Chief, Business Statistics Branch: Sydney B. Smith, M.A.

CHEQUES CASHED AGAINST INDIVIDUAL ACCOUNTS, OCTOBER, 1945

Cheques cashed in clearing centres rose from \$4,932 million in October, 1944, to \$5,749 million last month. Consequently the increase was 16.6 per cent. Advances were shown in each of the five economic areas, the greatest percentage gain having occurred in British Columbia.

The gain in the Maritime Provinces was 5 per cent, the total having risen from \$114.8 million to \$120.4 million. Gains were shown in Moncton and St. John, while the total for Halifax was at a lower position. The aggregate for the Province of Quebec rose 15.7 per cent to \$1,494 million. Advances were shown in Montreal and Sherbrooke, while Quebec city showed a recession. The total in Montreal was \$1,349 million compared with \$1,144 million. Ten of the 14 centres in Ontario recorded increases in this comparison. The grand total was \$2,572 million compared with \$2,191 million. The total for Toronto rose \$391.00 million to \$1,385 million. A slight recession was shown in Ottawa, the total of \$805 million in October last year receding to \$797 million.

An increase of 10.7 per cent was shown in the aggregate for the Prairie Provinces, the total for October having been \$1,155 million. Each of the 10 centres in the Prairie Provinces, except Brandon, showed increases over October last year. The total was \$1,155 million against \$1,043 million. Cheques cashed in Winnipeg rose about \$39 million to \$686 million. Important increases were shown in each of the three centres of British Columbia, the provincial total rising 40.2 per cent to \$408 million. The advance in Vancouver was from \$233 million to \$335 million.

COMPARISON WITH THE FIRST TEN MONTHS OF 1944.

Cheques cashed during the first ten months of the present year were \$53,719 million, an increase of \$4,777 million over the same period of last year. The total for the Dominion rose 9.8 per cent and increases were shown in each of the five economic areas except the Prairie Provinces where the total was nearly maintained. The advance in the Maritime Provinces was 15.7 per cent, while the Quebec total was 9 per cent greater. The greatest absolute advance was shown in Ontario where the total rose about \$3 billion to \$24.7 billion. The increase was 13.8 per cent.

The total for the Prairie Provinces was just slightly below that of the first 10 months of 1944, the standing in the present year having been \$9,313 million compared with \$9,335 million. An increase of 12.8 per cent was shown in British Columbia, the total in the first 10 months of the present year having been \$3,442 million.

Bank debits of the first 10 months of the present year were greater than in any other similar period in history. A new maximum had been reached in the first ten months of 1944 and an appreciable advance was recorded this year. Debits in each of the five economic areas except the Prairie Provinces reached a new maximum in the period under review. The high point for the first 10 months for the Prairie Provinces was reached during 1944 and the recession was limited to about \$22 million. Marked gains were shown in 1945 over 1929, the culmination of the preceding major economic cycle. The total for Quebec, for example, rose from \$13.7 billion to \$15.1 billion and the Ontario total was \$24.7 billion against \$15.4 billion in the same period of 1929. The total for the Prairie Provinces rose from \$6.4 billion to \$9.3 billion while British Columbia rose from \$2.5 billion to \$3.4 billion. The rise in the Maritime Provinces was from \$664 million to \$1,216 million.

The turnover of current accounts, including Dominion and provincial balances and demand deposits was 2.33 in October against 2.07 in the same month last year. The notice deposits turned over .109 times as compared with .098 times in the same month last year. Current deposits in the meantime had risen from \$4,691 million to \$5,428 million, while notice deposits were \$2,935 million against \$2,464 million.

RELATION OF CHEQUES CASHED TO OTHER FACTORS

The index of bank debits on the base of 1935-39 was 191.5 in October against 164.3 in the same month last year. The index of the physical volume of business, on the other hand, has shown considerable decline, the total in September having been 205.3 against 231 in the same month of 1944.

REPLY TO BUREAU REQUEST FOR INFORMATION, DECEMBER 1963

Reference is made to your letter dated December 10, 1963, requesting information regarding the status of the various land parcels owned by the Bureau of Land Management in the State of California.

The Bureau of Land Management has a total of 1,100,000 acres of land in California. This land is divided into three main categories: (1) National Forest land, (2) Public Domain land, and (3) Private land. The National Forest land is managed by the United States Forest Service, which is a part of the Department of Agriculture. The Public Domain land is managed by the Bureau of Land Management, which is a part of the Department of the Interior. The Private land is owned by private individuals or corporations.
