# CENERAL STATISTICS BRANCH

Dominion Statistician: Chief, General Statistics Branch: Assistant on Business Statistics: Sydney B. Smith, M.A., F.S.S. (Hon.), F.R.S.C.

### BANK DEBITS TO INDIVIDUAL ACCOUNTS, AUGUST, 1931

Bank debits in the clearing centres of Canada were, after seasonal adjustment, fully maintained in August compared with the preceding month. The total was \$2,243,600,000 compared with \$2,400,400,000 in July, the decline being less than normal for the season. A substantial decline in this comparison was shown in Ontario, while moderate changes were registered in the other economic areas. The total for Ontario was \$915,750,000, a decline of 5.6 p.c. after seasonal adjustment from the preceding month. The slight gain of 0.6 p.c. was shown in the Maritime Provinces. A gain of 3.0 p.c., after seasonal adjustment, was indicated in the province of Quebec, the total in August being \$748,500,000. In the Prairie Provinces, the gain in the same comparison was 0.5 p.c., the actual decline being less than normal for the season. Debits in British Columbia were \$146,000,000 compared with \$154,000,000 in July, the decline after seasonal adjustment being limited to 2.2 p.c.

Referring to the four largest cities of Canada, gains after seasonal adjustment were shown during August over the preceding month in Montreal and Winnipeg, while Toronto and Vancouver registered declines. Debits in Montreal at \$680,600,000 compared with \$688,200,000 in July, a gain of 2.5 p.c. after seasonal adjustment. In Toronto the total was \$650,500,000 compared with \$706,000,000, a decline of 22.8 p.c. after the usual adjustment. The absolute decline in Winnipeg was less than normal for the season, the adjusted total showing a gain of 0.1 p.c. Debits of \$116,500,000 in Vancouver represented a decline of 4.3 p.c. after seasonal adjustment.

#### Comparison with August, 1930

Debits in Canada were nearly 20 p.c. less in August than in the same month of last year, the total of \$2,243,600,000 comparing with \$2,801,600,000 in August, 1930. Ottawa alone of the thirty-two centres showed a gain in this comparison. Debits in Ottawa were \$120,500,000 compared with \$113,500,000 in August 1930, a gain of 6.4 p.c. The decline in the Maritime Provinces was 12.2 p.c., the total in August last being \$49,400,000. Declines were general in the three centres of Quebec, Montreal showing a decline of 26.6 p.c. The net result for the province was a decline of 25.0 p.c. The debits of Toronto at \$650,500,000 showed a decline of 15.6 p.c. and the aggregate for the thirteen centres of the province showed a decline of 15.6 p.c. The debits of Winnipeg at \$246,400,000 showed a decline of 13.3 p.c. and the clearing centres of the Prairie Provinces registered a drop of 19.8 p.c. Declines in the three centres of British Columbia amounted to 23.0 p.c., Vancouver showing a drop of 20.9 p.c.

#### Comparison with the First Eight Months of 1930

Owing to lower prices in security and commodity markets as well as the reduced level of business and speculative operations, financial transfers in the form of bank dobits showed a decline of 15.5 p.c. in the first eight months of the present year from the same period of 1930. The total in the elapsed period of 1931 was \$21,069,-000,000, compared with \$24,921,000,000 in the same period of 1930. Pronounced declines were registered in the western areas, while a substantial drop was shown in Quebec. The debits in the Maritime Provinces were \$427,000,000, a decline of 8.4 p.c. The decline in Quebec was 18.4 p.c., the total being \$7,201,000,000 compared with \$8,822,000,-000 in the same period of 1930. The debits in Ontario in the first eight months of 1931 were \$9,048,000,000, a decline of 9.8 p.c. The cumulative total for the Prairie Provinces was \$3,170,000,000, a decline of 21.1 p.c. A total of \$1,223,000,000 in British Columbia compared with \$1,599,000,000 in the first eight months of 1930, a decline of 23.5 p.c.

#### Comparison with Other Factors

The gain in bank debits, after seasonal adjustment, was 0.4 p.c. from the level of July. The index of industrial production, a weighted average indicating the composite trend of forestry, mining, manufacturing and construction, was 132.3 in August compared with 138.5 in the preceding month, a decline of 4.4 p.c. The decline in the index of wholesale prices was from 71.7 p.c. to 70.9, or about 1.1 p.c. The gain in industrial employment during August, after seasonal adjustment, was 2.5 p.c. The general index of common stocks was 81.3 in August compared with 83.7, a decline of 2.8 p.c. The shares traded on the Hontreal stock exchange numbered 169,400 in August compared with 245,845 in July, a decline of no less than 31.0 p.c.
