INDEX NUMBERS OF WHOLESALE PRICES, MAY, 1934.

The Dominion Bureau of Statistics index number of wholesale prices on the base 1926=100, at 71.1 in May, was the same as in the previous month. 77 quotations were higher, 110 were lower, while 380 remained unchanged.

Vegetable Products advanced from 64.4 to 65.2, gains for barley, corn, wheat, oats, flax and coffee influencing the index more than losses for bran, shorts, sugar and potatoes. Animals and Their Products dropped from 67.0 to 65.5, declines for hides, leather, stooks, calves, fresh meats, milk and butter outweighing advances for hogs, lambs, cured meats and eggs. Fibres, Textiles and Textile Products declined from 73.8 to 73.7 reduced prices for raw silk, silk hosiery, raw wool and worsted cloth yarns more than counterbalancing higher quotations for cotton duck and artificial silk hosiery. Wood, Wood Products and Paper rose from 65.6 to 65.8 owing chiefly to higher prices for maple and birch lumber. Iron and Its Products moved up from 87.2 to 87.4 due principally to gains for steel sheets. Non-Ferrous Metals, and Their Products fell from 65.7 to 64.5 influenced largely by easier prices for copper, lead, tin and zinc. Non-Metallic Minerals and Their Products declined from 85.6 to 85.5 because of reductions in the price of gasoline. Chemicals and Allied Products were 81.9 in May as against 81.8 in the previous month, declines for copper sulphate and fertilizers being more than offset by advances for refined glycerine and tartaric acid.

Consumers' Goods dropped from 74.3 to 73.3. Foods, beverages and tobacco fell from 69.9 to 68.0, declines for dried fruits, fresh meats, and milk and its products being of more consequence than gains for coffee, and cured meats. Other consumers' goods moved down from 77.3 to 76.9 owing chiefly to price reductions for silk hosiery, woollen yarns and gasoline.

Producers' Goods advanced from 66.6 to 67.2. Building and construction materials rose from 83.1 to 83.3 and manufacturers' materials from 61.0 to 61.6. Declines occurred in textiles and clothing and in the leather group, but materials for metal working, milling and rubber making industries advanced. Producers' equipment was also higher at 89.2 in May as against 88.0 in the previous month due chiefly to gains for supplies for light, heating and power equipment.

Raw and Partly Manufactured Goods moved up from 61.3 to 62.2. Vegetable, forest and mineral products advanced while animal and marine products declined.

Fully and Chiefly Manufactured Goods fell from 73.8 to 72.7, due chiefly to losses for animal and mineral products.

Canadian Farm Products rose from 55.4 to 56.9. The vegetable group at 51.1 was 2.4 points higher than in April while the animal group was .1 point lower at 66.5. In the former case grains were largely responsible for the advance, while losses for hides, wool and fresh milk were chiefly instrumental in reducing the latter index.

SUMMARY OF COMMODITY PRICE MOVEMENTS: WHEAT AND OTHER GRAINS: Serious drought conditions in western Canada and in wheat producing areas of the United States supported a sharp rise in wheat prices during May. From May 1 to 10, a preliminary advance occurred which gathered momentum as the gravity of the North American situation became apparent. Dry weather in Europe also gave rise to uneasiness. A short reaction beginning on May 11 coincided with the announcement that international experts had failed to arrive at a satisfactory minimum export price. Until May 23, prices moved uncertainly, tending towards higher levels but actually recording slight net gains. Little rain fell in parched wheat areas during this interval but Liverpool appeared to be impressed by liberal offerings from the southern hemisphere. On May 23 a precipitate rise commenced that culminated on May 31, when No.1 Manitoba Northern cash wheat Ft. William and Pt. Arthur basis closed at 81 5/8¢ per bushel. No rain of any account was received during this period and damage to crops was considered serious. The net gain registered by No.1 Manitoba Northern cash prices in May was 16 1/2¢ per bushel.

