## CORPORATION PROFİTS SECOND QUARTER, 1959

The estimates of corporation profits and other financial data contained in this report are the results of a sample survey of all companies incorporated in Canada, except Government-owned companies. Canadian unincorporated branches of foreign corporations are also included in the totals while foreign subsidiaries of Canadian corporations are excluded.

## Sources and Methods

In preparing the estimates, a strafified random sample of corporations is used together with the summary corporation statistics contained in "Taxation Statistics" published by the Department of National Revenue (Taxation Division). The figures in "Taxation Statistics" are on an annual basis and are available about two years after the year to which they refer. The sample results are used to allocate the annual totals by quarters, and current figures are obtained by projection from this base. This procedure ensures that profits are defined consistently for all corporations and improves the atouracy of the estimates.

Under the original design of the sample, estimates of profits would be within 3 per cent of the "true" figures 95 per cent of the time. However, since not all companies in the original sample are participating in the survey, the actual error is about 6 per cent. This error will be reduced as the number of companies in the sample increases.

## Definitions

The definitions of items contained in the report are based mainly on accounting definitions used by corporations. The term'profits"' as used throughout this report means the total profits of all companies earning profits less the losses of all companies incurring losses.

Sales figures in "'Taxation Statistics" are used as a base for projecting the estimates obtained from the survey to provide current sales estimates. These sales figures contain investment income as well as income from operations.

Net Earnings as used in this report are the total earnings, exclusive of Canadian dividends received, after all current charges except depletion, capital cost allowance, charitable donations and income tax Thabilities. Canadian dividends received are excluded because earnings are computed before payment of dividends, and if receipt of these dividends ware included they would be counted twice, once in the hands of the paying corporation and again in the thands of the receiving corporation.

Depletion charges are not deducted since although these are properly a charge for individual firms, the exhaustion of natural resources should not be a charge against National Income. However, for the three groups for which depletion charges are significant - mining, wood products and paper prod-ucts-depletion charges are shown separately in the tables.

Capital cost allowance as out lined in the tables reflects the amount of depreciation claimed for income tax purposes, and, therefore, may not be comparable to the amounts as shown by corporations in their own books.

Income tax liabilities are estimated quarterly and are based on figures supplied by reporting companies. Adjustments are made to the quarterly estimates to cover losses in prior quarters.

Depletion charges are based on the amounts reported by the companies and are not related to the data contained in "Taxation Statistics".

## Interpretation of Quarterly Movements

Total corporation profits appear to follow a fairly regular pattern from quarter to quarter with total profits before taxes of the aggregate of all industries reaching a peak in the second and third quarters of each year and then declining through the next two quarters. Before two consecutive quarters can be compared, the same two quarters for previous years must be studied in an effort to determine how much of the change is due to seasonal movements and how much is due to an improvement or worsening in the general profits pattern of the industry.

Corporations with two or more establishments file only one profits return covering all establishments of the company. The forestry operations carried on by pulp and paper companies are therefore included with the paper products group in manufacturing; while mining operations carried on by companies principally engaged in smelting and refining are included in the non-ferrous metal industry. Other groups are affected to a lesser degree. The figures in this report are therefore not comparable with series in other Bureau reports. such as those covering wages and production, which are on an establishment basis.

A more comprehensive description of the methods, sources and definitions is contained in the initial publication of this series, "Quarterly Corporation Profits, 1950-1954", issued by the Dominion Bureau of Statistics in March, 1955.

Corporation profits before deduction of income tax liabllities were estimated at $\$ 905$ million for the second quarter of 1959 , an increase of $\$ 158$ million, or 21.2 per cent, from the revised second quarter 1958 estimate of $\$ 747$ miliion. Cumulative profits before taxes for the six months ending June 30 , 1959, amounted to an estimated $\$ 1,570$ million, an increase of $\$ 271$ million, or 20.9 per cent, from the $\$ 1.299$ million estimate for the first six months of 1958.

Income tax liabilities for the second quarter of 1959 were estimated at $\$ 402$ million, an increase of $\$ 88$ million, or 28.0 per cent, from the second quarter estimate of $\$ 314$ million. Cumulative income tax liabilities for the first six months of 1959 tose an estimated $\$ 148$ million, or 26.8 per cent, from $\$ 552$ million for the six months ending June 30 , 1958 , to $\$ 700$ million.

