S. A. Cuamore, M.A., F.S.S.

Assistant on Business Statistics:

Sydney B. Smith, M.A.

BANK DEBITS TO INDIVIDUAL ACCOUNTS

or

Amount of Cheques Charged against Bank Accounts at the Clearing House Centres, February, 1930

Financial transfers in the form of bank debits to individual accounts at the clearing house centres of Canada amounted to \$2,815,000,000 during February. After seasonal adjustment, the gain over January was 3.2 p.c. Owing to reduction in business operations and in speculation as compared with the high levels of the same month in 1929, the decline in debits in the long-term comparison was 17.8 p.c. The decrease in the cumulative total for the first two months of 1930 from the same period of 1929 was about 20 p.c. The total for the two months in the three centres of Quebec province was 26 p.c. less than in the same months of last year. Ontario showed a decline of 22 p.c. and British Columbia was down 16.6 p.c. The decline in the Maritime Provinces was 10 p.c., while in the Prairie Provinces the recession was only 5.5 p.c.

Comparison with February, 1929

Declines were general in the three clearing centres of the Maritime Provinces during February from the same month of last year. The net result was a decline of 11.4 p.c. in the aggregate for the reporting centres of these provinces.

Debits in the three centres of Quebec in February were \$942,000,000, a decline of 20.7 p.c. from the same month of 1929. Declines were general in the three centres, Montreal showing a decline of 21.6 p.c.

Among the 12 centres of Ontario, four only, Ottawa, Windsor, Peterborough and Sarnia, showed an increase in February. The decline in Toronto was 19 p.c., while the aggregate for the province was down 21 p.c.

Edmonton and Lethbridge were the only centres in the Prairie Provinces showing a gain in February. The recession in Winnipeg was only 1 p.c. and the net result for the three provinces was a decline of 1.4 p.c.

, Declines were general in the three reporting centres in British Columbia. The decrease in Vancouver was 21.7 p.c., while the aggregate for the three centres of the province was down 19.6 p.c.

Comparison with January, 1930, After Seasonal Adjustment

The gain in the Dominion total during February over January, 1930, after seasonal adjustment, was 3.2 p.c. The increase in Winnipeg after the usual adjustment was 12.5 p.c. Montreal showed a decline of 6 p.c., and the drop in Toronto was 14 p.c. The debits in Vancouver, after seasonal adjustment, were nearly maintained at the level of the preceding month.
