Dominion Statistician: Business Statistician: R. H. Coats, LL.D., F.R.S.C., F.S.S. (Hon.). Sydney B. Smith, M.A.

BANK DEBITS TO INDIVIDUAL ACCOUNTS, SEPTEMBER 1935.

Financial transfers in the form of bank debits reached a lower level in September than in the preceding month. The high point for this year was reached in May and since that time bank debits have been declining. The total for September was less than in the same month of either 1933 or 1934.

The decline in bank debits in September from the preceding month, after seasonal adjustment was 7.1 p.c. The total was \$2,426,000,000 against \$2,498,000,000 in August. Quebec was the only one of the five economic areas to show an increase in this comparison. The decline in the Maritime Provinces, after seasonal adjustment, was nearly 6 p.c. The gain in Quebec over August, after seasonal adjustment was 5.4 p.c., Montreal recording a gain of 6.1 p.c. Declines were shown in Toronto and Ontario to the extent of 9.6 p.c. and 6.8 p.c., respectively. Debits in the Prairie Provinces were \$563,800,000 against \$637,800,000 in August, the seasonally adjusted decline being nearly 10 p.c. The drop in Winnipeg was 12.2 p.c. in this comparison. Appreciable declines were shown in British Columbia, where the percentage decline was 6.3. A drop of 8.4 p.c. was shown in Vancouver.

Comparison with the Same Month of 1934

The Dominion total was \$2,426,000,000 in September against \$2,581,000,000 in the same month of last year, a decline of 6 p.c. The Maritime Provinces and British Columbia were the only economic areas to show gains in this comparison. The improvement in the Maritime Provinces was nearly 5 p.c. Slight recessions were shown in Montreal and the Province of Quebec. The decline in Toronto was 14 p.c. and the net result for the province of Ontario was a drop of 13.2 p.c. The declines in the Prairie Provinces were inconsiderable, amounting to 2.2 p.c. for the total and 1.1 p.c. for Winnipeg. The gain in British Columbia and Vancouver was 6.8 p.c. and 4.7 p.c., respectively.

Comparison with the First Nine Months of 1934

The cumulative total in the thirty-two clearing centres of Canada for the first nine months of 1935 was \$22,685,000,000 as against \$23,324,000,000 in the same period of 1934. The Maritime Provinces and British Columbia showed gains, while the other three economic areas were on lower levels. The gain in the Maritime Provinces was 4.3 p.c. The city of Quebec was the only reporting centre of the province of the same name to show an increase. The net result for the province was a decline of 3.8 p.c., while the city of Montreal declined 4.7 p.c.

The drop in Ontario was 3 p.c., Toronto being off 3.5 p.c. Ten of the 13 centres recorded gains in this comparison. The decline in the Prairie Provinces was 2.1 p.c. and in Winnipeg nearly 5 p.c. Eight centres out of the ten in the Prairie Provinces gained in this comparison. The increase in British Columbia was 1.2 p.c., reflecting increases in Victoria and New Westminster. A slight decline was shown in Vancouver.

Turnover of Bank Deposits

The percentage of bank debits to deposits in Canada during September was 122.0 compared with 138.3 in the same month of 1934. The sum of demand and notice deposits on the last day of August was \$1,988,074,000 compared with \$1,865,860,000 on the same date of last year. As mentioned above, the decline in bank debits from the same month of last year was 6 p.c. The index of bank debits, adjusted for seasonal tendencies, and expressed as a percentage of the average of 1926, was 102.9 in September compared with 110.8 in August.

The index of the physical volume of business indicated a decline in September from the preceding month. Advance was recorded in wholesale prices, the index moving up from 71.6 to 72.3. Common stock prices showed a slight decline and speculative trading on the Montreal Stock Exchange was at a considerably lower level than in the preceding month.
