Introduction	1
TABLE 1. - Summary - Vessels Arrived and Departed, 1954 - 1948	5
TABLE 2. - Vessels Arrived. No. - Reg. Net Tons, 1948 In Coasting Service - In Foreign Service - By Ports	4
TABLE 3. - Vessels Departed. No. - Reg. Net Tons In Coasting Service - In Foreign Service - By Ports	11
TABLE 4. - Vessels Entered and Departed by Provinces, by Rig	18
TABLE 5. - Vessels in Foreign Service by Country of Registry Arrived and Departed - No. - Reg. Net Tons - Cargoes	20
TABLE 6. - Vessels in Foreign Service by Countries Entered from and Cleared for - No. - Reg. Net Tons	24
TABLE 7. - Cargoes Loaded for Foreign Countries - By Ports Cargoes Unloaded from Foreign Countries	28
TABLE 8. - Cargoes Loaded at Canadian Ports for Foreign Countries and Registry of Vessel, Kind of Cargo - By Countries	51
TABLE 9. - Cargoes Unloaded at Canadian Ports from Foreign Countries and Registry of Vessel, Kind of Cargo - By Countries	84
TABLE 10. - Tugs Arrived and Departed - By Ports No. - Reg. Gross Tons	105
TABLE 11. - Fishing Vessels Arrived and Departed - By Ports No. - Reg. Net Tons	111
APPENDIX 1 - Countries and Geographical Areas	117
APPENDIX 2 - Commodities	118

SHIPPING REPORT

1948

Shipping statistics are compiled from reports made by operators or agents of vessels arriving at and departing from Canadian ports at which there are customs officials. These officials act as agents for the Dominion Bureau of Statistics in collecting the reports and forwarding them to the Bureau. A description of the method of collecting and compiling the statistics is given in the report for 1941. Also included in that report are reproductions of the statistical form used for vessels in both coasting and in foreign service and reproductions of the cards used to analyse and compile statistics of vessels in foreign service and their cargoes, loaded and unloaded.

Coasting service includes vessels arriving from a Canadian port or departing for a Canadian port when no freight from a foreign port is unloaded or no freight for a foreign port is loaded. Under this definition a foreign vessel from a foreign country would be classed in coasting service when departing from a Canadian port for a second Canadian port, as well as vessels trading between Canadian ports. Foreign service includes vessels arriving from a foreign port as last port of call or departing for a foreign port as first port of call, or unloading freight from or loading freight for a foreign port. Vessels in foreign service include vessels classified in reports prior to 1941 as "sea-going" and "trading between Canada and the United States on lakes and rivers".

If a vessel does not unload any freight or does not load any freight, it is classed as arriving or departing, respectively, "in ballast", regardless of the amount of freight it might have on board. Because of these definitions a vessel may arrive twice in foreign service and depart in coasting service on the same trip and, consequently, the number of departures and arrivals in either class of service will not always be the same. Vessels built in Canadian ports will also cause a disparity in the number of arrivals and departures. There are also certain customs regulations in respect to fishing vessels that are responsible for some difference in reports of departures and arrivals.

In the present report Tables 8 and 9 have been considerably expanded. Table 8 gives the country of destination, kind of cargo, registry of vessel, tonnage or tons measurement of cargo loaded for foreign countries and allocates by geographical regions of Canada. Table 9 shows country of origin of cargoes unloaded in foreign trade as well as kind or commodity, registry of vessel, tonnage or tons measurement of cargo and by geographical divisions, namely, Atlantic and Lower St. Lawrence, Great Lakes and Upper St. Lawrence and at Pacific ports.

Table 11 lists arrivals and departures of fishing vessels from customs ports only. Table 5 shows cargo tonnage of vessels by country of registry. Other statistics available on request but not

published in this report, include draft of vessels entering each port, vessels of each flag entering each port, etc.

In classifying vessels in coasting service as to size, all unrigged vessels, all tugs and sail fishing vessels were grouped with the vessels of 10 to 99 net registered tons. Also, all vessels of over 4,000 net tons in coastal service were grouped with vessels 4,000 to 4,999 tons. This accounts for the average tonnage of coasting vessels in these two groups being greater in some cases than the maximum of the group. The number of vessels in coasting service of over 4,999 net tons are few except on the Great Lakes and the unrigged, tugs and sail fishing vessels were grouped with these small vessels for convenience. All vessels in foreign service were classified in Tables 2 and 3 strictly according to their tonnages.

Cargoes:- Tables 6 to 9 include data on cargoes to and from foreign countries. Details of cargoes are shown only for the larger ports and when only one commodity was handled at these ports the commodity was shown and no total. Tonnages of each commodity listed are not complete in all cases. Considerable tonnage of these commodities is included under "General", but where vessels loaded or unloaded only one commodity or where vessels with general cargoes handled any of these commodities in large lots, the tonnage of the commodity was reported and compiled. Tonnage data were required to be reported in tons weight of 2,000 pounds or in tons measurement of 40 cu.ft., but because of the practice in previous years of reporting tons in long tons of 2,240 pounds there is a possibility that some vessels did not report their cargoes in short tons.

During the year one United States vessel with a net tonnage of 4,006 tons was taken to Hamilton, Ontario, to be scrapped. It was not included in the "Vessel Arrivals" nor treated as cargo unloaded in this report.

Vessel Tonnage:- Reports are not required from cargo vessels of less than ten net tons. Tugs and other vessels not designed to carry cargoes are required to report gross tons instead of net tons and these gross tons are added to net registered tons of other vessels in this report. These gross tons are a small percentage of the total and consequently the effect is small. No reports are required from such vessels of less than ten gross tons.

A list of the countries and geographical areas used for origin and destinations of vessels and of cargoes is included as an appendix. Also, as a second appendix is a list of the commodities used for classifying cargoes. By reference to these the meaning of such items as "ores - other", "West Indies - other", etc., is clarified.

TABLE 1
