GAS UTILITIES
(Transport and Distribution Systems)

DECEMBER 1968

During December field gathering systems and processing plants delivered to gas utilities 149,849,104 Mcf. of natural gas. The transport systems accounted for 114,087,142 Mcf. and the distribution systems 35,761,962 Mcf. Natural gas imported from the U.S.A. was 4,363,397 Mcf. and the volume recovered from storage was 11,569,779 Mcf. The disposition of the gas utilities supply is shown in the following table.

Disposition	Volume '000 Mcf.	% of total supply	% increase over December 1967	Revenue \$'000	% of total revenue
Ultimate customers	85,235	51.4	12.5	57,852	80.0
Exports	57,423	34.6	12.3	14,489	20.0
Other uses and adjustments	23,261	14.0
Totals	165,919	100.0	17.1	72,341	100.0

Transport system traffic which represents virtually all of the major "intercity" movements of natural gas, amounted to 92.8 billion commodity (Mcf.) miles (2,116 million ton miles) during December compared with 81.8 billion (Mcf.) miles (1,864 million ton miles) last year. The daily average deliveries of gas utilities amounted to 4.7 million Mcf.

Alberta natural gas utilities receipts totalled 121.0 billion cubic feet; of this 19.3 per cent was sold to ultimate customers in Alberta, 17.7 per cent in Ontario, 4.0 per cent in Quebec, 3.3 per cent in Saskatchewan, 1.3 per cent in British Columbia and 4.2 per cent in Manitoba. Exports accounted for 36.2 per cent and the remaining 14.0 per cent was other deliveries, deliveries to storage, line pack changes, gas used in systems and line losses and unaccounted for.

In Table 3 "gas received from storage" is considered as having originated in the province where the storage is located and "gas delivered to storage" as a terminal delivery by the originating province.

There was an overall increase in distributor sales and revenues during December compared to the same month for the previous year. Details are contained in the following table.

Sales category	Sales '000 Mcf.	% of total sales	% increase over December 1967	Revenue \$'000	% of sales revenue	Number of customers '000
Residential	29,594	34.7	12.4	29,383	50.8	1,620
Industrial	35,968	42.2	10.8	14,653	25.3	12
Commercial	19,673	23.1	15.8	13,816	23.9	158
Totals	85,235	100.0	12.5	57,852	100.0	1,790

Table 6A and 7A contain the total 1968 Natural Gas sales and revenues by province. The total 1968 Natural Gas sales were 765,786,814 Mcf. up 10.2 per cent from 695,022,860 Mcf. in 1967. The residential sector consumed 5.2 per cent more than the previous year; the commercial sales were 9.3 per cent higher and sales to industrial consumers increased by 13.2 per cent.

All gas volumes in Tables I-7 and Table II are given in thousand cubic feet measured at 14.73 p.s.i.a. at 60°F; that is, without adjustments to a common B.T.U. base. Gas sales, exports and imports containing 1,000 B.T.U.'s per cubic foot are given separately in Tables 8-10.

Residential sales and a substantial portion of the smaller commercial sales are for the most part "displacement meter" sales and adjustments to a common base are only close approximations; industrial and larger commercial sales are for the most part "orifice meter" sales which are easily adjusted to the common base. All sales are reported on a billing month basis, consequently "line losses and unaccounted for" include cyclical billing adjustments.

A companion publication "Crude Petroleum and Natural Gas Production", Catalogue No. 26-006 gives a comprehensive review of the Supply and Disposition of Natural Gas.
