SHIPPING REPORT, 1957

Year ended December 31, 1957

INTRODUCTION

This is the first section of the 1957 "Shipping Report" which presents the details of cargoes loaded and unloaded at Canadian customs ports in international seaborne or foreign shipping. It contains six tables. The first two show cargoes loaded by country of destination and by commodities, while tables three and four show similar data for cargoes unloaded from foreign countries. Table 5 shows the number and registered net tonnage of vessels arriving at and departing from Canadian ports in international service, by registry of vessel. This table also shows the cargo tons loaded and unloaded. A résumé of vessels and tonnage arriving and departing at Canadian ports in international service from 1918 to 1957 is presented in Appendix A. Section II which will be released shortly, will contain a number of other tables pertaining to foreign shipping while Section III will cover all available data relating to the coastwise trade including details of cargoes.

Previous to 1952, a complete statistical picture of Canada's shipping activity was not available due to insufficient detail of the coastwise and inland segments of the industry. The Bureau's annual "Canal Statistics" gives an analysis of traffic moving between Canadian ports but only that portion which uses the facilities of one or more of the canal systems. Also, some records of coastwise traffic were

maintained by the National Harbours Board and certain Harbour Commissioners and Boards of Trade. In addition, special surveys were made for the Canadian Maritime Commission each year on cargoes carried into the St. Lawrence River -- Great Lakes system by the principal Canadian shipping companies.

The great bulk of the cargo moving, however, between pairs of Canadian ports on the Atlantic and Pacific coasts and on certain Great Lakes and the St. Lawrence River were not reported. As a result, early in 1951 an inter-departmental committee, representing all interested parties, set up to look into the problem, decided to attempt to secure the details of cargoes carried in the coastwise trade as it would provide another statistic towards the measurement of interprovincial trade in Canada and as it would be important to know the pattern of the coasting trade in case of an emergency.

With the excellent assistance of the Department of National Revenue whose customs officials instructed shipping officers in the new procedure of reporting their coastwise activities, these new data were collected beginning in January, 1952.

Commencing January, 1957, statistics on vessels in coastwise traffic have been enlarged to include the movement to and from non customs ports.

Source and Treatment of Data

Shipping statistics are compiled from reports made by operators or agents of vessels arriving at and departing from Canadian ports. At ports where there are customs officials these officials act as agents for the Dominion Bureau of Statistics in collecting the reports and forwarding them to the Bureau. For other ports the reports are either forwarded through the nearest customs office or mailed direct to the Bureau.

Customs regulations regarding coastwise vessels were revised in April, 1955, to permit owners or masters of such vessels who obtain coasting licenses to enter and leave port without clearing at customs. Thus no longer is the owner or master required to present a shipping report directly to customs officials but instead may mail his report to the customs officials at the port concerned if it is more convenient. This new procedure has given the Bureau the task of ensuring that all licensed coasting vessels continually report all their shipping activities. Failure to submit shipping reports can result in the cancellation of a vessel's coasting license by the Department of National Revenue.

A vessel is classed as being in foreign service when (1) it arrives from a foreign port as last port of call or departs for a foreign port as first port of call; (2) cargo is loaded for a foreign port or unloaded from a foreign port; (3) the registry of the vessel is other than Canada or the United Kingdom even though the vessel may have arrived at one Canadian port from another or departed from a Canadian port for another.

Coasting service includes vessels of Canadian or United Kingdom registry only, which arrive at one Canadian port from another or depart from one Canadian port for another and when no freight from a foreign port is unloaded or no freight for a foreign port is loaded.

If a vessel does not unload any freight or does not load any freight, it is classed as arriving or departing, respectively, "in ballast", regardless of the amount of freight it might have on board. Because of these definitions a vessel may arrive twice in foreign service and depart in coasting service on the same trip, and, consequently, the number of departures and arrivals in either class of service will not always be the same. Vessels built in Canadian ports will also cause a disparity in the number of arrivals and departures. There are also certain customs regulations in respect to fishing vessels that are responsible for some difference in reports of departures and arrivals.

Beginning with the 1948 report Tables 1 and 3 were considerably expanded. Table 1 gives the country of destination, kind of cargo, registry of vessel, tonnage of cargo loaded for foreign countries and allocated by geographical regions of Canada, namely, Atlantic and Lower St. Lawrence, Great Lakes and Upper St. Lawrence and at Pacific ports. Table 3 shows country of origin of cargoes unloaded in foreign trade as well as kind or commodity, registry of vessel, tonnage of cargo and by geographical divisions.

In classifying vessels in coasting service as to size, all unrigged vessels, all tugs and sail fishing vessels were grouped with the vessels of 10 to 99 net registered tons.

SHIPPING REPORT, 1957

Tables 2 and 4 include data on cargoes to and from foreign countries. Tonnages of each commodity listed are not complete in all cases. Considerable tonnage of these commodities is included under "General", but where vessels loaded or unloaded only one commodity or where vessels with general cargoes handled any of these commodities in large lots, the tonnage of the commodity was reported and compiled.

Tonnage data are required to be reported in tons weight of 2,000 pounds or in tons measurement of 40 cu. ft., but because of the practice in previous years or reporting tons in long tons of 2,240 pounds there is a possibility that some vessels did not report their cargoes in short tons. As of 1951, cargoes reported in tons measurement have been added to those reported in tons weight.

Reports are not required from vessels of less than 15 registered net tons. Tugs and other vessels not designed to carry cargoes are required to report gross tons instead of registered net tons and these gross tons are added to registered net tons of other vessels in this report. These gross tons are a small percentage of the total and consequently the effect is insignificant.

A list of the countries and geographical areas used for origin and destination of vessels and cargoes is included as an appendix to Section I. Also, as a second appendix, there is a list of the commodities used for classifying cargoes. By reference to these the meaning of abbreviations is clarified.

Review of 1957 Operations

Vessels departing from Canadian customs ports for foreign countries reported loadings of 49,095,493 tons. This was a decline of less than one per cent from the record of 49,373,132 reached in 1956. Loadings were up at Pacific ports only, rising by 10.9 per cent to 10,805,213 tons from 9,745,052. At Atlantic and lower St. Lawrence River ports loadings fell off by 2 per cent to 31,259,583 tons from 31,932,402 while at Great Lakes and upper St. Lawrence River ports loadings dropped to 7,030,697 tons from 7,695,678, down by 8.6 per cent. Shipments of iron ore, wheat and barley, gypsum, newsprint, lumber and pulpwood accounted for 76 per cent of total loadings, iron ore alone accounting for 41 per cent of the total.

Iron ore loadings rose to 19,973,873 tons from 18,831,791 in the previous year, lumber increased to 1,895,192 tons from 1,609,969, pulpwood to 1,829,308 from 1,699,550 and newsprint to 2,346,243 from 2,144,508. Increases were also recorded in loadings of oats which rose to 310,495 tons from 94,066, flaxseed up to 436,811 tons from 211,974, iron, pig and bloom, to 673,314 from 311,716 and crude petroleum to 991,140 from 826,517. Other significant increases included paper, other than newsprint, salt, non-metallic mineral products, gasoline and fertilizers.

In contrast, loadings of barley fell off to 1,358,175 tons from 1,760,519 and gypsum declined to 3,524,568 tons from 3,788,983 in 1956. The increase of 1,142,082 tons in iron ore loaded was more than offset by a drop of almost 2 million tons in wheat which dropped to 6,476,583 tons from 8,451,467. Loadings of general cargo also were down by 1,275,173 tons.

Cargoes unloaded from foreign countries declined in all three coastal areas and the total of 38,818,102 tons was 4 per cent below the 1956 record of 40,554,312. At Atlantic and lower St. Lawrence River ports unloadings were down by 1,189,457 tons or 8.5 per cent, dropping to 12,785,295 tons from 13,974,752. At Great Lakes and upper St. Lawrence ports unloadings totalled 23,676,856 tons only 1.5 per cent below the 1956 total of 24,061,174, and at Pacific ports cargo

unloaded declined by 6.4 per cent to 2,355,951 tons from 2,518,386. Shipments of bituminous coal unloaded decreased to 15,540,066 tons from 15,784,319, unloading of iron ore dropped to 4,689,651 tons from 5,090,502, bauxite to 2,222,875 from 2,448,183 and petroleum oils and products to 3,356,487 tons from 3,756,666. Other decreases included limestone which dropped to 855,879 tons from 951,407 and cement, down to 44,934 tons from 400,764 in 1956.

