# PIPE LINES (OIL) STATISTICS

SEPTEMBER, 1957

Net deliveries of oil from Canadian pipe lines fell off by almost 3 million barrels in September to a total of 21,617,304 from 24,607,743 barrels in the previous month. This compares with a decline of approximately 2 million barrels in 1956, when the September deliveries fell to 22,720,659 barrels from 24,769,675 in August. The September daily average of 720,577 barrels per day in the current year is 9.2 p.c. below the August 1957 average of 793,798 and 4.9 p.c. below the 757,355 barrels shown one year ago. Again all major companies reported a decrease. Barrel miles were down to 8,512 million from 10,074 million in the previous month, and the average length of haul fell to 268.4 miles from 281.3.

Historical File Copy

For the nine months ended September 30, total net deliveries amounted to 223,329,776 barrels as compared with 200,642,930 barrels in the same period last year, an increase of 11.3 p.c. Provincial deliveries for the period were as follows (1956 data in brackets): British Columbia 47,557,811 barrels (33,008,409); Alberta 10,312,539 barrels (14,487,824); Saskatchewan 13,415,527 barrels (12,547,209); Manitoba 57,528,849 barrels (52,589,754); Ontario 32,905,660 barrels (31,620,624); and Quebec 61,609,390 barrels (56,389,110). Exports via pipe line are shown in a footnote to table 4.

Gathering systems handled a daily average of 425,364 barrels as compared with 458,112 barrels last month, and 456,589 barrels in September 1956. Trunk line deliveries dropped to a daily average of 1,057,120 barrels, a decrease of 8.5 p.c. from the average of 1,155,-166 barrels for the previous month, but a slight increase over the average recorded in the same month last year.

Net receipts for the month of September totalled 22,604,390 barrels, down from 25,264,-897 barrels registered in the previous month and 23,149,791 barrels one year ago. The receipts for September were comprised of 9,911,329 barrels of Alberta crude and 44,292 barrels of Alberta natural gasoline, 3,091,461 barrels of Saskatchewan crude, 520,784 barrels of Manitoba crude, 5,884,249 barrels of imported crude and 3,152,275 barrels of refinery products.

Operating revenues for the nine months ended September 30, increased 28.6 p.c. to a total of \$71,668,903 as compared with \$55,716,198 in the corresponding period last year.

Employment and wages showed a slight decrease from the previous month, with 1,739 employees earning \$820,379 as compared with 1,792 employees earning \$836,162. The average wage, however, rose to \$472 from \$467 in August, and compares with \$444 in September 1956.

Revenue and employee data for the Sarnia Products Pipe Line Division of Imperial Oil, Ltd. are not available for this report as the pipe line operation forms only a part of the company's activities and is not separable. For the same reason revenue and employee data of the pipe line operation of the Anglo American Exploration Company and employee data of the Amurex Oil Development Company, Key Pipe Line Company, Ltd., Mid-Saskatchewan Pipe Lines, Ltd., Nisku Products Pipe Line Company, Anglo-Canadian Oils, Ltd. and Valley Pipe Line Company, Ltd. have been omitted. Data of the activities of these companies have been included in all other applicable sections of the report.

Prepared in the Transportation and Public Utilities Section,
Public Finance and Transportation Division.

Net totals given in Table 6 exceed those in Tables 1 and 2 because of duplications resulting from inter-company transfers of oil. These differences are accounted for in the following table.

The fluctuations which occur in Shippers and Carriers balances monthly are accounted for by each company in a "monthly oil balance" statement. The oil balances have been tabulated for all companies for September, and are given herewith:

The Interprovincial Pipe Line Company operates over 1,500 miles of line in Canada from Edmonton to the International border near Gretna Manitoba, along with 7 miles of 30 inch pipe coming into Canada across the St. Clair River at Sarnia. This short line has now been extended to Clarkson, Ontario. The Sun Pipe Line Company also operates lines across the St. Clair River from the United States to Sarnia. Oil delivered at Sarnia and Clarkson via Interprovincial's line would be a duplication of oil already reported on the western section of the line. For this reason and because of the limited nature of their operations data for these short sections are not included in Canadian oil pipe line statistics. A summary of oil delivered by these two lines at Sarnia and Clarkson follows:
