BANK DEBITS TO INDIVIDUAL ACCOUNTS

OF

Amount of Cheques Charged Against Bark Accounts at the Clearing House Centres

Recember, 1928.

Although bank debits in December showed a decline in comparison with December, 1927, and also with November last after seasonal adjustment, the total for last year was more than 20 p.c. in excess of the aggregate for 1927. The total in 1928 was \$43,472,000,000 a increase of \$7,378,700,000 over the preceding year. Much of this increase was explained by the greater activity in speculative trading, but the expansion in general business was also an important factor in swelling the total. Statistics of bank debits to individual accounts at the clearing house centres are published by the Dominion Bureau of Statistics under an arrangement with the Canadian Bankers! A reciation

Total for the Year 1928

The increases in 1928 as compared with the preceding year were general throughout the five economic areas. The debits in Ontario during 1928 were \$17,312,000,000, an increase of 18.3 p.c. The gain in Quebec province was nearly as great relatively, the total in 1928 being \$14,913,000,000. The Maritime Provinces showed an increase of 18.7 p.c. to \$745,000,000. The increases in Western Canada were swhat greater, the Pairie Provinces showing the marked expansion of 30.5 p.c. The aggregate in the three provinces was \$5,005,000,000 compared with \$5,127,000,000 in 1927. The expansion in British Columbia was well maintained, the increase in the yearly total being 21.5 p.c.

Comparison of December, 1928 and December, 1927.

