GAS UTILITIES  
(Transport and Distribution Systems)

NOVEMBER 1967

During November field gathering systems and processing plants delivered to gas utilities 110,239,951 Mcf. of natural gas. The transport systems accounted for 86,869,088 Mcf. and the distribution systems 23,370,863 Mcf. Natural gas imported from the U.S.A. was 9,428,005 Mcf. and the volume recovered from storage was 6,488,147 Mcf. The disposition of the gas utilities supply is shown in the following table.

Disposition	Volume '000 Mcf.	% of total supply	% increase over November 1967	Revenue \$'000	% of total revenue
Ultimate customers .....	63,096	50.0	4.1	42,323	77.7
Exports .....	47,578	37.7	21.4	12,127	22.3
Other uses and adjustments .....	15,483	12.3	14.6	...	...
Totals .....	126,157	100.0	11.4	54,450	100.0

... Figures not appropriate or applicable.

Transport system traffic which represents virtually all of the major "intercity" movements of natural gas, amounted to 74.4 billion commodity (Mcf.) miles (1,697 million ton miles) during November compared with 69.9 billion (Mcf.) miles (1,595 million ton miles) last year. The daily average deliveries of gas utilities amounted to 3.7 million Mcf.

Alberta natural gas utilities receipts totalled 88.5 billion cubic feet; of this 19.0 per cent was sold to ultimate customers in Alberta, 12.7 per cent in Ontario, 3.9 per cent in Quebec, 3.8 per cent in Saskatchewan, 1.2 per cent in British Columbia and 4.4 per cent in Manitoba. Exports accounted for 41.6 per cent and the remaining 13.4 per cent was other deliveries, deliveries to storage, line pack changes, gas used in systems and line losses and unaccounted for.

In Table 3 "gas received from storage" is considered as having originated in the province where the storage is located and "gas delivered to storage" as a terminal delivery by the originating province.

There was an overall increase in distributor sales and revenues during November compared to the same month for the previous year. Details are contained in the following table.

Sales Category	Sales '000 Mcf.	% of total sales	% increase over November 1967	Revenue \$'000	% of sales revenue	Number of customers '000
Residential .....	18,219	28.9	-	19,435	45.9	1,524
Industrial .....	32,438	51.4	6.1	13,703	32.4	11
Commercial .....	12,439	19.7	5.5	9,185	21.7	144
Totals .....	63,096	100.0	4.1	42,323	100.0	1,679

All gas volumes in Tables 1-7 and Table 11 are given in thousand cubic feet measured at 14.73 p.s.i.a. at 60°F; that is, without adjustments to a common B.T.U. base. Gas sales, exports and imports containing 1,000 B.T.U.'s per cubic foot are given separately in Table 8-10.

Residential sales and a substantial portion of the smaller commercial sales are for the most part "displacement meter" sales and adjustments to a common base are only close approximations; industrial and larger commercial sales are for the most part "orifice meter" sales which are easily adjusted to the common base. All sales are reported on a billing month basis, consequently "line losses and unaccounted for" include cyclical billing adjustments.

A companion publication "Crude Petroleum and Natural Gas Production", Catalogue No. 26-006 gives a comprehensive review of the Supply and Disposition of Natural Gas.

Because of Technical problems July to October data are not available. The November information is being released in order to supply current gas Statistics.
