# CARGOES LOADED FOR AND UNLOADED FROM FOREIGN COUNTRIES

TONS WEIGHT PLUS TONS MEASUREMENT, 1947-1958

# SHIPPING REPORT

1958

## INTRODUCTION

This Part of the 1958 Shipping Report contains five tables which provide details of cargoes loaded and unloaded at Canadian customs ports in international seaborne or foreign shipping. The first two show cargoes loaded by country of destination and by commodities, while tables three and four show similar data for cargoes unloaded from foreign countries. Table 5 shows the number and registered net tonnage of vessels arriving at and departing from Canadian ports in international service, by registry of vessel. This table also shows the cargo tons loaded and unloaded. Part II which will be released shortly, will contain a number of other tables pertaining to foreign shipping while Part III will cover all available data relating to the coastwise trade including details of cargoes.

Previous to 1952, a complete statistical picture of Canada's shipping activity was not available due to insufficient detail of the coastwise and inland segments of the industry. The Bureau's annual "Canal Statistics" gives an analysis of traffic moving between Canadian ports but only that portion which uses the facilities of one or more of the canal systems. Also, some records of coastwise traffic were maintained by the National Harbours Board and certain Harbour Commissioners and Boards of

Trade. In addition, special surveys were made for the Canadian Maritime Commission each year on cargoes carried into the St. Lawrence River—Great Lakes system by the principal Canadian shipping companies.

The great bulk of the cargo moving, however, between pairs of Canadian ports on the Atlantic and Pacific coasts and on certain Great Lakes and the St. Lawrence River were not reported. As a result, early in 1951 an inter-departmental committee, representing all interested parties, set up to look into the problem, decided to attempt to secure the details of cargoes carried in the coastwise trade as it would provide another statistic towards the measurement of interprovincial trade in Canada and as it would be important to know the pattern of the coasting trade in case of an emergency.

With the excellent assistance of the Department of National Revenue whose customs officials instructed shipping officers in the new procedure of reporting their coastwise activities, these new data were collected beginning in January, 1952.

Commencing January, 1957, statistics on vessels in coastwise traffic were expanded to include the movement to and from non customs ports.

## Source and Treatment of Data

Shipping statistics are compiled from reports made by operators or agents of vessels arriving at and departing from Canadian ports. At ports where there are customs officials these officials act as agents for the Dominion Bureau of Statistics in collecting the reports and forwarding them to the Bureau. For other ports the reports are either forwarded through the nearest customs office or mailed direct to the Bureau.

Customs regulations regarding coastwise vessels were revised in April, 1955, to permit owners or masters of such vessels who obtain coasting licenses to enter and leave port without clearing at customs. Thus no longer is the owner or master required to present a shipping report directly to customs officials but instead may mail his report to the customs officials at the port con-

cerned if it is more convenient. This new procedure has given the Bureau the task of ensuring that all licensed coasting vessels continually report all their shipping activities. Failure to submit shipping reports can result in the cancellation of a vessel's coasting license by the Department of National Revenue.

A vessel is classed as being in foreign service when (1) it arrives from a foreign port as last port of call or departs for a foreign port as first port of call; (2) cargo is loaded for a foreign port or unloaded from a foreign port; (3) the registry of the vessel is other than Canada or the United Kingdom even though the vessel may have arrived at one Canadian port from another or departed from a Canadian port for another.

Coasting service includes vessels of Canadian or United Kingdom registry only, which arrive at one Canadian port from another or depart from one Canadian port for another and when no freight from a foreign port is unloaded or no freight for a foreign port is loaded.

If a vessel does not unload any freight or does not load any freight, it is classed as arriving or departing, respectively, "in ballast", regardless of the amount of freight it might have on board. Because of these definitions a vessel may arrive twice in foreign service and depart in coasting service on the same trip, and, consequently, the number of departures and arrivals in either class of service will not always be the same. Vessels built in Canadian ports will also cause a disparity in the number of arrivals and departures. There are also certain customs regulations in respect to fishing vessels that are responsible for some difference in reports of departures and arrivals.

In classifying vessels in coasting service as to size, all unrigged vessels, all tugs and sail fishing vessels were grouped with the vessels of 10 to 99 net registered tons.

