#### DOMINION BUREAU OF STATISTICS - OTTAWA GENERAL STATISTICS BRANCH

Dominion Statistician: Business Statistician: R. H. Coats, LL.D., F.R.S.C., F.S.S. (Hon.) Sydney B. Smith, N.A.

#### BANK DEBITS TO INDIVIDUAL ACCOUNTS, FEFRUARY, 1936

Financial transfers in the form of bank debits showed a gain of 32.5 p.c. in February over the same month of last year. The increase was mainly due to active trading on the stock exchanges, common stock prices being at a much higher level than in the same month of last year.

Only four out of the 32 centres showed declines in this comparison, marked gains being shown for each of the five economic areas. The gain in the Maritime Provinces was 18.7 p.c., the total for February having been \$43,800,000. Gains were shown in the three centres of the province of Quebec, the aggregate being up 51.2 p.c. Debits in Montreal were \$809,000,000, a gain of 50.6 p.c. Only one centre out of the 13 in Ontario recorded a decline in this comparison. The gain in Toronto was 24.5 p.c., while the total for the province showed a gain of 18.3 p.c. The financial transfers in Winnipeg were 56.2 p.c. greater than in February of last year and the gain of 43.6 p.c. was shown in the total for the Prairie Provinces. Gains were shown for the three centres of British Columbia. Vancouver recorded a gain of 45 p.c., and the total for the province was 45.5 p.c. greater. The Dominion total for February was \$2,667,000,000 against \$2,089,000,000 in February of last year.

#### Comparisons with January after Seasonal Adjustment

After seasonal adjustment, the bank debits of Quebec, Ontario and British Columbia showed gains in February over the preceding month. The net result was that the adjusted total for Canada was 5.5 p.c. greater than in the first month of the year. A decline of 3.8 p.c. was shown in the aggregate for the Haritime Provinces. The province of Quebec recorded a gain of 12.8 p.c., a similar percentage gain being shown in Hontreal. The advance in Ontario was 5.7 p.c., Toronto showing an advance of 8.3 p.c. Declines were shown in Winnipeg and in the total for the Prairie Provinces of 31.1 p.c., and 22.2 p.c., respectively. The advance in British Columbia was 10 p.c., a gain of 10.8 p.c. having been shown in Vancouver.

#### Comparison with the First Two Months of 1935

Bank debits for the first two months of 1936 were almost \$5,760,000,000 compared with \$4,771,000,000 in the similar period of 1935. The gain was no less than \$988,000,000 or 21.7 p.c. Gains were recorded in each of the five economic areas in this comparison and only three of the thirty-two centres failed to show gains. The increase in the Haritime Provinces was 17.2 p.c., while Quebec recorded a gain of 25.2 p.c. The Toronto total was 11.4 p.c. greater, while the total for Ontario was up 9.2 p.c. Bank debits amounted to \$1,063,000,000 in the first two months against \$733,000,000, a gain of about 45 p.c. Marked gains were shown in each of the centres in British Columbia, the total for the province being up 34.5 p.c.

#### COMPARISON WITH OTHER ECONOMIC FACTORS

The index of bank debits was 128.9 in February compared with 122.1 in January and 97.3 in February of last year. The index of the physical volume of business showed decline from the preceding month but was somewhat greater than in the second month of last year. The same remark applies to the index of wholesale prices. The index of common stock prices was 120.7 in February, recording marked advance over January and February of last year. The index of trading on the Montreal Stock Exchange also showed a marked advance in both comparisons. The percentage turnover in bank debits was 133.4 in February compared with 107.6 in the same month of last year. The sum of the demand and notice deposits at the end of January were \$2,075,000,000 against \$1,942,000,000 on the same date of last year. The advance in bank debits was from \$2,089,000,000 to \$2,767,000,000.
