TELEGRAPH STATISTICS

FOR

1936

The following statistics include those of the telegraph departments of the Canadian National, Canadian Pacific, Northern Alberta and Temiskaming and Northern Ontario railways, the North American Telegraph Company which operates north and west of Kingston, the Dominion Government Telegraph Department which operates lines in Nova Scotia, New Brunswick, Northern Quebec and the western provinces up to the Yukon Territory and a small mileage in Ontario, and the Canadian operations of the Canadian Marconi wireless system and of the several cable companies with stations in Canada.

The Western Union Telegraph system operates across the south western part of Ontario but does no local business and the operating expenses of these lines have been credited to revenues. It also relays trans-Atlantic messages at Canso, Nova Scotia, but the system used in handling these will not allow a segregation of such messages and consequently they are not included in the Canadian messages. The paid wireless messages of the Canadian Marconi to and from boats on the Great Lakes and St. Lawrence river and messages to and from stations have been classed with telegrams and the messages to and from boats at sea and across the Atlantic ocean have been included with cablegrams.

Gross revenues of all systems increased from \$9,741,394 in 1935 to \$10,378,873, operating expenses increased from \$8,416,329 to \$8,710,349 and net revenues were increased from \$1,325,065 to \$1,668,524.

The number of telegrams originated in Canada and received from the United States for delivery in Canada were 11,001,936 and 1,733,250 respectively, or a total of 12,735,186, and the numbers of cablegrams forwarded and received were 740,170 and 651,733 respectively. The total value of money transferred by telegraph amounted to \$4,296,738 as against \$3,834,458 in 1935.

The number of full time employees increased from 5,903 to 6,064 and salaries and wages increased from \$7,030,830 to \$7,360,193, exclusive of commissions amounting to \$340,284 in 1935 and \$354,343 in 1936.

STATISTIQUES DES TELEGRAPHES

EN

1936

Les statistiques suivantes ont trait au service des télégraphes du Canadien National, du Canadien Pacific, des chemins de fer Northern Alberta et Témiskaming and Northern Ontario, de la North American Telegraph Company qui fonctionne au nord et à l'ouest de Kingston, du département des Télégraphes du Dominion qui exploite des lignes en Nouvelle-Ecosse, au Nouveau-Brunswick, dans le Québec septentrional et dans les provinces de l'ouest jusqu'aux Territoire du Yukon ainsi qu'un court millage en Ontario, ainsi qu'aux opérations canadiennes du réseau de la Canadian Marconi et des compagnies de câble qui ont des stations au Canada.

Le réseau de la Western Union Telegraph fonctionne à travers le sud ouest de l'Ontario mais ne fait pas d'affaires locales et les dépenses d'exploitation sont créditées aux revenus. Il fait aussi le relai des messages transatlantiques à Canso, Nouvelle-Ecosse; cependant le système employé à cette fin ne permettant pas une séparation des messages, ceux-ci ne sont pas inclus au nombre des dépêches canadiennes. Les radiogrammes payés de la Canadian Marconi envoyés aux vaisseaux et reçus des vaisseaux sur les Grands Lacs et le fleuve St-Laurent et les messages envoyés aux stations et reçus des stations ont été classés avec les télégrammes; les messages envoyés aux vaisseaux et reçus des vaisseaux en mer et à travers l'océan Atlantique ont été inclus avec les câblogrammes.

Les revenus bruts de tous les réseaux passent de \$9,741,394 en 1935 à \$10,378,873, les dépenses d'opération de \$8,416,329 à \$8,710,349 et les revenus nets de \$1,325,065 à \$1,668,524.

Le nombre de télégrammes envoyés du Canada et reçus des Etats Unis pour livraison au Canada se chiffre à 11,001,936 et 1,733,250 respectivement, soit un total de 12,735,186, et les nombres de câblogrammes envoyés et reçus atteignent 740,170 et 651,733 respectivement. La valeur totale d'argent transférée par télégraphe se chiffre à \$4,296,738 contre \$3,834,458 en 1935.

Le nombre d'employés à temps entier passe de 5,903 à 6,064 et les salaires et gages augmentent de \$7,030,830 à \$7,360,193, sans compter les commissions se chiffrant à \$340,284 en 1935 et \$354,343 en 1936.
