GAS UTILITIES  
(Transport and Distribution Systems)

APRIL 1969

During April field gathering systems and processing plants delivered to gas utilities 133,905,591 Mcf. of natural gas. The transport systems accounted for 109,963,110 Mcf. and the distributions system 23,942,481 Mcf. Natural gas imported from the U.S.A. was 4,254,464 Mcf. and the volume recovered from storage was 1,118,968 Mcf. The disposition of gas utilities supply is shown in the following table.

Disposition	Volume '000 Mcf.	% of total supply	% increase over April 1968	Revenue \$'000	% of total revenue
Ultimate customers .....	76,328	54.8	16.9	50,259	77.4
Exports .....	55,915	40.1	15.5	14,689	22.6
Other uses and adjustments .....	7,159	5.1	...	...	...
Totals .....	139,402	100.0	17.4	64,948	100.0

... Figures not appropriate or applicable.

Transport system traffic which represents virtually all of the major "intercity" movements of natural gas, amounted to 86.3 billion commodity (Mcf.) miles (1,968 million ton miles) during April compared with 75.4 billion (Mcf.) miles (1,719 million ton miles) last year. The daily average deliveries of gas utilities amounted to 4.5 million Mcf.

Alberta natural gas utilities receipts totalled 107.1 billion cubic feet; of this 17.4 per cent was sold to ultimate customers in Alberta, 24.4 per cent in Ontario, 3.9 per cent in Quebec, 2.8 per cent in Saskatchewan, 1.1 per cent in British Columbia and 4.3 per cent in Manitoba. Exports accounted for 39.8 per cent and the remaining 6.3 per cent was other deliveries, deliveries to storage, line pack changes, gas used in systems and line losses and unaccounted for.

In Table 3 "gas received from storage" is considered as having originated in the province where the storage is located and "gas delivered to storage" as a terminal delivery by the originating province.

There was an overall increase in distributor sales and revenues during April compared to the same month for the previous year. Details are contained in the following table.

Sales Category	Sales '000 Mcf.	% of total sales	% increase over April 1968	Revenue \$'000	% of sales revenue	Number of customers
Residential .....	22,156	29.0	11.3	23,434	46.6	1,607
Industrial .....	37,972	49.8	17.2	15,131	30.1	12
Commercial .....	16,200	21.2	24.5	11,694	23.3	159
Totals .....	76,328	100.0	16.9	50,259	100.0	1,778

All gas volumes in Tables 1-7 and Table 11 are given in thousand cubic feet measured at 14.73 p.s.i.a. at 60°F; that is, without adjustment to a common B.T.U. base. Gas sales, exports and imports containing 1,000 B.T.U.'s per cubic foot are given separately in Tables 8-10.

Residential sales and a substantial portion of the smaller commercial sales are for the most part "displacement meter" sales and adjustments to a common base are only close approximations; industrial and larger commercial sales are for the most part "orifice meter" sales which are easily adjusted to the common base. All sales are reported on a billing month basis, consequently "line losses and unaccounted for" include cyclical billing adjustments.

A companion publication "Crude Petroleum and Natural Gas Production", Catalogue No. 26-006 gives a comprehensive review of the Supply and Disposition of Natural Gas.
