A. 1912

TELEPHONE STATISTICS

OF THE

DOMINION OF CANADA

FOR THE

YEAR ENDED JUNE 30

1911

A. W. CAMPBELL,

Deputy Minister of the Department of Railways and Canals

PRINTED BY ORDER OF PARLIAMENT

OTTAWA

PRINTED BY C. H. PARMELEE, PRINTER TO THE KING'S MOST
EXCELLENT MAJESTY

1912

[No. 20d—1912.]

*To Field Marshall, His Royal Highness Prince ARTHUR WILLIAM PATRICK ALBERT,
Duke of Connaught and of Strathearn, and Earl of Essex, in the Peerage of
the United Kingdom, Prince of the United Kingdom of Great Britain and
Ireland, Duke of Saxony, Prince of Saxe Cobourg and Gotha; Knight of the
Most Noble Order of the Garter, Knight of the Most Ancient and Most Noble
Order of the Thistle; Knight of the Most Illustrious Order of St. Patrick; one
of His Majesty's Most Honourable Privy Council; First and Principal Knight
Grand Cross and Great Master of the Most Honourable Order of the Bath;
Knight Grand Commander of the Most Exalted Order of the Star of India;
Knight Grand Cross of the Most Distinguished Order of Saint Michael and
Saint George; Knight Grand Commander of the Most Eminent Order of the
Indian Empire; Knight Grand Cross of the Royal Victorian Order; Personal
Aide-de-Camp to His Majesty the King; Governor General and Commander-
in-Chief of the Dominion of Canada.*

MAY IT PLEASE YOUR ROYAL HIGHNESS,

The undersigned has the honour to present to Your Royal Highness the Annual Report of the Comptroller of Statistics in relation to the telephone interests of the Dominion of Canada for the year ended June 30, 1911.

F. COCHRANE,
Minister of Railways and Canals.

To the Honourable F. COCHRANE,
Minister of Railways and Canals.

SIR,—I have the honour to submit the first Annual Report of the Comptroller of Statistics in relation to the telephone interests of the Dominion of Canada, for the year ended June 30, 1911.

I have the honour to be sir,
Your obedient servant,

A. W. CAMPBELL,
Deputy Minister of Railways and Canals.

OFFICE OF THE COMPTROLLER OF STATISTICS,

OTTAWA, January 15, 1912.

A. W. CAMPBELL, Esq., C.E.,
Deputy Minister of Railways and Canals.

SIR,—I have the honour to submit herewith Telephone Statistics for the year ended June 30, 1911.

This is my first report in relation to the telephone interests of Canada, and you will readily understand that the statistical information which follows was not easily obtained. Many difficulties had to be overcome. In the first place, there was not in existence any classification of telephone accounts upon which the schedules of the Department could be based. That rather important and basic work had to be done in this office. Then, when the reporting forms were sent out they were misunderstood by many of the smaller companies. Explanations were necessary. Confusion also resulted as between the reports returnable to this Department and to some of the Provincial Governments. Under such conditions, delay and partial failure in some regards, was unavoidable. But the experience gained in this primary work cannot fail to be helpful, and in future there ought not to be any particular trouble in gathering satisfactory and complete statistics.

The schedules will be simplified hereafter. A large proportion of the telephone companies operating throughout the Dominion are without paid officers or analytical accounting methods. Their income is from one or two sources, and their outgo is embraced within few items. It only creates needless confusion to lay before them a demand for more or less elaborate details. Speaking broadly, while the general reporting basis adopted for 1911 will not be altered, it is intended to make changes which will be acceptable to the smaller organizations.

The object in view was to obtain information which would fairly and comprehensively show the extent and character of telephone interests in the Dominion. The schedules of the Department therefore asked for facts with regard to

- Organization.
- Capital invested.
- Operating income.
- Operating expenses.
- Equipment.
- Tolls.
- Employees.

