TELEGRAPH AND CABLE STATISTICS

1940

The following statistics include those of the telegraph departments of the Canadian National, Canadian Pacific, Northern Alberta, and Temiskaming and Northern Ontario Railways, the North American Telegraph Company which operates north and west of Kingston, the Dominion Government Telegraph Department which operates lines in Nova Scotia, New Brunswick, Northern Quebec, and the Western provinces up to the Yukon Territory and a small mileage in Ontario, and the Canadian operations of the Canadian Marconi wireless system and the Commercial Cable Company.

The Western Union Telegraph system operates across the south western part of Ontario but does no local business and the operating expenses of these lines have been considered also as revenues. It also relays trans-Atlantic messages to Canso, Nova Scotia, but the system used in handling these will not allow a segregation of such messages and consequently they are not included in the Canadian messages. The paid wireless messages of the Canadian Marconi to and from boats on the Great Lakes and St. Lawrence River and messages to and from stations have been classed with telegrams and the messages to and from boats at sea and across the Atlantic ocean have been included with cablegrams.

The cost of property and equipment continued to increase, rising from \$46,881,182 in 1939 to \$47,157,361. The gross income rose from \$10,474,489 to \$10,585,635 and operating expenses declined from \$9,297,902 to \$9,011,414.

Pole line mileage amounted to 52,396 as compared with 52,464 (revised) for 1939 and the wire mileage increased to 380,318, or by 5,768 miles. The number of employees increased from 6,339 to 6,427 and the pay roll increased from \$8,232,773 to \$8,265,637. The employees exclude those on a commission basis and the commissions also are excluded from the wages; these amounted to \$321,354 of which \$167,251 was earned by railway employees.

Telegrams sent amounted to 11,260,587, an increase of 477,316 over 1939, but the number received from the United States for delivery in Canada decreased from 1,679,641 to 1,471,495. The total number of telegrams handled amounted to 12,732,082. Cablegrams, exclusive of wireless messages to vessels at sea, increased from 1,492,389 to 1,648,282.

During the year \$3,118,166 was transferred by telegraph as compared with \$3,539,988 in 1939.

STATISTIQUES DES TELEGRAPHES ET CABLES

1 9 4 0

Les statistiques suivantes ont trait au service des télégraphes du Canadien National, du Canadien Pacifique, des chemins de fer Northern Alberta et Temiskaming and Northern Ontario, de la North American Telegraph Company qui fonctionne au nord et à l'ouest de Kingston, du département des Télégraphes du Dominion qui exploite des lignes en Nouvelle-Ecosse, au Nouveau-Brunswick, dans le Québec septentrional et dans les provinces de l'Ouest jusqu'au Territoire du Yukon ainsi qu'un court millage en Ontario; ainsi qu'aux opérations canadiennes du réseau de la Canadian Marconi et le Commercial Cable Company.

Le réseau de la Western Union Telegraph fonctionne à travers le sud-ouest de l'Ontario mais ne fait pas d'affaires locales et les dépenses d'exploitation sont créditées aux revenus. Il fait aussi le relai des messages transatlantiques à Canso, Nouvelle-Ecosse; cependant le système employé à cette fin ne permettant pas une séparation des messages, ceux-ci ne sont pas inclus au nombre des dépêches canadiennes. Les radiogrammes payés de la Canadian Marconi envoyés aux vaisseaux et reçus des vaisseaux sur les Grands Lacs et le fleuve St-Laurent et les messages envoyés aux stations et reçus des stations sont classés avec les télégrammes; les messages envoyés aux vaisseaux et reçus des vaisseaux en mer et à travers l'océan Atlantique sont inclus avec les câblogrammes.

Le coût de la propriété et de l'outillage continue d'augmenter, passant de \$46,881,182 en 1939 à \$47,157,361. Les recettes brutes montent de \$10,474,489 à \$10,585,635 et les dépenses d'exploitation diminuent de \$9,297,902 à \$9,011,414.

Le millage des lignes sur poteaux est de 52,396 contre 52,464 (révisé) en 1939 et le millage des fils augmente à 380,318, ou de 5,768 milles. Le personnel passe de 6,339 employés à 6,427 et le bordereau de paye augmente de \$8,232,773 à \$8,265,637. Le personnel ne comprend pas les personnes à commission et les commissions ne comptent pas parmi les salaires; elles s'élèvent à \$321,354 dont \$167,251 revient à des employés de chemin de fer.

Les télégrammes envoyés se chiffrent à 11,280,527, augmentation de 477,316 sur 1939; les télégrammes reçus des Etats-Unis pour livraison au Canada diminuent de 1,679,641 à 1,471,495. Le total des télégrammes passés est de 12,732,082. Les câblogrammes, à l'exclusion des radiogrammes aux vaisseaux en mer, augmentent de 1,492,389 à 1,648,282.

Les transferts télégraphiques d'argent durant l'année s'élèvent à \$3,118,166 contre \$3,539,988 en 1939.

- (1) Excludes commission operators.  
 (2) Includes commercial wireless messages to and from ships on the Great Lakes and St. Lawrence River and between stations in Nova Scotia, Quebec and Ontario.  
 (3) Excludes cablegrams relayed and includes paid wireless messages to and from ships in the Gulf of St. Lawrence and Atlantic Ocean.  
 x Revised.  
 (1) A l'exclusion de la commission des opérateurs.  
 (2) Comprend les radiogrammes commerciaux aux ou des vaisseaux sur les Grands Lacs et le fleuve Saint-Laurent, expédiés entre les stations de la Nouvelle-Ecosse, du Québec et de l'Ontario.  
 (3) Câblogrammes relayés non compris; mais sont compris les radiogrammes payés aux navires ou des navires, soit dans le golfe Saint-Laurent soit sur l'océan Atlantique.  
 x Révisé.
