CHEQUES CASHED AGAINST INDIVIDUAL ACCOUNTS, SEPTEMBER, 1946

Cheques cashed during September rose more than 14 per cent over the same month of last year, the total having been \$5,891 million compared with \$5,157 million. During the interval a considerable advance was shown in prices in different fields. The Indexes of wholesale prices and cost of living, which had been 103.3 and 119.9 in September 1945, respectively, have shown an appreciable advance. The index of common stock prices rose from 99.6 in August last year to 116.9. Productive operations, as indicated by the index of the physical volume of business, and employment in manufacturing plants, showed decline in this comparison.

Increases were shown in the cheques cashed for each of the five economic areas except the Maritime Provinces in September over the same month of last year. The decline in the Maritime Provinces was 20.2 per cent, while increases were shown in Quebec and British Columbia. Thirty of the thirty-three clearing centres recorded advances over September last year, the exceptions having been Halifax, Moncton and Ottawa.

Cheques cashed in the Maritime Provinces amounted to \$115.7 million in September compared with \$144.9 million in the same month last year, a decline of more than 20 per cent. An increase of 14 per cent was shown in Saint John, while declines were indicated for Halifax and Moncton. Each of the three centres in the Province of Quebec showed increases, the provincial total rising 30.7 per cent. The percentage gain in the Province of Quebec was greater than that of any other economic area. Cheques cashed in Montreal amounted to \$1,676 million, a gain of 32.8 per cent. Advances were also shown in Quebec and Sherbrooke, the increase in the latter having been 35 per cent.

Thirteen of the fourteen centres in Ontario showed advances over the same month of 1945. The aggregate for the province was 4 per cent greater at \$2,515 million. Cheques cashed in Ottawa receded from \$700 million to \$545 million, while Toronto, on the other hand, rose 13 per cent to \$1,546 million. The aggregate for the three Prairie Provinces was 17 per cent greater, increases having been shown in each of the ten centres. The total for Winnipeg was \$588 million, a gain of 12 per cent over September 1945. The advance in British Columbia was 27.3 per cent, the total for the province having been \$424 million. Increases were shown in each of the three clearing centres.

Comparison with the First Nine Months of 1945

Cheques cashed in the first nine months of 1946 amounted to \$50,808 million compared with \$47,970 million in the same period of 1945. The increase was nearly 6 per cent or \$2,838 million. Advances were shown in each of the