Increased unloadings were recorded for a few commodities including flaxseed, which rose to 243,662 tons from 16,720 in 1956, up by 226,942 tons, iron and steel, up by 157,217 tons, iron, pig and bloom, by 126,526 tons and woodpulp by 114,723 tons.

As in previous years, the bulk of Canada's water-borne commerce was with the United States and the United Kingdom. The two countries combined accounted for 74 per cent of all cargo loaded and unloaded. Cargoes loaded for United States ports in 1957 showed little change from the previous year totalling 25,912,449 tons as against 25,936,408 in 1956. This represented almost 53 per cent of the total cargo loaded at Canadian ports in international trade. Cargoes loaded at Atlantic and lower St. Lawrence River ports destined to the United States showed a slight increase, rising to 15,532,078 tons from 15,227,876 in 1956. At Great Lakes and upper St. Lawrence ports loadings for the United States were down 9 per cent, dropping to 6,839,772 tons from 7,549,689, but at Pacific coast ports cargoes for the United States were up by 12 per cent, advancing to 3,540,599 tons from 3,158,843. Shipments originating in the United States and unloaded at Canadian ports declined to 27,730,758 tons from 28,304,156, down 2 per cent. Shipping between Canada and the United Kingdom also declined. Cargoes loaded at Canadian ports for the United Kingdom totalled 10,198,729 tons as against 10,326,649 in 1956, down by 12 per cent, while unloadings declined 3 per cent to 1,287,612 tons from 1,387,594.

During 1957 a total of 87,913,595 tons of cargo was loaded or unloaded at Canadian ports in international shipping. Of this, a total of 29,106,252 tons or 33 per cent was handled by ships of Canadian registry.

1. Cargo data for years 1918 to 1940 exclude Canada - United States trade via Great Lakes.

2. Data for Newfoundland included from April 1, 1949.

APPENDIX B

List of Countries and Geographical Areas

Country	Country
Aden	Ethiopia (Abyssinia)
Afghanistan	Fiji
Africa--British East --(Tanganyika--Kenya--Eritrea--Somaliland)	Finland
Africa--British West	Formosa
Africa--French--Algeria--Tunis--Ivory Coast	France--Atlantic--English Channel
Africa--French--Equatorial--Somaliland	France--Mediterranean
Africa--Portuguese & Mozambique	Germany
Africa--Union of South Africa	Ghana
Africa--Spanish--Morocco--Rio-de-Oro--Rio Muni	Gibraltar
Alaska	Greece--Dodecanese Islands
Albania	Greenland
Algeria	Guam
Argentina	Guatemala
Australia	Guiana--British
Austria	Guiana--French
Azores--Madeira	Guiana--Netherlands (Surinam)
Barbados	Haiti
Belgian Congo	Hawaiian Islands
Belgium & Luxembourg	Honduras
Bermuda	Honduras--British
Bolivia	Hong Kong
Brazil	Hungary
Bulgaria	Iceland
Burma	India
Canada	Indo China--French
Canal Zone--Panama	Indonesia
Canary Islands	Iran (Persia)
Ceylon	Iraq (Mesopotamia)
Chile	Israel
China	Italy
Columbia	Ivory Coast
Costa Rica	Jamaica
Cuba	Japan
Cyprus-Malta	Jordan
Czechoslovakia	Kenya
Denmark	Korea
Dodecanese Islands	Kuwait
Dominican Republic (San Domingo)	Latvia
East Indies--British--North Borneo	Levant
East Indies--French--Indo China	Liberia
Ecuador	Lithuania
Egypt	Madagascar & other Indian Ocean Islands
Eire	Madeira
El Salvador	Malaya--Straits Settlement
England	Malta-Cyprus
Estonia	Mexico
	Morocco