Complete information was not obtained; but that was perhaps to be expected at the outset. Some companies failed to report at all, while others sent in statements which were incomplete. It may be said, however, that the data got together establishes a fairly satisfactory basis upon which to build for the future. The difficulties inseparable from pioneer work of this nature will not, it is believed, persist.

2 GEORGE V., A. 1912

NUMBER OF COMPANIES.

It is quite impossible to say how many distinct telephone companies were operating in Canada on June 30, last. There was no source from which a complete list could be obtained. In all, however, 537 organizations sent in reports. These were divided as follows:-

| Province. | Govern- ment. | Muni- cipal. | Stock. | Co-oper- ative. | Partnership. | Private. | Total. |
|-----------------------|------------------|-----------------|--------|--------------------|--------------|----------|--------|
| Ontario..... | | 21 | 115 | 90 | 18 | 75 | 319 |
| Quebec..... | | | 22 | 5 | | 5 | 32 |
| New Brunswick..... | | | 14 | | | 2 | 16 |
| Nova Scotia..... | | | 14 | | | | 14 |
| Alberta..... | 1 | 1 | 2 | | | | 4 |
| Saskatchewan..... | | 2 | 135 | 5 | | | 143 |
| Manitoba..... | 1 | 1 | | 1 | | | 3 |
| British Columbia..... | | | 5 | | | | 5 |
| P. E. Island..... | | | 1 | | | | 1 |
| Total..... | | 3 | 25 | 308 | 101 | 18 | 82 |
| | | | | | | | 537 |

It is fitting that at this point a brief statement should be made with regard to the development of these telephone companies.

It will be observed that in three of the Provinces—Manitoba, Alberta and Saskatchewan—the local governments have in some degree taken over telephone interests. In Alberta and Manitoba practically all the separate organizations which at one time existed have been merged under government control. In Saskatchewan the process of absorption is under way; but there remained on June 30, 142 units on an independent footing. The reports received would seem to indicate, however, that many of these were expected to pass into the hands of the province during the current year.

Telephone plants were operated by 25 municipalities, 21 of which were in Ontario, two in Saskatchewan, and one each in Alberta and Manitoba.

Companies having a joint stock organization numbered 321. A very large majority of them are classified as 'rural'. The capitalization of these rural companies is relatively small in each case. Such companies have had their development within practically the past ten years, and the reports which have come before me show that they are multiplying and expanding with marked rapidity. They invariably have a simple and inexpensive organization. They have been equipped at the lowest possible cost. They represent the so-called 'party lines,' which is a term employed to distinguish those lines of wire to which are attached two or more telephones from the metallic circuits which serve a single subscriber.

Co-operative, partnership and private lines, of which 183 made returns, are a mere variation of the rural telephone system. In the case of a co-operative company, a certain number of individuals have banded themselves together to construct and operate a line for their own use. They contribute the labour, and pay an equal share of the cost of equipment. They do not issue any capital stock, and at the end of the year the operating charges are distributed among the whole number of owners. Partnership companies are those in which two, three or more persons join to erect and operate a telephone system as an invest-

SESSIONAL PAPER No. 20d

ment. Private lines are usually owned by individuals or commercial concerns, to which a limited number of subscribers are attached; although there are instances in which expansion in that way has assumed comparatively large proportions.

It is not the province of the statistician to comment upon the social aspect of the rural telephone development, especially in the prairie districts of the west, nor to discuss the commercial advantages which have accrued; but it is obviously important in both regards.

CAPITAL AND COST.

The capital liability reported amounted to \$40,043,982.29, divided as follows:—

| | |
|------------------|------------------|
| Stocks..... | \$ 21,527,374 55 |
| Funded debt..... | 18,516,607 74 |
| Total..... | \$ 40,043,982 29 |

