MAR 7 1968

Vol. 9, No. 6

Price: 20 cents, \$2.00 a year

PROPERTY OF THE  
LIBRARY GAS UTILITIES  
(Transport and Distribution Systems)

JUNE 1967

During June field gathering systems and processing plants delivered to gas utilities 83,658,029 Mcf. of natural gas. The transport systems accounted for 67,116,048 Mcf. and the distribution systems 16,541,981 Mcf. Natural gas imported from the U.S.A. was 4,773,750 Mcf. and the volume recovered from storage was 563,188 Mcf. The disposition of the gas utilities supply is shown in the following table.

Disposition	Volume	% of total supply	% increase over June 1966	Revenue	% of total revenue
	'000 Mcf.			\$'000	
Ultimate customers .....	41,798	47.0	8.2	24,211	69.0
Exports .....	38,777	43.6	14.2	10,862	31.0
Other uses and adjustments .....	8,423	9.4	...	...	...
Totals .....	88,998	100.0	9.0	35,073	100.0

Transport system traffic which represents virtually all of the major "intercity" movements of natural gas, amounted to 62.2 billion commodity (Mcf.) miles (1,417 million ton miles) during June compared with 59.6 billion (Mcf.) miles (1,360 million ton miles) last year. The daily average deliveries of gas utilities amounted to 3.0 million Mcf.

Alberta natural gas utilities receipts totalled 67.5 billion cubic feet; of this 17.8 per cent was sold to ultimate customers in Alberta, 16.6 per cent in Ontario, 3.5 per cent in Quebec, 1.8 per cent in Saskatchewan, 0.8 per cent in British Columbia and 2.2 per cent in Manitoba. Exports accounted for 44.0 per cent and the remaining 13.3 per cent was other deliveries, deliveries to storage, line pack changes, gas used in systems and line losses and unaccounted for.

In Table 3 "gas received from storage" is considered as having originated in the province where the storage is located and "gas delivered to storage" as a terminal delivery by the originating province.

There was an overall increase in distributor sales and revenues during June compared to the same month for the previous year. Details are contained in the following table.

Sales Category	Sales	% of total sales	% increase over June 1966	Revenue	% of sales revenue	Number of customers
	'000 Mcf.			\$'000		'000
Residential .....	7,909	18.9	- 1.8	9,124	37.7	1,491
Industrial .....	28,575	68.4	11.4	10,867	44.9	11
Commercial .....	5,314	12.7	8.2	4,220	17.4	140
Totals .....	41,798	100.0	8.2	24,211	100.0	1,642

All gas volumes in Tables I-7 and Table II are given in thousand cubic feet measured at 14.73 p.s.i.a. at 60°F; that is, without adjustments to a common B.T.U. base. Gas sales, exports and imports containing 1,000 B.T.U.'s per cubic foot are given separately in Tables 8-10.

Residential sales and a substantial portion of the smaller commercial sales are for the most part "displacement meter" sales and adjustments to a common base are only close approximations; industrial and larger commercial sales are for the most part "orifice meter" sales which are easily adjusted to the common base. All sales are reported on a billing month basis, consequently "line losses and unaccounted for" include cyclical billing adjustments.

A companion publication "Crude Petroleum and Natural Gas Production", Catalogue No. 26-006 gives a comprehensive review of the Supply and Disposition of Natural Gas.
