GAS UTILITIES (Transport and Distribution Systems)

MARCH 1969

During March field gathering systems and processing plants delivered to gas utilities 146,719,269 Mcf. of natural gas. The transport systems accounted for 116,482,003 Mcf. and the distribution systems 30,237,266 Mcf. Natural gas imported from the U.S.A. was 4,201,424 Mcf. and the volume recovered from storage was 6,752,190 Mcf. The disposition of the gas utilities supply is shown in the following table.

Disposition	Volume	% of total supply	% increase over March 1968	Revenue	% of total revenue
	'000 Mcf.			\$'000	
Ultimate customers	88,183	55.9	12.3	59,762	80.4
Exports	56,607	35.9	7.8	14,567	19.6
Other uses and adjustments	13,004	8.2
Totals	157,794	100.0	15.4	74,329	100.0

... Figures not appropriate or applicable.

Transport system traffic which represents virtually all of the major "intercity" movements of natural gas, amounted to 93.4 billion commodity (Mcf.) miles (2,130 million ton miles) during March compared with 80.9 billion (Mcf.) miles (1,844 million ton miles) last year. The daily average deliveries of gas utilities amounted to 4.9 million Mcf.

Alberta natural gas utilities receipts totalled 117.6 billion cubic feet; of this 19.6 per cent was sold to ultimate customers in Alberta, 22.0 per cent in Ontario, 4.0 per cent in Quebec, 3.3 per cent in Saskatchewan, 1.2 per cent in British Columbia and 4.4 per cent in Manitoba. Exports accounted for 36.5 per cent and the remaining 9.0 per cent was other deliveries, deliveries to storage, line pack changes, gas used in systems and line losses and unaccounted for.

In Table 3 "gas received from storage" is considered as having originated in the province where the storage is located and "gas delivered to storage" as a terminal delivery by the originating province.

There was an overall increase in distributor sales and revenues during March compared to the same month for the previous year. Details are contained in the following table.

Sales Category	Sales	% of total sales	% increase over March 1968	Revenue	% of sales revenue	Number of customers
	'000 Mcf.			\$'000		'000
Residential	29,424	33.4	5.7	30,206	50.5	1,610
Industrial	38,571	43.7	14.2	15,560	26.0	12
Commercial	20,188	22.9	19.6	13,996	23.5	160
Totals	88,183	100.0	11.1	59,762	100.0	1,782

All gas volumes in Tables I-7 and Table II are given in thousand cubic feet measured at 14.73 p.s.i.a. at 60°F; that is, without adjustments to a common B.T.U. base. Gas sales, exports and imports containing 1,000 B.T.U.'s per cubic foot are given separately in Table B-10.

Residential sales and a substantial portion of the smaller commercial sales are for the most part "displacement meter" sales and adjustments to a common base are only close approximations; industrial and larger commercial sales are for the most part "orifice meter" sales which are easily adjusted to the common base. All sales are reported on a billing month basis, consequently "line losses and unaccounted for" include cyclical billing adjustments.

A companion publication "Crude Petroleum and Natural Gas Production", Catalogue No. 26-006 gives a comprehensive review of the Supply and Disposition of Natural Gas.