Table 1 gives the country of destination, kind of cargo, registry of vessel, tonnage of cargo loaded for foreign countries and allocated by geographical regions of Canada, namely, Atlantic and Lower St. Lawrence, Great Lakes and Upper St. Lawrence and at Pacific ports. Table 3 shows country of origin of cargoes unloaded in foreign trade as well as kind of commodity, registry of vessel, tonnage of cargo and by geographical divisions.

Tables 2 and 4 include data on cargoes to and from foreign countries. Tonnages of each commodity listed are not complete in all cases. Considerable tonnage of these commodities is included under "General", but where vessels loaded or unloaded only one commodity or where vessels with general cargoes handled any of these commodities in large lots, the tonnage of the commodity was reported and compiled.

Tonnage data are required to be reported in tons weight of 2,000 pounds or in tons measurement of 40 cu. ft., but because of the practice in previous years of reporting tons in long tons of 2,240 pounds there is a possibility that some vessels did not report their cargoes in short tons. As of 1951, cargoes reported in tons measurement have been added to those reported in tons weight.

Reports are not required from vessels of less than 15 registered net tons. Tugs and other vessels not designed to carry cargoes are required to report gross tons instead of registered net tons and these gross tons are added to registered net tons of other vessels in this report. These gross tons are a small percentage of the total and consequently the effect is insignificant.

A list of the countries and geographical areas used for origin and destination of vessels and cargoes is included as an appendix to Part 1. Also, as a second appendix, there is a list of the commodities used for classifying cargoes. By reference to these the meaning of abbreviations is clarified.

### Review of 1958 Operations

Vessels departing from Canadian customs ports for foreign countries reported loadings of 40,298,882 tons. This was a drop of almost 18 per cent from the 1957 figure of 49,095,493 tons. A general decline was shown in all coastal areas. At Atlantic and lower St. Lawrence ports loadings dropped 20.8 per cent to 24,764,280 tons from 31,259,583 tons in 1957 and at Great Lakes and upper St. Lawrence River ports loadings were down by 20.2 per cent to 5,611,276 tons from 7,030,697, while Pacific ports registered a decline of 8.2 per cent, dropping to 9,923,326 tons from 10,805,213. Shipments of iron ore, wheat, barley, gypsum, lumber, pulpwood and newsprint accounted for almost 78 per cent of total loadings, iron ore alone accounting for 33 per cent and wheat for 19 per cent of the total.

Loadings of iron ore were cut by one third in 1958, dropping to 13,423,965 tons from 19,973,873 in the previous year. Gypsum fell to 2,734,456 tons from 3,524,568, pulpwood to 1,316,112 tons from

1,829,308, crude petroleum to 16,050 from 991,040, iron, pig and bloom, to 334,009 tons from 673,314 and scrap iron to 171,298 tons from 446,722. Other significant decreases were recorded in gasoline and other petroleum products and in fertilizers.

On the other hand wheat shipments were up by more than a million tons, rising to 7,687,700 tons from 6,476,583 in 1957, while barley shipments increased to 1,537,795 tons from 1,358,175. Lumber shipments were up by 374,705 tons, increasing to 2,269,897 from 1,895,192, while woodpulp almost doubled, rising to 765,004 tons from 399,478. Sand and gravel increased to 595,578 tons from 362,631 and limestone to 357,273 tons from 170,404.

Cargoes unloaded from foreign countries totalled 31,133,694 tons as against 38,818,102 in 1957. This was a drop of 7,684,408 tons or 19.8 per cent. Again declines were recorded in all coastal areas. Atlantic and lower St. Lawrence

ports showed little change, down only 1.9 per cent to 12,543,393 tons from 12,785,295 in the previous year. Cargoes unloaded at Great Lakes and upper St. Lawrence River ports however were down 29.1 per cent, dropping by almost 7 million tons to 16,798,869 tons from 23,676,856, and at Pacific ports unloadings declined 24 per cent to 1,791,432 tons from 2,355,951 in 1957.

Shipments of bituminous coal unloaded were almost 5 million tons below last year, dropping to 10,545,955 tons from 15,540,066 in 1957. Unloadings of iron ore declined to 3,552,989 tons from 4,689,651, down 1,136,662 tons, while unloadings of petroleum oils and products dropped to 3,067,149 from 3,356,487, limestone to 584,820 from 855,879, Canadian crude oil to 331,700 from 829,998, iron and steel bar to 273,517 tons from 482,440, sand and gravel to 389,665 from 550,885 and fertilizers to 138,208 tons from 324,533. Other decreases included flaxseed, down to 118,547 from 243,662, pig iron to 21,445 from 144,315, scrap iron, bauxite, gasoline and general cargo.