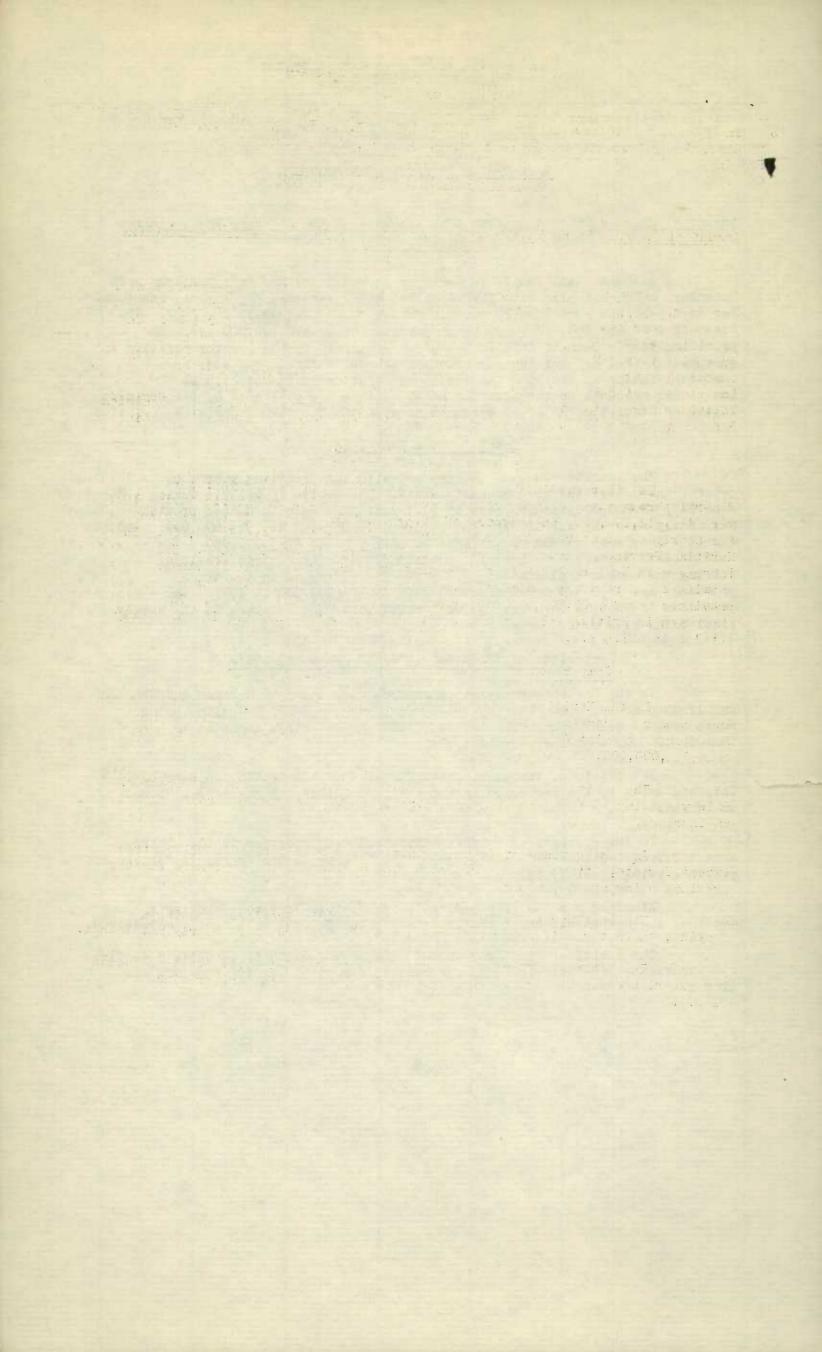

In the Maritimes moderate increases were shown in Halifax and Moncton in December as compared with the totals for December 1927, a decline being registered at Saint John. The debits of the three centres amounted to more than \$69,000,000, an increase of 9 p.c.

The debits of the province of Quebec showed a decline in December. This was owing to the recession in Montreal and Quebec, as Sherbrooke showed an increase.

In the province of Ontario increases were recorded in all centres except Toronto, Ottawa and Peterborough, the decline in the aggregate for the province being about 7.6 p.c.

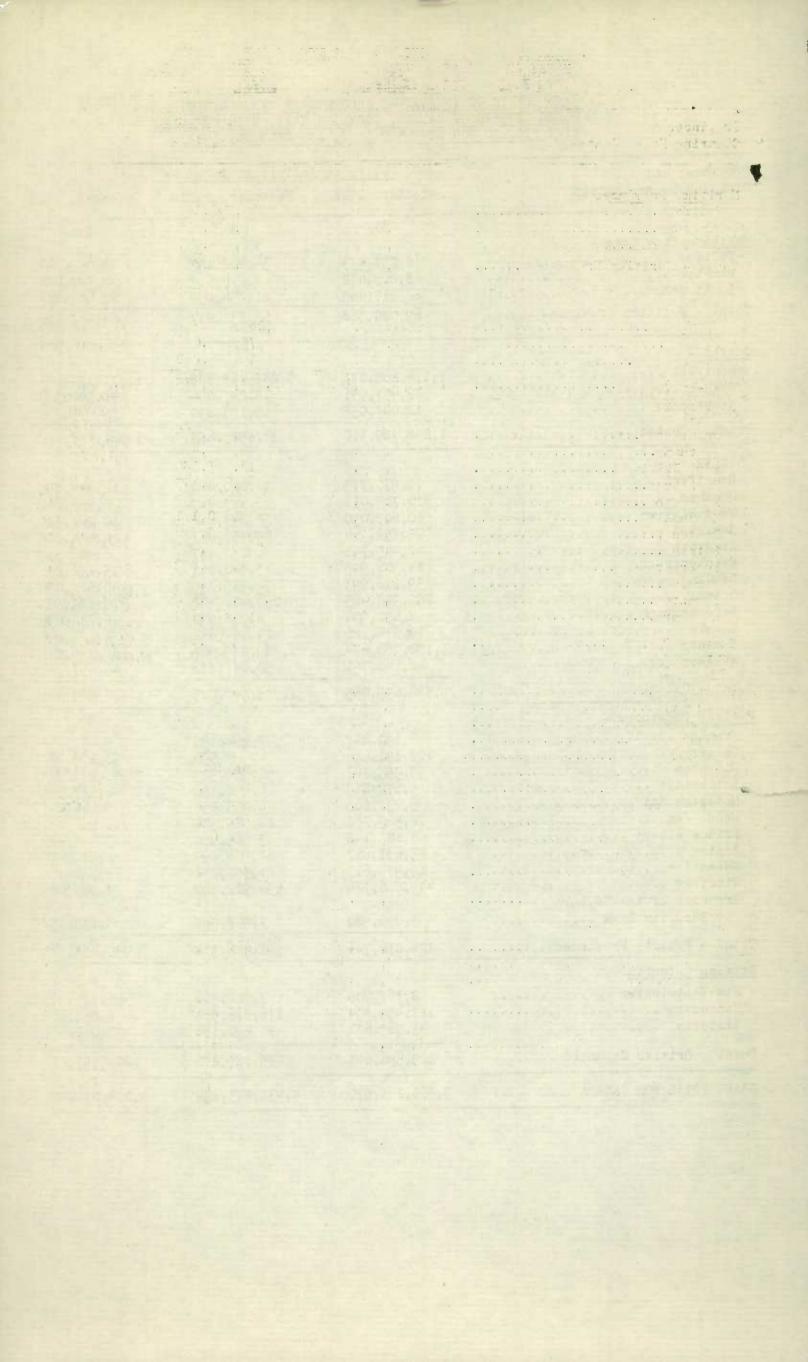

Winnipeg was the only centre in the Prairie Provinces showing a decline, the net result being that the debits in the area were nearly maintained.