Corporetion profits after taxes, as estimated for the second quarter of 1959 , increased $\$ 70$ million, or 16.2 per cent, from $\$ 433$ million in the second quarter of 1958 to $\$ 503$ million. Cumulative profits after taxes for the six months ending June 30, 1959 were estimated at $\$ 870$ million, an increase of $\$ 123$ million, or 16.5 per cent, from $\$ 747$ million as estimated for the first six months of 1958.

In the Manufacturing sector total profits before taxes for the second quarter of 1959 increased $\$ 96$ million, or 26.4 per cent, to $\$ 459$ million from $\$ 363$ million in the second quarter of 1958. Foods and Beverages increased $\$ 7$ million, from $\$ 56$ million to $\$ 63$ million; Rubber Products increased $\$ 2$ million, from $\$ 6$ million to $\$ 8$ million; Textlle Products increased $\$ 7$ million, from $\$ 9$ million to $\$ 16$ million;

Wood Products increased $\$ 15$ million, from $\$ 16$ million to $\$ 31$ million: Paper Products increased $\$ 13$ million, from $\$ 57$ million to $\$ 70$ million; Printing and Publishing increased $\$ 3$ million, from $\$ 18$ million to $\$ 21$ million; Iron and Steel Products (including Transportation Equipment) increased $\$ 29$ million, from $\$ 110$ million to $\$ 139$ million; Non-Ferrous Metals increased $\$ 2$ million, from $\$ 7$ million to $\$ 9$ million; Electrical Apparatus and Supplles increased $\$ 4$ million, from $\$ 12$ million to \$16 million; Non-Metallic Minerals increased \$2 million, from $\$ 16$ million to $\$ 18$ million; petroleum and Coal Products increased $\$ 5$ million, from $\$ 12$ million to $\$ 17$ million; Chemical Products increased $\$ 5$ million, from $\$ 28$ million to $\$ 33$ million and the Other Manufacturing group increased $\$ 2$ million, from $\$ 16$ million to $\$ 18$ million.

The Non-Manufacturing Sector showed an overall increase in profits before taxes of $\$ 62$ million, or 16.1 per cent, from $\$ 384$ million in the second quarter of 1958 to $\$ 446$ million in the second quarter of 1959. Mining, Quarrying and Oll Wells increased $\$ 13$ million, from $\$ 43$ million to $\$ 56$ million; Transportation, Storage and Communication increased $\$ 25$ million, from $\$ 50$ million to $\$ 75$ million; Public Utility Operation Increased $\$ 2$ million, from $\$ 16$ million to $\$ 18$ million; Wholesale Trade increased $\$ 14$ million, from $\$ 63$ million to $\$ 77$ million and Retall Trade increased $\$ 9$ million from $\$ 64$ million to $\$ 73$ million. The Finance, Insurance and Real Estate group showed no change in the second quarter of 1959 from the $\$ 99$ million estimated for the second quarter of 1958. The Other Non-Manufacturing group decreased $\$ 2$ million, from $\$ 31$ million in the second quarter of 1958 to $\$ 29$ million in the second quarter of 1959.

## INDUSTRIAL CL ASSIFICATION

The classification used in this report is based on the Standard Industrial Classification as printed in the Dominion Bureau of Statistics publication "Standard Industrial Classification Manual". The groups, with th:e Standard Industrial Classification code, are listed below:

| Published Groupings | Major Standard Industrial Classification Groupings | S.I.C. Code No. |
| :---: | :---: | :---: |
| Mining, Quarrying and Oil Wells ............................... | Metal Mining | 100-119 |
|  | Fuels | 120-129 |
|  | Non-Metal Mining | 130-149 |
|  | Quarrying, Clay and Sand Pits ....................................... | 150-169 |
|  | Prospecting ......................................................................... | 170-199 |
| Manufacturing: |  |  |
| Foods and Beverages ............................................. | Foods and Beverages | 200-229 |
| Rubber Products |  | 236-239 |
| Textile Products | Textile Products (except Clothing) | 250-269 |
|  | Clothing (Textile and Fur) | 270-279 |
| Wood Products ......................................................... | Wood Products | 280-289 |
| Paper Products ......................................................... | Paper Products | 290-299 |
| Printing, Publishing and Allied Industries ........... | Printing, Publishing and Allied Industries ................. | 300-309 |
| Iron and Steel Products | Iron and Steel Products | 310-329 |
|  | Transportation Equipment | 330-339 |
| Non-Ferrous Metal Products .................................... | Non-Ferrous Metal Products | 340-349 |