The foregoing capitalization was distributed by provinces as follows:—

| Province. | Stocks. | Funded Debt. | Total. |
|-----------------------|---------------|---------------|---------------|
| | \$ cts. | \$ cts. | \$ cts. |
| Ontario..... | 1,202,240 20 | 553,388 16 | 1,755,628 36 |
| Quebec..... | 13,542,964 00 | 5,438,666 37 | 18,981,630 37 |
| New Brunswick..... | 1,210,156 00 | 103,625 00 | 1,313,781 00 |
| Nova Scotia..... | 2,597,380 00 | | 2,597,380 00 |
| Alberta..... | 94,800 00 | 2,338,001 84 | 2,432,801 84 |
| Saskatchewan..... | 266,585 00 | 1,602,926 37 | 1,959,511 37 |
| Manitoba..... | | 8,315,000 00 | 8,315,000 00 |
| British Columbia..... | 2,513,249 35 | 10,000 00 | 2,523,249 35 |
| P. E. Island..... | 100,000 00 | 65,000 00 | 165,000 00 |
| Total..... | 21,527,374 55 | 18,516,607 74 | 40,043,982 29 |

It will be observed that the highest capitalization in any province arises in Quebec. Ontario, although a large user of telephones, takes a relatively low place. This is because the operations of the Bell Telephone Company, with headquarters in Montreal, extend over these two provinces; but the capital liability appears entirely in the Quebec column.

With 302,759 telephones in use, the capital liability reported was equal to \$132.26 per telephone.

The cost of telephone plant and property in the Dominion, as far as could be definitely ascertained, was \$34,737,529.95, which is considerably below the capitalization. This difference is more than accounted for, however, in the return made by the Manitoba Government, which was confined chiefly to a statement of the bonds outstanding. In taking over the various telephone systems in that province, Government seems not to have obtained a record of the cost to the primary owners.

Since the cost of the property of the Bell Telephone Company appears in the Quebec column, for reasons already stated, it is obvious that the \$2,282,058.67 in the Ontario column is the cost assignable to rural and municipal systems in that province.

EARNINGS AND OPERATING EXPENSES.

Considerable difficulty was experienced in obtaining from rural companies a statement of revenue and operating expenses, and the information under those heads is not quite complete. The requirements of the Departmental schedule were neither complicated nor elaborate; yet they were in many instances misunderstood. As far as possible these omissions were adjusted by supplementary returns, and it is believed that little difficulty will be experienced hereafter in this regard.

The gross earnings reported amounted to \$10,068,220.03, and the operating expenses to \$6,979,045.06. The ratio of operating expenses to gross earnings was 69·32. The net earnings, or the immediate difference between gross income and expenditure for operation—without taking account of proper deductions for interest on bond liability, taxes, etc.—aggregated \$3,089,174.97.

It is proposed to draw up a balance sheet for the current year, so simple in character that secretaries of the smaller companies, although unskilled in accounting methods, will not be confused by it. In dealing for the first time with the accounts submitted to the Department, it was not possible to work out a statement which would accurately show the balance available from the year's operations for dividends and betterments.

The earnings and operating expenses of reporting companies are given in a table subjoined to this introductory analysis. On account of the lack of uniformity in making the returns, it is deemed expedient to publish only the totals for 1911. It will be seen, on referring to the table indicated, that rural and municipal systems were operated at a relatively low cost.

The gross earnings were equal to \$33.25 per telephone, or \$14.64 per mile of wire.

The operating expenses were equal to \$23.05 per telephone, or \$10.15 per mile of wire.

Earnings and operating expenses were distributed among the provinces as follows:—

| Province. | Earnings. | | Operating Expenses. | |
|-----------------------|------------|------|---------------------|------|
| | \$ | cts. | \$ | cts. |
| Ontario..... | 473,992 | 88 | 219,102 | 22 |
| Quebec..... | 6,127,055 | 81 | 4,136,083 | 27 |
| New Brunswick..... | 318,992 | 01 | 195,155 | 89 |
| Nova Scotia..... | 415,154 | 34 | 313,854 | 35 |
| Alberta..... | 439,846 | 10 | 250,707 | 48 |
| Saskatchewan..... | 279,559 | 29 | 162,348 | 34 |
| Manitoba..... | 1,123,446 | 62 | 1,032,034 | 36 |
| British Columbia..... | 856,570 | 72 | 643,438 | 34 |
| P. E. Island..... | 33,602 | 26 | 26,320 | 81 |
| Total..... | 10,068,220 | 03 | 6,979,045 | 06 |

It was found impracticable to make a fair analysis of earnings and operating expenses by companies. The rural systems, for example, are not conducted on a uniform basis. In some instances the method adopted was to assess each

SESSIONAL PAPER No. 20d

member of the organization his proportion of the operating cost for the year, and thus produce a balancing of accounts.

