TELEGRAPH AND CABLE STATISTICS

1 9 4 2

The following statistics include those of the telegraph departments of the Canadian National, Canadian Pacific, Northern Alberta, and Temiskaming and Northern Ontario Railways, the North American Telegraph Company which operates north and west of Kingston, the Dominion Government Telegraph Department which operates lines in Nova Scotia, New Brunswick, Northern Quebec, and the Western provinces up to the Yukon Territory and a small mileage in Ontario, and the Canadian operations of the Canadian Marconi wireless system and the Commercial Cable Company.

The Western Union Telegraph system operates across the south western part of Ontario but does no local business and the operating expenses of these lines have been considered also as revenues. It also relays trans-Atlantic messages to Canso, Nova Scotia, but the system used in handling these will not allow a segregation of such messages and consequently they are not included in the Canadian messages. The paid wireless messages of the Canadian Marconi to and from boats on the Great Lakes and St. Lawrence River and messages to and from stations have been classed with telegrams and the messages to and from boats at sea and across the Atlantic Ocean have been included with cablegrams.

The cost of property and equipment amounted to \$49,192,861 as against \$48,582,092 in 1941, an increase of \$610,769. Gross revenues increased from \$12,777,920 in 1941 to \$14,826,451, operating expenses increased from \$10,878,222 to \$11,925,417 and net revenues increased from \$1,899,698 to \$2,901,014, or by 53 p.c.

Pole line and wire mileage also recorded increases, amounting to 52,418 and 381,953 miles respectively. The number of employees rose from 7,272 in 1941 to 7,544 and the pay roll increased from \$10,042,496 to \$11,424,268. The employees exclude those on a commission basis and the commissions also are excluded from the wages; these amounted to \$420,660 of which \$189,361 was earned by railway employees.

Telegrams sent increased from 12,689,124 to 13,660,987 while the number received from the United States for delivery in Canada also increased from 1,592,446 to 1,761,144. Cablegrams, exclusive of wireless messages to vessels at sea, increased from 2,251,979 to 2,851,549, or by 26 p.c.

Money transferred by telegraph showed an increase of 41 p.c., amounting to \$5,459,880 as against \$3,868,040 in 1941.

STATISTIQUES DES TELEGRAPHES ET CABLES

1 9 4 2

Les statistiques suivantes ont trait au service des télégraphes du Canadien National, du Canadien Pacifique, des chemins de fer Northern Alberta et Temiskaming and Northern Ontario, de la North American Telegraph Company qui fonctionne au nord et à l'ouest de Kingston, du département des Télégraphes du Dominion qui exploite des lignes en Nouvelle-Ecosse, au Nouveau-Brunswick, dans le Québec septentrional et dans les provinces de l'Ouest jusqu'au Territoire du Yukon ainsi qu'un court millage en Ontario; elles se rapportent également aux opérations canadiennes du réseau de la Canadian Marconi et la Commercial Cable Company.

Le réseau de la Western Union Telegraph fonctionne à travers le sud-ouest de l'Ontario mais ne fait pas d'affaires locales, et les dépenses d'exploitation sont aussi considérées comme revenus. Il fait aussi le relai des messages transatlantiques à Canso, Nouvelle-Ecosse; cependant, le système employé à cette fin ne permet pas une séparation des messages, ceux-ci ne sont pas inclus au nombre des dépêches canadiennes. Les radiogrammes payés de la Canadian Marconi envoyés aux vaisseaux et reçus des vaisseaux sur les Grands Lacs et le fleuve St-Laurent et les messages envoyés aux stations et reçus des stations sont classés avec les télégrammes; les messages envoyés aux vaisseaux et reçus des vaisseaux en mer et à travers l'océan Atlantique sont inclus avec les câblogrammes.

Le coût de la propriété et de l'outillage atteint \$49,192,861 comparativement à \$48,382,092 en 1941, augmentation de \$810,769. Les recettes brutes passent de \$12,777,920 en 1941 à \$14,826,431; les dépenses d'exploitation augmentent de \$10,878,222 à \$11,925,417, tandis que les recettes nettes accusent une augmentation de \$1,999,698 à \$2,901,014 ou de 55 p.c.

Le millage des lignes sur poteaux et des fils laissent également voir des augmentations, s'élevant à 52,418 et 381,955 milles respectivement. Le nombre d'employés passe de 7,272 en 1941 à 7,544 en 1942, tandis que le bordereau de paye augmente de \$10,042,496 à \$11,424,268. Le personnel ne comprend pas les personnes à commission et les commissions ne comptent pas parmi les salaires; elles se chiffrent à \$420,660, dont \$189,361 revenant à des employés de chemin de fer.

Les télégrammes envoyés augmentent de 12,689,124 à 13,660,987, tandis que les télégrammes reçus des Etats-Unis pour livraison au Canada augmentent de 1,592,446 à 1,761,144. Les câblogrammes, à l'exclusion des radiogrammes aux vaisseaux en mer, augmentent de 2,251,979 à 2,831,549 ou de 26 p.c.

Les transferts télégraphiques d'argent augmentent de 41 p.c. et se chiffrent à \$5,439,880 contre \$5,868,040 en 1941.

| 1942          | 13,660,987              | 1,761,144   | 2,331,549                          | 5,439,880                                 |

(1) Excludes commission operators.

(2) Includes commercial wireless messages to and from ships on the Great Lakes and St. Lawrence River and between stations in Nova Scotia, Quebec and Ontario.

(3) Excludes cablegrams relayed and includes paid wireless messages to and from ships in the Gulf of St. Lawrence and Atlantic Ocean.

(1) A l'exclusion de la commission des opérateurs.

(2) Comprend les radiogrammes commerciaux aux ou des vaisseaux sur les Grands Lacs et le fleuve Saint-Laurent, expédiés entre les stations de la Nouvelle-Ecosse, du Québec et de l'Ontario.

(3) Câblogrammes relayés non compris; mais sont compris les radiogrammes payés aux navires ou des navires, soit dans le golfe Saint-Laurent soit sur l'océan Atlantique.
