Gas Utilities  
(Transport and Distribution Systems)

MAY 1966

During May 1966 field gathering systems and processing plants delivered to gas utilities 85,363,595 Mcf. of natural gas. The transport systems accounted for 69,142,025 Mcf. and the distribution systems 16,221,570 Mcf. Natural gas recovered from storage was 288,631 Mcf. The disposition of the gas utilities supply is shown in the following table.

Disposition	Volume	Per cent of total supply	Per cent increase over May 1965	Revenue	Per cent of total revenue
	000's Mcf.			\$'000	
Ultimate customers .....	19,753	55.5	22.9	32,246	78.2
Exports .....	34,966	39.0	11.2	9,002	21.8
Losses, deliveries to storage, cyclical billing adjustments, etc. .....	4,944	5.5	...	...	...
Totals .....	89,663	100.0	11.3	41,248	100.0

Transport system traffic which represents virtually all of the major "intercity" movements of natural gas amounted to 65.6 billion commodity (Mcf) miles (1,496 million ton miles) during May 1966 compared with 61.1 billion (1,394 million ton miles) last year. The daily average deliveries of gas utilities amounted to 2.9 million Mcf.

Alberta natural gas utilities receipts totalled 70.4 billion cubic feet; of this 18.9 per cent was sold to ultimate customers in Alberta, 21.0 per cent in Ontario, 3.6 per cent in Saskatchewan, 3.4 per cent in Quebec, 3.2 per cent in Manitoba and 1.5 per cent in British Columbia. Exports accounted for 39.6 per cent while the remaining 8.8 per cent was other deliveries, deliveries to storage, line pack changes, gas used in systems and line losses and unaccounted for.

In Table 3 gas received from storage is considered as having originated in the province where the storage is located and gas delivered to storage as a terminal delivery by the originating province.

There was an overall increase in distributor sales and revenues during May 1966 compared to the same month for the previous year. Details are contained in the following table.

Sales category	Sales	Per cent of total sales	Per cent increase over May 1965	Revenue	Per cent of sales revenue	Number of customers
	000's Mcf.			\$'000		'000
Residential .....	14,298	28.7	25.5	15,455	47.9	1,441
Industrial .....	26,767	53.8	16.1	10,073	31.2	24
Commercial .....	8,688	17.5	43.7	6,718	20.9	121
Totals .....	49,753	100.0	22.9	32,246	100.0	1,586

All gas volumes in Tables 1-7 and Table 11 are given in thousand cubic feet measured at 14.73 p.s.i.a. at 60°F; that is, without adjustments to a common B.T.U. base. Gas sales, exports and imports containing 1,000 B.T.U.'s per cubic foot are given separately in Tables 8-10.

Residential sales and a substantial portion of the smaller commercial sales are for the most part "displacement meter" sales and adjustments to a common base are only close approximations; industrial and larger commercial sales are for the most part "orifice meter" sales which are easily adjusted to the common base. All sales are reported on a billing month basis, consequently "line losses and unaccounted for" include cyclical billing adjustments.

A companion publication "Crude Petroleum and Natural Gas Production", Catalogue No. 26-006 gives a comprehensive review of the Supply and Disposition of Natural Gas.
