DOMINION BUREAU OF STATISTICS - OTTAWA BUSINESS STATISTICS BRANCH

Acting Dominion Statistician: Chief, Business Statistics Branch: S.A. Cudmore, M.A. (Oxon.) F.S.S., F.R.S.C. Sydney B. Smith, M.A.

BANK DEBITS TO INDIVIDUAL ACCOUNTS, JUNE, 1942.

Cheques cashed by the branches of the chartered banks amounted to \$21,592 million in the first half of 1942 compared with \$18,810 million in the same period of the preceding year. The gain of 14.8 p.c. or \$2,782 million was due to heavy payments on the second Victory Loan as well as to the higher levels of business activity and commodity prices. Increases were shown in each of the five economic areas.

The Maritime Provinces recorded a gain of nearly 17 p.c., the total having been \$525 million against nearly \$450 million. Cheques cashed in the three clearing centres of Quebec rose from \$5,221 million to \$5,931 million, a gain of 13.6 p.c. The greatest percentage increase was recorded in Ontario where debits were \$10,686 million in the first half of the present year against \$8,924 million one year ago. The increase was 19.8 p.c. or \$1,763 million. The gain in the Prairie Provinces was $2\frac{1}{2}$ p.c., the total in the first half of this year having been \$3,124 million. Debits in British Columbia reached a high level at \$1,326 million against \$1,168 million, a gain of 13.5 p.c.

Comparison with June 1941-Bank debits in June were \$3,767 million against \$4,241 million in the same month last year, a decline of 11.2 p.c. Declines were shown in each of the five areas. Debits in the Maritime Provinces were \$87.6 million against \$95.6 million one year ago, a recession of 8.4 p.c. Considerable decline was shown in Quebec, the total having been \$976 million against \$1,174 million in June last year. In Ontario, a recession of 7.7 p.c. was recorded, the total having been \$1,889 million against \$2,046 million. A majority of the ten centres in the Prairie Provinces showed declines in June as compared with the same month of last year. The total was \$586 million against \$650 million. Two of the centres in British Columbia showed declines in this comparison, the net result being that debits were \$229 million against \$275 million in June of 1941.

Comparison with May after Seasonal Adjustment--Bank debits were practically maintained in June as compared with the preceding month after seasonal adjustment. The total in June was \$3,767 million against \$3,791 million in May. A gain of 2 p.c. was recorded in the Maritime Provinces. The decline in Montreal and the Province of Quebec was 10.2 p.c. and 8.4 p.c., respectively. Debits in Toronto during June were \$1,009 million against \$915 million in the preceding month, an increase of 11.8 p.c. after seasonal adjustment. The net result for the province was a gain of 2.2 p.c., the total in June having been \$1,889 million. Increases were shown in the Prairie Provinces before and after seasonal adjustment. The total was \$586 million against \$536 million. The increases in Winnipeg and the Prairie Provinces as a whole were 21.7 p.c. and 13.4 p.c., respectively. The recession in Vancouver was 1.1 p.c., while a decline of 6.6 p.c. was shown in the total for the province of British Columbia after seasonal adjustment.

Current and Savings Accounts--Bank debits charged to current accounts were \$3,613 million compared with \$3,645 million in May. The sum of the government and demand deposits was \$1,562 million at the beginning of the month under review compared with \$1,725 million one month before. The current deposits consequently turned over 2.31 times against 2.11 times in the preceding month. Bank debits charged against savings account in June were \$154.5 million, while the notice deposits amounted to \$1,556 million at the beginning of the month. The turnover of the notice deposits was .0993 against .0947 in the preceding month.

Comparison with Other Factors--An index of bank debits after seasonal adjustment was 127.7 in June against 143.8 in the same month last year. In the meantime wholesale prices advanced from 90.0 to 95.8. An index of employment in manufacturing was 200.5 in May against 161 at the first of June last year. Common stock prices on the other hand showed recession, the index dropping from 64.0 to 62.8.

Equation of Exchange--Circulating media in the hands of the public computed for June was \$557.4 million. The amount in the same month of last year was \$428.6 million. During the interval the notes in the hands of the public increased from \$384.2 million to \$507.1 million. The total bank deposits in Canada were \$3,117.6 million at the beginning of June against \$3,045.1 million on the same date of last year. It is estimated that the cash and cheque payments in June amounted to \$5,121 million against \$5,335 million in June last year, while the money supply consisting of deposits and circulating media in the hands of the public rose from \$3,474 million to \$3,675 million.

. , The state of the s