Unloadings of imported crude petroleum increased to 3,539,416 tons from 3,368,292 in the previous year and corn was up to 460,494 tons from 192,009. Other increases included sulphur and other non metallic mine products, vegetable and nut oils and molasses.

The bulk of Canada's waterborne commerce is with the United States and the United Kingdom. These two countries combined accounted for 69 per cent of all cargo loaded and unloaded. Cargoes loaded at Canadian ports destined to the United States were 27 per cent below the previous year, totalling 18,870,514 tons as compared with 25,912,449 in 1957. This represented 47 per cent of the total cargo loaded at Canadian ports in international trade. Loadings at Atlantic and lower St. Lawrence ports destined to the United States declined by 30.7 per cent to 10,754,715 tons from 15,532,078. At Great Lakes and upper St. Lawrence ports loadings for the United States were down 21.4 per cent to 5,377,267 tons from 6,839,772, and at Pacific coast ports loadings for the United States decreased by 23 per cent to 2,738,532 tons from 3,540,599. Shipments originated in the United States and unloaded at Canadian ports were down in all three coastal areas, the total dropping to 19,518,835 tons from 27,730,758 in 1957, a decrease of 8,211,923 tons or 29.6 per cent. Shipping between Canada and the United Kingdom also declined. Cargoes loaded at Canadian ports for the United Kingdom totalled 9,563,364 tons as against 10,198,729 in 1957, down 6.2 per cent, while unloadings declined 12.1 per cent to 1,132,139 tons from 1,287,612.

During 1958 a total of 71,432,576 tons of freight was loaded and unloaded at Canadian ports in international shipping. Of this, a total of 21,324,322 tons or 30 per cent was handled by ships of Canadian registry.

## APPENDIX A

### List of Countries and Geographical Areas

Country	Country
Aden	Egypt
Afghanistan	Eire
Africa – British East – (Tanganyika – Kenya – Eritrea – Somaliland)	El Salvador
Africa – British West	England
Africa – French – Algeria – Tunis – Ivory Coast	Estonia
Africa – French – Equatorial – Somaliland	Ethiopia (Abyssinia)
Africa – Portuguese and Mozambique	Fiji
Africa – Union of South Africa	Finland
Africa – Spanish – Morocco – Rio-de-Oro – Rio Muni	Formosa
Alaska	France – Atlantic – English Channel
Albania	France – Mediterranean
Algeria	Germany
Argentina	Ghana
Australia	Gibraltar
Austria	Greece – Dodecanese Islands
Azores – Madeira	Greenland
Barbados	Guam
Belgian Congo	Guatemala
Belgium and Luxembourg	Guiana – British
Bermuda	Guiana – French
Bolivia	Guiana – Netherlands (Surinam)
Brazil	Haiti
Bulgaria	Hawaiian Islands
Burma	Honduras
Canada	Honduras – British
Canal Zone – Panama	Hong Kong
Canary Islands	Hungary
Ceylon	Iceland
Chile	India
China	Indo China – French
Colombia	Indonesia
Costa Rica	Iran (Persia)
Cuba	Iraq (Mesopotamia)
Cyprus – Malta	Israel
Czechoslovakia	Italy
Denmark	Ivory Coast
Dodecanese Islands	Jamaica
Dominican Republic (San Domingo)	Japan
East Indies – British – North Borneo	Jordan
East Indies – French – Indo China	Kenya
Ecuador	Korea
	Kuwait

