## GAS UTILITIES (Transport and Distribution Systems)

SEPTEMBER 1966

During September 1966 field gathering systems and processing plants delivered to gas utilities 78,002,130 Mcf. of natural gas. The transport systems accounted for 60,491,635 Mcf. and the distribution systems 17,510,495 Mcf. Natural gas recovered from storage was 73,157 Mcf. The disposition of the gas utilities supply is shown in the following table.

Disposition	Volume '000 Mcf.	% of total supply	% increase over Sept, 1965	Revenue \$'000	% of total revenue
Ultimate customers .....	37,052	44.9	4.9	20,697	71.9
Exports .....	31,229	37.9	- 0.2	8,098	28.1
Losses, deliveries to storage, cyclical bill- ing adjustments .....	14,167	17.2	...	...	...
Totals .....	82,448	100.0	1.3	28,795	100.0

Transport system traffic which represents virtually all of the major "intercity" movements of natural gas amounted to 58.0 billion commodity (Mcf) miles (1,345 million ton miles) during September 1966 compared with 58.1 billion (1,325 million ton miles) last year. The daily average deliveries of gas utilities amounted to 2.5 million Mcf.

Alberta natural gas utilities receipts totalled 62.2 billion cubic feet; of this 16.3 per cent was sold to ultimate customers in Alberta, 14.6 per cent in Ontario, 2.0 per cent in Saskatchewan, 4.2 per cent in Quebec, 0.5 per cent in Manitoba and 1.5 per cent in British Columbia. Exports accounted for 39.7 per cent while the remaining 21.2 per cent was other deliveries, deliveries to storage, line pack changes, gas used in systems and line losses and unaccounted for.

In Table 3 gas received from storage is considered as having originated in the province where the storage is located and gas delivered to storage as a terminal delivery by the originating province.

There was an overall increase in distributor sales and revenues during September 1966 compared to the same month for the previous year. Details are contained in the following table.

Sales category	Sales '000 Mcf.	% of total sales	% increase over Sept. 1965	Revenue \$'000	% of sales revenue	Number of customers '000
Residential .....	5,205	14.0	- 12.8	6,816	32.9	1,437
Industrial .....	27,417	74.0	10.5	10,225	49.4	11
Commercial .....	4,430	12.0	- 2.2	3,656	17.7	133
Totals .....	37,052	100.0	4.9	20,697	100.0	1,581

All gas volumes in Tables 1-7 and Table 11 are given in thousand cubic feet measured at 14.73 p.s.i.a. at 60°F; that is, without adjustments to a common B.T.U. base. Gas sales, exports and imports containing 1,000 B.T.U.'s per cubic foot are given separately in Tables 8-10.

Residential sales and a substantial portion of the smaller commercial sales are for the most part "displacement meter" sales and adjustments to a common base are only close approximations; industrial and larger commercial sales are for the most part "orifice meter" sales which are easily adjusted to the common base. All sales are reported on a billing month basis, consequently "line losses and unaccounted for" include cyclical billing adjustments.

A companion publication "Crude Petroleum and Natural Gas Production", Catalogue No. 26-006 gives a comprehensive review of the Supply and Disposition of Natural Gas.
