1. Preliminary Propane Statistics July 1969 and July 1970

Production of propane for July 1970 amounted to 2,090,132 barrels. This was an increase of 272,957 barrels over the same month last year.

Sales to distributors were 581,678 barrels as compared with 713,709 barrels during July 1969.

The export of propane for the month was 575,267 barrels, an increase of 25.0% over July, 1969.

These statistics show provincial source and end disposition of the product, without taking into account intermediate inter-provincial transfers.

(1) Excludes returned to formation.

(2) Identifiable industrial sales have been allocated to this category. Distributor sales may contain sales to industrial.

Coal and Coke Statistics, August 1970, Cat. No. 45-002

Coal production for the month of August 1970 amounted to 1,304,513 tons an increase of 129.5% from the August 1969 production of 568,396 tons, while landed imports were 2,025,588 tons compared with 1,628,634 tons for the month of August 1969. Consumption by industrial consumers amounted to 1,233,404 tons of coal and 497,789 tons of coke, an increase of 193,530 tons of coal and 241,329 tons of coke from last year.

Industrial consumers' stocks of coal and coke increased to 6,415,828 tons from 6,369,046 tons in August 1969.

Coke production during the month of August 1970 increased to 478,404 tons from 252,224 tons in August 1969, while coke used in blast furnaces increased to 362,328 tons from 125,888 tons during the same period.

August 1970 (1969-70 Catalogue No. 63-002)

Industry Product Statistics, July 1969 and July 1970

The following figures for July 1970 represent the 1969-70
period. This was an unusual year, with 1970 having over one
million more units.

With the exception of 36,678 barrels of gasoline with
2,229 barrels during July 1969.

The export of propane from the north was 55,767 barrels, or
approximately 25,070 cubic feet, July 1970.

Final statistics will be available and will dispel the
rumors about the oil companies' accounting practices.
