Dominion Statistician: Business Statistician: R. H. Coats, LL.D., F.R.S.C., F.S.S.(Hon.) Sydney B. Smith, M.A.

BAWK DEBITS TO INDIVIDUAL ACCOUNTS, APRIL, 1936

Financial transfers in the form of bank debits were 17 p.c. greater in April than in the same month of last year. Higher levels in business operations and in speculative activity accounted for the marked increase in the cashing of cheques. Each of the economic areas recorded gains in this comparison, the greatest having been shown in Quebec. The gain in the Maritime Provinces was 12.7 p.c. Montreal and the province of Quebec recorded gains of 44.2 p.c. and 41.4 p.c., respectively. Twelve of the thirteen centres in Ontario recorded increases over the same month of last year. The gain in Toronto was 5.4 p.c., while the provincial total was 8.7 p.c. greater. A gain of nearly 7 p.c. was shown in Winnipeg, while the total for the three Prairie Provinces was up 2.4 p.c. Marked gains were shown in British Columbia, the total for the province being nearly 20 p.c. greater and the gain in Vancouver was 23.2 p.c.

Comparison with March after Seasonal Adjustment

A moderate gain was shown in bank debits, after seasonal adjustment, over the preceding month. The increase in the Dominion total was 3.8 p.c. Each of the five economic areas except Ontario recorded gains in this comparison. The total for the Maritime Provinces showed a very slight gain over March after the usual adjustment. The gain in Montreal was 7.5 p.c., while the adjusted total for Quebec was up 6.1 p.c. A decline of 6.2 p.c. was shown in Toronto after seasonal adjustment, while the total for Ontario was down 3.5 p.c. Marked gains were shown in Winnipeg and the Prairie Provinces, the gains being 30.1 p.c. and 22.6 p.c., respectively. The gain in Vancouver was 5.8 p.c., while the aggregate for British Columbia was 2.2 p.c., greater.

Comparison with the First Four Months of 1935

Twenty-seven of the thirty-two clearing centres in Canada showed gains in the first four months of the present year over the corresponding period of 1935. The Dominion total for the clapsed portion of the present year was \$11,132,000,000 compared with \$9,374,000,000 in the same period of last year. The marked gain of 18.8 p.c. represents considerable betterment in the economic situation over the first four months of last year. Gains were general in the three reporting centres of the Maritime Provinces, the aggregate gain for the area having been 15.8 p.c. The gain in Montreal was cutstanding, the advancement having been from \$2,510,000,000 to \$3,238,000,000, resulting in an increase of \$728,000,000 or 29 p.c. The gain in the aggregate for the province of Quebec was nearly 27 p.c. cleven of the thirteen centres of Ontario recorded gains in this comparison, the total for the first four months of the present year having been \$4,756,000,000 against \$4,457,000,000 in the same period of 1935. This represents an increase of 9 p.c. The gain in Toronto was 9.7 p.c. and Hamilton recorded an increase of 17.8 p.c. The gain in Windsor was from \$85,000,000 to \$148,000,000, representing 74 p.c. The gain in the Prairie Provinces was more than 30 p.c., eight of the ten centres recording increases in this comparison. The showing in Winnipeg was spectacular, cheques cashed in the first four months of this year having been \$1,444,000,000 against \$1,013,000,000 in the same period of 1935. The consequent gain was \$431,000,000 or 42.5 p.c. Marked gains were recorded in each of the three centres of British Columbia, the total for the province recording an increase of nearly 23 p.c. Debits in Vancouver at \$554,000,000 showed an increase of practically 30 p.c.

Comparison with Other Factors

The index of bank debits on the base of 1926, after seasonal adjustment, was 115.5 in April against 111.3 in March and 98.6 in the same month of last year. Indexes showing the trend of common stock prices and of speculative activity recorded decline from March but a considerable advance over April, 1935. The index of wholesale prices was 72.2 in April against 72.4 in March and 72.5 in April of last year. The percentage of bank debits to demand and notice deposits was 132 in April against 120.8 in April of last year. Gains were recorded in deposits, but the increase of bank debits was in much greater proportion.
