## CREDIT STATISTICS

February 1965
The data in this report represent the estimated amount outstanding on the books of selected holders of credit, and are not intended to cover total credit. Information is not available on certain avenues of service credit such as the amount owing to doctors, dentists and certain service establishments as hotels, the outstanding balances owing to utility companies, transportation companies, loans between individuals, etc. Certain series are available monthly, others quarterly or annually.

Special tabulations are made quarterly on the wholesale financing of sales finance companies (financing the transactions between retail dealer and supplier) and on the average repayment term of retail paper purchased. Information is also available quarterly on the balances outstanding on the books of retail dealers by trade classifications; these data will be included in this bulletin as soon as they become available.