The debits of Vancouver showed an increase of 15 p.c., while a decline was experienced in Victoria. The increase in the total for the province was 11 p.c.

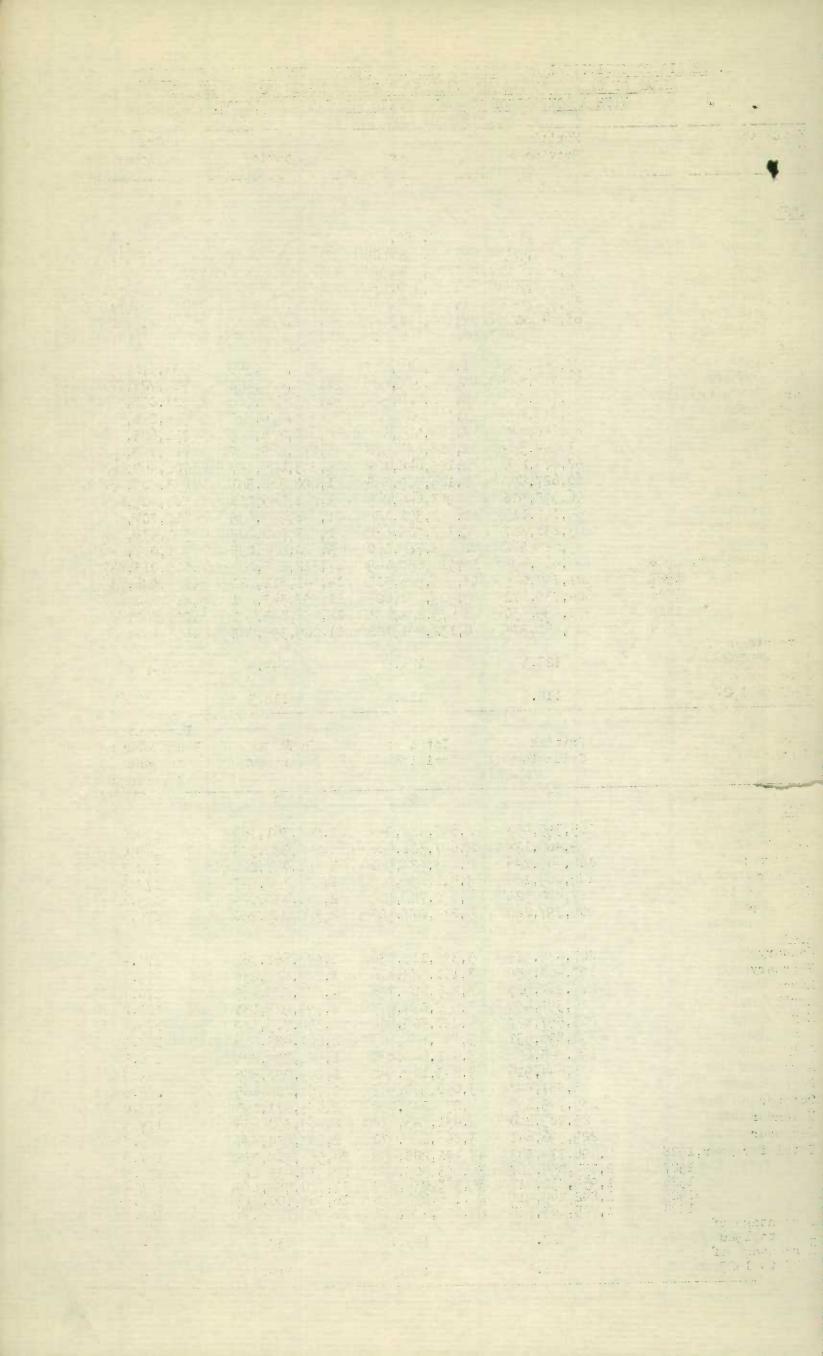

1. BANK DEBITS TO INDIVIDUAL ACCOUNTS AT THE CLEARING HOUSE CENTRES OF CANADA, DECEMBER 1928, WITH COMPARATIVE FIGURES FOR NOVEMBER 1927. AND DECEMBER 1927.