In others, a definite charge for telephone service was made, and the balance as between income and outgo was passed to the credit of the country. In still a considerable number of other cases, the plan followed was to build and equip the line, and pass over the work of operation to one of the major companies. For this operating service a specified charge per subscriber was imposed. The situation was increasingly complicated by the fact that in further instances the local company rented a certain wire mileage from one of the major systems, installed its own telephones, conducted its own central office, and paid for the cost of operating by charging a specific sum to each member. This aspect of the matter will be dealt with further under the head of tariffs and tolls.

EQUIPMENT.

The equipment of telephone companies in 1911 was represented in 687,728.50 miles of wire and 302,759 telephones.

The mileage of wire was divided as follows:—Urban 576,712.75, and rural 111,015.75.

By provinces the mileage of wire was distributed as follows:—

| Province. | Urban. | Rural. | Total. |
|-----------------------|------------|------------|------------|
| | Miles. | Miles. | Miles. |
| Ontario..... | 9,563.25 | 29,098.00 | 38,661.25 |
| Quebec..... | 458,166.00 | 17,781.25 | 475,947.25 |
| New Brunswick..... | 13,725.50 | 7,107.00 | 20,832.50 |
| Nova Scotia..... | 1,155.50 | 22,718.25 | 23,873.75 |
| Alberta..... | 20,165.50 | 151.00 | 20,316.50 |
| Saskatchewan..... | 18,122.00 | 9,253.25 | 27,375.25 |
| Manitoba..... | 22.00 | 18,593.00 | 18,615.00 |
| British Columbia..... | 54,793.00 | 5,064.00 | 59,857.00 |
| P. E. Island..... | 1,000.00 | 1,250.00 | 2,250.00 |
| Total..... | 576,712.75 | 111,015.75 | 687,728.50 |

Two explanations would seem to be necessary: First, the wire mileage credited to Quebec is the mileage of the Bell Telephone system, which extends to all the leading centres of Ontario. Second, the return of the Manitoba Government did not make any distinction between urban and rural mileage, and the total was classified as rural. It is confidently expected that a proper adjustment will be made for the current year.

The urban and rural wire mileage was divided into classes in the following way:—

| | Urban. | Rural. |
|-----------------------|------------|-----------|
| | Miles. | Miles. |
| Galvanized..... | 140,734.00 | 82,847.75 |
| Copper..... | 1,926.75 | 16,334.25 |
| Cable—overhead..... | 192,058.00 | 6,507.25 |
| " underground..... | 240,118.00 | 5,182.00 |
| " submarine..... | 1,867.00 | 45.00 |

2 GEORGE V., A. 1912

The long distance wire mileage reported was 94,750.50, distributed among the various Provinces as follows:—

| | |
|---------------------------|-----------|
| Ontario..... | 1,632.00 |
| Quebec..... | 61,086.00 |
| New Brunswick..... | 6,374.00 |
| Nova Scotia..... | 6,055.00 |
| Alberta..... | 6,700.00 |
| Saskatchewan..... | 5,013.50 |
| Manitoba..... | 5,926.00 |
| British Columbia..... | 1,314.00 |
| Prince Edward Island..... | 650.00 |
| Total long distance..... | 94,750.50 |

The only form of assistance given to telephone companies, of which definite information could be ascertained, had reference to equipment. The Government of Saskatchewan, under an Act passed in June, 1908, undertook to provide the poles for rural systems.

