SHIPPING REPORT

Year ended December 31, 1957

SECTION III

Sections I and II of the 1957 "Shipping Report", which have been released previously, contain details of foreign or international seaborne shipping. Section III presents data on Canada's coastal trade. Statistics relating to Canada's inland shipping; that is traffic on inland lakes and rivers such as Lake Winnipeg, the Muskoka Lakes and the MacKenzie River, are unavailable.

Details of cargoes carried in coastal trade have been collected since 1952. Prior to 1957 these data pertained only to ports at which there was a collector of customs and excise. Commencing with this report data are included for both customs and non customs ports. Cargoes loaded and unloaded at non customs ports are summarized in Table 11B and it will be noted that while loadings aggregated 5,580,883 tons or nearly 15 per cent of the total loaded in coastal trade unloadings amounted to only 651,964 tons or 1.8 per cent of the total unloaded. The break in continuity between figures presented in this and previous reports is therefore largely confined to loadings. One favorable effect of the inclusion of non customs ports has been the elimination of the previous large discrepancy which existed between totals for cargo loaded and unloaded.

Cargoes unloaded in coastal trade at Canadian customs and non customs ports totalled 37,022,139 tons in 1957, down 5.2 per cent from the 39,057,169 tons reported for customs ports alone in 1956. Ports in the Great Lakes area recorded the greatest decrease with unloadings of 12,875,260 tons against 15,209,966. Atlantic and St. Lawrence River ports including Montréal showed a decline of 2.0 per cent to 17,638,433 tons from 17,999,439 while ports on the Pacific coast recorded an increase of 11.3 per cent to 6,508,446 tons from 5,847,764. The effect on 1957 statistics of inclusion of data for non customs ports was largely confined to the provinces of Québec and British Columbia where unloadings at non customs ports totalled 214,833 tons and 364,617 respectively.

Commodities unloaded in greatest volume in coastal trade were as follows (1956 data in brackets):

wheat 6,347,857 (8,458,936), petroleum oils and products 4,963,152 (4,686,318), pulpwood 4,647,975 (3,710,195), iron ore 3,538,273 (3,642,198), general 2,115,052 (2,939,953), gasoline 2,111,994 (2,063,898), sand and gravel 1,900,602 (1,401,212), logs, posts, poles 1,898,936 (1,885,520), bituminous coal 1,695,100 (1,479,634) and barley 1,326,986 (2,457,873). Wheat, down 25 per cent to 6,347,857 tons, and barley down 46 per cent to 1,326,986 were the main factors in this year's overall decline.

Of the cargo tonnage unloaded in coastwise trade, vessels of Canadian registry carried 32,228,009 tons or 87.1 per cent of the total. Vessels of United Kingdom registry unloaded 4,125,655 tons or 11.1 per cent and vessels of British West Indies registry unloaded 540,772 tons while a very small percentage was carried in vessels of other foreign registry.

During 1957 vessel arrivals in coasting trade numbered 104,079 with an aggregate registered net tonnage of 76,535,160 as compared with 88,640 vessels and 75,220,366 tons in 1956, an increase of 17.4 per cent in number and 1.7 per cent in registered net tons. Departures numbered 101,879 with a net tonnage of 73,565,370 as against 89,669 vessels and 76,857,713 tons in 1956, an increase of 13.6 per cent in vessels with a decrease of 4.3 per cent in registered net tons. The additional ports included in the 1957 statistics accounted for 13,525 arrivals with registered net tonnage of 5,528,407 and 13,286 departures of 5,436,973 registered net tons. Of the total arrivals, 45,315 or 43.5 per cent arrived "with cargo" while the remainder of 58,764 arrived "in ballast". Of the departures, 43,013 or 42.2 per cent cleared with cargo. It should be noted that if a vessel does not unload or load any cargo it is classed as arriving or departing, respectively, "in ballast" regardless of the amount of cargo it might have on board.

An historical table of vessels and tonnage arriving and departing at Canadian ports in coastwise service from 1941 to 1957 is included in this report as Appendix A.