## List of Countries and Geographical Areas – Concluded

Country	Country
Latvia	San Domingo
Levant	Saudi Arabia
Liberia	Scotland
Lithuania	Siam
Madagascar and other Indian Ocean Islands	Sierre Leone
Madeira	Somaliland – British
Malaya – Straits Settlements	Somaliland – French
Malta – Cyprus	Spain
Mexico	Straits Settlements
Morocco	Surinam (Netherlands Guiana)
Mozambique	Sweden
Netherlands	Switzerland
Netherlands Antilles	Syria – Levant
New Zealand	Tanganyika
Nicaragua	Thailand (Siam)
Nigeria	Tobago
North Ireland (Ulster)	Trinidad
Norway	Tunis
Oceania – British	Turkey
Oceania – French	Union of Soviet Socialist Republics – Arctic
Oceania – United States – Guam	U.S.S.R. – Baltic Sea
Pakistan	U.S.S.R. – Black Sea
Panama – Canal Zone	U.S.S.R. – Pacific
Paraguay	United Kingdom
Peru	United States – Atlantic – Gulf of Mexico
Philippines	United States – Pacific
Poland	United States – Great Lakes
Puerto Rico	Uruguay
Portugal	Venezuela
Rio Muni	West Indies – British Other
Rio de Oro	West Indies – French – Netherlands – Other
Roumania	Yugoslavia
St. Pierre – Miquelon	

**APPENDIX B**  
**List of Commodities**

**Agricultural Products**

Wheat  
Corn  
Oats  
Barley  
Rye  
Flaxseed  
Soya beans  
Grain screenings  
Other grain  
Flour – grain  
Nuts – peanuts, etc.  
Malt  
Other mill products – bran, etc.  
Cotton – raw  
Apples  
Bananas  
Other fruit, fresh  
Fruit, dried  
Potatoes  
Peas and beans  
Other vegetables, fresh  
Coffee  
Tea  
Cocoa – chocolate  
Copra  
Hay and straw  
Rapeseed  
Mustard seed  
Seeds, other  
Other agricultural products

**Animals and Animal Products**

Cattle and calves  
Other live animals  
Dressed meats, fresh, frozen  
Dressed meats, cured, salted  
Eggs, butter, cheese, milk products  
Wool  
Hides, leather  
Skins – raw or undressed  
Other animal products

**Mine Products**

**Fuels**

Coal – anthracite  
Coal – bituminous  
Coke  
Petroleum – crude  
Crude oil (Canadian)  
Other mined fuels

**Metallic**

Iron ore  
Copper ore and concentrates  
Manganese ore

**Metallic – Concluded**

Quartzite  
Lead and zinc  
Other metallic ores and concentrates

**Non-Metallic**

Asbestos, raw  
Asphalt  
Bauxite  
Gypsum  
Salt  
Sulphur  
Other non-metallic mine products

**Quarrying, Clay and Sand Pits**

Limestone  
Sand, gravel, crushed stone  
Slate – dimension and block stone  
Granite  
Other clay mine products  
Other mine products

**Forest Products**

Logs, posts, poles, pitprops, piling  
Firewood – hogged fuel  
Pulpwood – pulpwood chips  
Lumber, timber, box, crate, cooperage material  
Other forest products

**Manufactures and Miscellaneous**

**Foods and Beverages**

Animal oils  
Fish oils  
Vegetable oils and nut oils  
Beverages  
Fish, fresh, frozen, cured  
Molasses  
Sugar, raw, refined  
Canned goods – all canned food products  
Other manufactured food products  
Tobacco

**Wood Products**

Newsprint paper  
Paper, other  
Paperboard, pulpboard, wallboard  
Plywood  
Woodpulp, pulp screenings  
Other manufactured wood products

**Iron and Steel Products**

Iron, pig, bloom  
Scrap iron and steel  
Iron and steel (bar-sheet-structural-pipe)

## List of Commodities — Concluded

**Iron and Steel Products — Concluded**

Rails and fastenings  
Castings and machinery  
Other iron and steel products (mfg.)

**Non-Ferrous Metal Products**

Aluminum, pigs, bars, rods, etc.  
Lead, bars, etc.  
Zinc, bars, etc.  
Other non-ferrous metal products

**Non-Metallic Mineral Products**

Brick  
Cement  
Chinaware, glassware  
Lime and plaster  
Sewer pipe, drain tile  
Other non-metallic mineral products

**Petroleum and Coal Products**

Gasoline  
Petroleum oils and other petroleum products  
Pitch, tar, creosote  
Other petroleum and coal products

**Chemical Products**

Fertilizers, all kinds  
Chemicals and chemical products

**Other Manufactures and Miscellaneous Products**

Rubber products, synthetic, etc.  
Agricultural implements  
Autos, trucks, parts  
Containers, empty, wood and metal  
General cargo  
All other freight, N.O.S.