As has been indicated, the number of telephones in use totalled 302,759. Of these, 174,994 were operated by central energy, and 127,765 by magneto. Central energy telephones are those which are popularly described as automatic. The mere removal of the receiver from its hook warns Central. The magneto instruments are operated by the turning of a little handle at the right side, and these are the telephones which are invariably used in rural and small communities. In the light of this brief explanation, the following statement with respect to the number of telephones in use on June 30 last will be understood:—

| Province. | Central Energy. | Magneto. | Total. |
|-----------------------|-----------------|----------|---------|
| Ontario..... | 2,265 | 37,368 | 39,633 |
| Quebec..... | 133,435 | 24,565 | 158,000 |
| New Brunswick..... | 6,547 | 4,541 | 11,088 |
| Nova Scotia..... | 7,579 | 4,630 | 12,209 |
| Alberta..... | 6,983 | 7,441 | 14,424 |
| Saskatchewan..... | 386 | 8,666 | 9,052 |
| Manitoba..... | | 33,881 | 33,881 |
| British Columbia..... | 17,799 | 5,662 | 23,461 |
| P. E. Island..... | | 1,011 | 1,011 |
| Total..... | 174,994 | 127,765 | 302,759 |

It should be understood that the figures relating to Manitoba were not divided in the report of the Provincial Government, and had to be placed in one column or the other. They were put under the head of 'magneto' simply because the wire mileage had been classified as rural, for the reason indicated in a preceding paragraph.

EMPLOYEES.

The total number of employees reported was 10,425, to whom was paid \$915,636.14. This amount was equal to 13·1 per cent of the operating expenses, which would seem to indicate that the proportion of labour involved in the cost of operating a telephone system is relatively low. It must be remembered, however, that a majority of the rural organizations do not employ either operators or

SESSIONAL PAPER No. 20d

repairers. The connections are usually made by some person who receives therefor the free use of a telephone, and repairs are made by one or more men temporarily engaged for that purpose.

The number of employees and the wages bill were divided among the provinces as follows:—

| Province. | Number. | Remuneration. |
|-----------------------|---------|---------------|
| | | \$ cts. |
| Ontario..... | 729 | 168,532 38 |
| Quebec..... | 7,443 | 312,835 95 |
| New Brunswick..... | 303 | 105,030 05 |
| Nova Scotia..... | 315 | 86,888 80 |
| Alberta..... | 46 | 21,526 35 |
| Saskatchewan..... | 115 | 12,061 18 |
| Manitoba..... | 655 | 200,869 50 |
| British Columbia..... | 819 | 7,891 93 |
| Total..... | 10,425 | 915,636 14 |

The reports from Prince Edward Island and the Government of Saskatchewan did not give any information with respect to employees, which was clearly an omission. The situation with respect to Ontario and Quebec must be interpreted in the light of what has been said in relation to the Bell Telephone Company.

TARIFFS, TOLLS AND RENTALS.

Every effort was made to gather data which it was hoped would enable an analysis to be made of tariffs and tolls throughout the Dominion; but the information received could not possibly be classified. It was not found practicable to establish even a maximum and minimum charge, by Provinces, for the use of a telephone. The variations and qualifying conditions were too great. In this situation it was felt that, if a fair and intelligible classification could not be made of the various tolls and rentals reported, it would be well not to attempt the task. Whether or not the details which are on hand can be analyzed in such a way as to form a part of next year's report remains to be seen. Certainly they cannot be put into effective shape for the purposes of this report. This is disappointing; but it is quite unavoidable under the circumstances bearing upon this primary report.

CONCLUSIONS.

That returns were received from 537 distinct telephone organizations must be regarded as encouraging, in view of the many obstacles which had to be overcome in gathering data for this first report. The notice to reporting officers was insufficient, and there was not time enough for the carrying on of complete explanatory correspondence. The work done, however, has been educational in character, and has undoubtedly paved the way for smoothness and a larger measure of success in future.

I have the honour to be, sir,

Your obedient servant,

J. L. PAYNE,
Comptroller of Statistics.
