnage of vessels in port at the beginning and end of the year will also affect the total of arrivals and departures.

BUREAU FEDERAL DE LA STATISTIQUE
BRANCHE DES TRANSPORTS ET DES UTILITES PUBLIQUES

RAPPORT DE LA NAVIGATION

ANNEE TERMINEE LE 31 MARS 1940

—

Avant l'année fiscale terminée le 31 mars 1938 le Rapport de la Navigation était préparé par la division des Douanes du Ministère du Revenu National. Ce travail a été transféré au Bureau Fédéral de la Statistique et les statistiques des années suivantes ont été compilées par le Bureau à même les rapports sommaires des percepteurs des douanes à chaque port.

Les cargaisons sont indiquées seulement en tonnes de 2,000 livres. La majorité des cargaisons sont déclarées de cette façon; quand elles le sont en tonnes de 40 pieds cubes elles sont ajoutées au poids en tonne. Les équipages ne sont compilés que pour les navires arrivant. La différence pour les navires en partance est petite.

Les long-courriers faisant escale à deux ports ou plus sont inscrits au premier port comme arrivant de la haute mer et comme caboteurs en partance, et au deuxième, comme arrivant de la haute mer, et au deuxième, comme caboteurs arrivant et comme long-courriers partant pour la haute mer. La différence dans le nombre et le tonnage des navires en mouillage dans un port au commencement et à la fin de l'année affecte aussi le total des arrivées et des départs.
