Sydney B. Smith, N.A.

BANK DEBITS TO INDIVIDUAL ACCOUNTS, JANUARY, 1935.

Cheques cashed against individual accounts by the branch banks in the 32 clearing centres of the Pominion amounted to \$2,682,000,000 in January, compared with \$2,597,000,000 in the same month of last year. The gain of 3.3.p.c. represents an expansion in business operations and a higher level of security and commodity prices.

The gain over the same month of 1934 was general in each of the five economic areas except British Columbia. A slight increase was recorded in the Maritime Provinces, the total in January last having been \$43,509,000. Halifax and Saint John showed advances in this comparison, while the level in Moncton was somewhat lower.

Gains were shown in the three centres of the province of Quebec, the net increase in the area having been 2.3 p.c. The gain in Montreal was less than one per . cent.

Ten of the 13 centres in Ontario showed increases over January 1934. The decline in Toronto was nearly 4 p.c., while the increase for the province was 1.4 p.c. Debits in the Prairie Provinces were \$435,391,000 compared with \$381,652,000 in the same month of 1934, a gain of 14.1 p.c., while the increase in Winnipeg was 15.6 p.c. Bank debits were less during January in each of the three centres of British Columbia than in the same month of last year. The declines in Vancouver and the Province were 1.8 p.c. and 2.6 p.c., respectively.

Comparison with December 1934 after Seasonal Adjustment

A gain of 4.1 p.c. was shown in bank debits in January over the preceding month after seasonal adjustment. Quebec was the only one of the five economic areas not showing an increase in this comparison. A slight gain was recorded in the Maritime Provinces after seasonal adjustment. The declines in Montreal and Quebec province were 3.9 p.c. and 2.1 p.c., respectively. The adjusted gain in Ontario was 2.3 p.c., while Toronto recorded an increase of 1.3 p.c. After seasonal adjustment, the gain in Winnipeg was 6.3 p.c., while the total for the Prairie Provinces was up 9.2 p.c. The gain in Vancouver was 2.3 p.c., and an adjusted increase of less than 1 p.c. was recorded in British Columbia.

Long Term Comparisons

Bank debits in the Pominion during January were greater than in the same month of any year since 1930. Except for January last year debits in Toronto were greater than in the same month of any year since 1929. The Montreal total was in excess of any January since 1931. The Winnipeg and Prairie Province totals were larger than in the same month for any other year since 1930.

Turnover of Bank Deposits

As the percentage gain in bank deposits was greater than that in bank debits, the turnover of the former was at a lower level in January than in the same month of last year. The sum of the demand and notice deposits was \$1,983,000,000 on December 31, compared with \$1,859,000,000 on the same date one year ago, the gain being 6.7 p.c. The increase in bank debits was 3.3 p.c., the turnover of deposits being 135.3 p.c. compared with 139.7 in January of last year.

Comparison with other Economic Factors after Seasonal Adjustment Wherever Necessary.

The index of bank debits was 109.5 in January compared with 105.2 in December. Wholesale and common stock prices were higher in January, the indexes moving up 0.4 p.c. and 2.9 p.c., respectively. Trading on the Montreal stock exchange was considerably greater than in December.
