DOMINION BUREAU OF STATISTICS GENERAL STATISTICS BRANCH OTTAWA

Dominion Statistician: R. H. Coats, B.A., F.S.S.(Hon.), F.R.S.C. Chief, General Statistics: S. A. Cudmore, M.A., F.S.S.

BANK DEBITS TO INDIVIDUAL ACCOUNTS

or

Amount of Cheques charged against Bank Accounts at the Clearing House Centres, February, 1927.

Owing to general increases at the clearing house centres of Ontario and Quebec, the bank debits of Canada showed in February a substantial increase over the same month of 1926. The total reported to the Dominion Bureau of Statistics, by the Canadian Bankers' Association, was \$2,293,000,000, as compared with \$2,132,000,000 in February, 1926, representing an increase of \$161,000,000 or 7.5 p.c. After adjustment is made for seasonal variation according to the experience with bank clearings for 12 years, the increase over January last was about 3 p.c. The actual decrease was nearly 12 p.c., but this would be counterbalanced by the lesser number of days. The average decrease in February from the preceding month is 15 p.c.

Bank clearings were \$1,304,700,000 in February, as compared with \$1,242,000,000 in the same month of 1926, an increase of \$62,000,000 or 5 p.c.

Comparison by Areas with February, 1926.

Each of the 15 centres of Quebec and Ontario showed increases in February as compared with the same month of 1926. On the other hand, each of the centres in the Maritime Provinces experienced declines. In the Prairie Provinces, Prince Albert, Saskatoon and the branches of the Weyburn Security Bank showed increases, while declines occurred at the remaining centres. In the Pacific area, declines were also shown by the two principal centres.

Maritime Provinces. The debits in the Maritime Provinces were \$45,400,000, as compared with \$51,800,000, a decline of 12 p.c. The centres in New Brunswick each showed a recession of 5 p.c., while the decline at Halifax was 18 p.c.

Quebec.— The increase in Montreal debits was \$83,000,000 or 13 p.c., the total amount in February being \$727,000,000. The largest percentage increase of 15 p.c. was shown at Sherbrooke, while the advance at Quebec city was 5 p.c. The net result for the province was a total of \$723,000,000, as compared with \$644,000,000 in Tebruary 1926, an increase of nearly \$57,000,000 or 12.5 p.c.

Intario. While each of the centres of Ontario showed advances, increases on a percentage basis were especially large at Fort William, London and Windsor, where the gains were 35, 29 and 27 p.c., respectively. The large increase of 22 p.c. was recorded at Toronto, where the debits in February were \$762,000,000, as compared with \$625,000,000 in February, 1926. The debits of Hamilton were \$47,000,000, representing an increase of 7 p.c. over February, 1926. The total for the province was \$1,020,000,000, as compared with \$859,000,000 in the same month last year, an increase of 19 p.c.

Prairie Provinces. Two minor centres and the branches of the Weyburn Security Bank showed increases over February, 1926, while eight centres experienced declines. The debits of Winnipeg were \$176,000,000, as compared with \$230,000,000, a decline of \$54,000,000 or 23 p.c. The aggregate decrease in the centres of the three provinces was \$67,000,000 or 18 p.c.

British Columbia. - The increase of \$500,000 or 15 p.c. at New Westminster was insufficient to counterbalance the declines at Vancouver and Victoria. The debits in Vancouver were \$107,000,000, as compared with \$121,000,000 in February, 1926, a decline of 11 p.c. The debits in British Columbia, amounting to \$135,000,000, were about 9 p.c. less than in the same month of 1926. (See Table 1).

Comparison with January after Seasonal Adjustment.

Based on the experience with bank clearings in the twelve-year period from 1913 to 1924, an adjustment of the statistics of bank debits was effected for the purpose of facilitating short-term comparisons. Comparing the adjusted debits of February with those of the preceding month, increases were shown at Montreal and Toronto of 4 p.c. and 7 p.c., respectively. The decline at Winnipeg Was 10 p.c., while the recession at Vancouver was about 7 p.c. (See Chart 2).

Cumulative Totals for First Two Months.

The cumulative debits in Canada for the two months of the present year were 9 p.c. greater than for the first two months of 1926, and 18.5 p.c. greater than in the same period of 1925. Three of the economic areas showed increases over 1926 in this comparison, the greatest relative gain of 20 p.c. being shown in Ontario. The gain of nearly 11 p.c. over 1926 was recorded by Quebec, while the Pacific area had an increase of 1.3 p.c. A decline of about 10 p.c. was shown in each of the remaining areas, the Maritime Provinces and Prairie Provinces.

Turnover of Bank Deposits.

The turnover of bank deposits in February was greater than in the corresponding month of last year. The percentage of bank debits to the demand and notice deposits was 118 as compared with 116 in February, 1926. The increase in the turnover of bank deposits was due to the bank debits increasing faster than the deposits. The increase in the debits was 7.5 p.c., while the increase in the deposits was about 4.5 p.c. (See Table 4).

Statistical Tables.

In Table 1 will be found the bank debits in each of the clearing house centres in Canada during February 1927, with the comparative figures for January, 1927, and February, 1926. Table 2 gives the debits in the five economic areas by menths from January, 1926, to the month under review, and shows the relation of bank clearings to bank debits during the same period. Table 3 presents bank debits in millions of dollars in economic areas and principal clearing centres of Canada in February, 1927, with the comparative statistics for the corresponding menths of the two preceding years. Table 4 shows the relation of bank debits to deposits for each month from January 1925 to the month under review.

March 25, 1927-E

1. BANK DEBITS TO INDIVIDUAL ACCOUNTS AT THE CLEARING HOUSE CENTRES OF CANADA, FEBRUARY 1927, WITH COMPARATIVE FIGURES FOR JANUARY 1927, AND FEBRUARY 1926.
