SECTION III

The first two sections of the 1956 "Shipping Report", which have been released previously, contain details of foreign or international seaborne shipping. The third, and final, section presents eight tables covering coastal trade.

Details of cargoes carried in the coastal trade are presented in tables 11 to 13. Data on coastwise shipping are received only from ports at which there is a collector of customs and excise. Shipping activity carried on at the numerous small ports across the country which do not have a resident customs collector is not available and totals for cargoes loaded and unloaded as well as vessel statistics are understated to this extent. This also results in a difference between totals for cargo loaded and unloaded. Also excluded from this report are data on inland shipping; that is, traffic on inland lakes and rivers such as Lake Winnipeg, the Muskoka Lakes and the MacKenzie River.

Cargoes unloaded in coasting trade at Canadian customs ports aggregated 39,057,169 tons in 1956, an increase of 16.8 per cent over the 1955 total of 33,432,586* tons. Ports in the Great Lakes area recorded the greatest increase with area unloadings rising 26.2 per cent to 15,209,966 tons from 12,048,616 tons. Unloadings at Atlantic and lower St. Lawrence river ports advanced 15.3 per cent to 17,999,439 tons from 15,605,352* tons while tonnage unloaded at Pacific coast ports increased only slightly to 5,847,764 tons from 5,778,618 tons in 1955.

Commodities unloaded in greatest volume in coastal trade were as follows (1955 data in brackets): wheat, 8,459 million tons (6,164); petroleum oils and other petroleum products, 4,686 million tons (4,019); pulpwood, 3,710 million tons (3,524); iron ore 3,642 million tons (2,263); general, 2,940 million tons (3,058); barley, 2,458 million tons (1,994); gasoline, 2,064 million tons (1,717); logs, posts, poles etc., 1,886 million tons (1,699); coal, bituminous, 1,480 million tons (1,956); and sand, gravel, crushed stone, 1,401 million tons (1,202).

Out of a total of 73,562,330 tons handled in coastwise trade, vessels of United Kingdom registry carried 3,943,577 tons or 10.1 per cent of the total unloaded and 4,431,603 tons or 12.8 per cent of the total loaded. Vessels of British West Indies registry unloaded 403,973 tons and loaded 56,843, while a very small percentage was carried in vessels of other foreign registry.

Vessel arrivals in the coasting trade numbered 88,640 in 1956 with an aggregate registered net tonnage of 75,220,366 as compared with 86,010 vessels and 67,228,840 tons in 1955. This was an increase of 3 per cent in number and some 12 per cent in registered net tons. Departures numbered 89,669 with a net tonnage of 76,857,713 as compared with 85,190 vessels and 64,889,982 tons in 1955, increases of 5 and 18 per cent respectively. Of the total arrivals, 39,793 or 44.9 per cent arrived "with cargo" while the remainder of 48,847 arrived "in ballast". Of the departures, 36,868 or 41.1 per cent cleared with cargo. It should be noted that if a vessel does not unload or load any cargo it is classed as arriving or departing, respectively, "in ballast" regardless of the amount of cargo it might have on board.

* Revised.