List of Countries and Geographical Areas - Concluded

Country	Country
Mozambique	Somaliland--British
Netherlands	Somaliland--French
Netherlands Antilles	Spain
New Zealand	Straits Settlement
Nicaragua	Surinam (Netherlands Guiana)
Nigeria	Sweden
North Ireland (Ulster)	Switzerland
Norway	Syria--Levant
Oceania--British	Tanganyika
Oceania--French	Thailand (Siam)
Oceania--United States--Guam	Tobago
Pakistan	Trinidad
Panama--Canal Zone	Tunis
Paraguay	Turkey
Peru	Union of Soviet Socialist Republics--Arctic
Philippines	U.S.S.R.--Baltic Sea
Poland	U.S.S.R.--Black Sea
Puerto Rico	U.S.S.R.--Pacific
Portugal	United Kingdom
Rio Muni	United States--Atlantic--Gulf of Mexico
Rio de Oro	United States--Pacific
Roumania	United States--Great Lakes
St. Pierre--Miquelon	Uruguay
San Domingo	Venezuela
Saudi Arabia	West Indies--British Other
Scotland	West Indies--French--Netherlands--Other
Siam	Yugoslavia
Sierra Leone	

APPENDIX C

List of Commodities

AGRICULTURAL PRODUCTS

Wheat
 Corn
 Oats
 Barley
 Rye
 Flaxseed
 Soya beans
 Grain screenings
 Other grain
 Flour - grain
 Nuts - peanuts, etc.
 Malt
 Other mill products - bran, etc.
 Cotton - raw
 Apples
 Bananas
 Other fruit, fresh
 Fruit, dried
 Potatoes
 Peas and beans
 Other vegetables, fresh
 Coffee
 Tea
 Cocoa - chocolate
 Copra
 Hay and straw
 Rape seed
 Mustard seed
 Seeds, other
 Other agricultural products

ANIMALS AND ANIMAL PRODUCTS

Cattle and calves
 Other live animals
 Dressed meats, fresh, frozen
 Dressed meats, cured, salted
 Eggs, butter, cheese, milk products
 Wool
 Hides, leather
 Skins - raw or undressed
 Other animal products

MINE PRODUCTS

Fuels
 Coal - anthracite
 Coal - bituminous
 Coke
 Petroleum - crude
 Crude oil (Canadian)
 Other mined fuels

Metallic
 Iron ore
 Copper ore and concentrates
 Manganese ore
 Quartzite
 Lead and zinc
 Other metallic ores and concentrates

Non-Metallic
 Asbestos, raw
 Asphalt
 Bauxite
 Gypsum
 Salt
 Sulphur
 Other non-metallic mine products

Quarrying, Clay and Sand Pits

Limestone
 Sand, gravel, crushed stone
 Slate - dimension and block stone
 Granite
 Other clay mine products
 Other mine products

FOREST PRODUCTS

Logs, posts, poles, pitprops, piling
 Firewood - hogged fuel

List of Commodities - Concluded

FOREST PRODUCTS - Concluded

Pulpwood - pulpwood chips
 Lumber, timber, box, crate,
 cooperage material
 Other forest products

Non-Ferrous Metal Products

Aluminium, pigs, bars, rods, etc.
 Lead, bars, etc.
 Zinc, bars, etc.
 Other non-ferrous metal products

MANUFACTURES AND MISCELLANEOUS

Foods and Beverages

Animal oils
 Fish oils
 Vegetable oils and nut oils
 Beverages
 Fish, fresh, frozen, cured
 Molasses
 Sugar, raw, refined
 Canned goods - all canned food products
 Other manufactured food products
 Tobacco

Non-Metallic Mineral Products

Brick
 Cement
 Chinaware, glassware
 Lime and plaster
 Sewer pipe, drain tile
 Other non-metallic mineral products

Petroleum and Coal Products

Gasoline
 Petroleum oils and other petroleum products
 Pitch, tar, creosote
 Other petroleum and coal products

Wood Products

Newsprint paper
 Paper, other
 Paperboard, pulpboard, wallboard
 Plywood
 Woodpulp, pulp screenings
 Other manufactured wood products

Chemical Products

Fertilizers, all kinds
 Chemicals and chemical products

Iron and Steel Products

Iron, pig, bloom
 Scrap iron and steel
 Iron and steel (bar-sheet-structural-pipe)
 Rails and fastenings
 Castings and machinery
 Other iron and steel products (mfg.)

Other Manufactures and Miscellaneous Products

Rubber products, synthetic, etc.
 Agricultural implements
 Autos, trucks, parts
 Containers, empty, wood and metal
 General cargo
 All other freight, N.O.S.
 Ballast