Descriptions (Basis, Ft. William and Pt. Arthur
cash, per bushel)

	1933 May Average	1934 April Average	1934 May Average
No.1 Manitoba Northern Wheat	63.3	65.5	70.6
No.2 C.W. Oats	28.3	32.4	34.6
No.1 C.W. Flax	109.9	149.7	157.3
No.2 C.W. Rye	44.9	44.1	46.4
No.3 C.W. Barley	36.1	36.9	38.1

MILLED PRODUCTS: After a quiet opening in the first week, domestic flour business received an impetus from a rise in prices which followed the upward swing of the wheat market in May. A moderate amount of export business was reported at the outset but this apparently declined as the month progressed.

	1933 May 15	1934 April 15	1934 May 15
Flour, No.1 patent Manitoba, Montreal per bbl.	\$ 5.40	\$ 5.20	\$ 5.20
Rolled Oats, Toronto, per 90 lb. bag	2.70	2.50	2.70
Oat Meal, Toronto, per 98 lb. bag	2.97	2.75	2.97

SUGAR: Spot quotations for raw sugar were firm in the early part of May in anticipation of legislative action by the United States government with respect to sugar. The sugar bill was signed on May 9, and the tariff on Cuban raws became 1.50¢ per pound instead of 2.00¢ as formerly. No action regarding quota allocations and a processing tax provided by the bill was taken before the close of the month. In the latter part of May prices gradually worked lower, the market apparently having previously discounted seasonal improvement in consumption. Duty-free sugars from the Philippines in excess of their anticipated quota, exerted a depressing influence upon prices.

	1933 May 15	1934 April 15	1934 May 15
Descriptions	\$	\$	\$
Granulated sugar, standard, Montreal, per cwt.	6.37	6.18	6.18
Granulated sugar, standard, Vancouver, per cwt.	6.21	6.10	6.00

COFFEE: The market for coffee at New York was dull in the first part of May, but became more active as the month progressed. Prices, correspondingly, were firmer in the latter part of the month. The last of Federal Farm Board coffee holdings were liquidated early in May, and it is thought that an average price of about 10¢ per pound was realized for all sales. The National Coffee Department of Brazil recently estimated world consumption for the first ten months of the current crop year at 20,931,000 bags, which would be over 2,000,000 bags higher than consumption for the same period of the preceding year. Destruction of coffee in Brazil at 407,042 bags for April was almost as much as the combined total of the three months preceding, and it brought stocks destroyed up to 26,810,114 bags. It was announced that the coming crop lately estimated at about 15,500,000 bags, would be under strict control, and that a sacrifice quota was under consideration.

	1933 May 15	1934 April 15	1934 May 15

Green Jamaica Coffee, " " "	17.0	14.5	15.5
Green Bogota Coffee, " " "	22.0	18.8	21.0

RUBBER: The sharp advance in raw rubber prices which followed the announcement that nine leading producers had signed a curtailment agreement came to an abrupt halt when it became known that quotas for the latter half of 1934 were unexpectedly liberal. Percentages of basic quotas to be allowed were given as follows: June and July 100, August and September 90, October and November 80, and December 70. Since 1934 basic quotas were closely in line with actual shipments, these figures were considered high by the trade. A decrease in United States April consumption was also bearish, as consumption figures usually rise steadily in the first half of the year. Month-end stocks in the United States, however, were 1.1 p.c. lower at the close of April than they had been a year earlier.

	1933 May Average	1934 April Average	1934 May Average
Descriptions (Basis, New York, per lb.)	¢	¢	¢
First latex crepe sheets	6.3	14.0	15.2
Ceylon plantation, ribbed smoked sheets	5.7	12.0	13.9

LIVESTOCK: Prices for cattle moved lower at all centres. Runs were reported reasonably moderate, but less demand for beef as a consequence of warmer weather conditions caused prices to recede. Quotations for calves were also easier while hogs

and lambs advanced. In the case of the former the British market still continued to be the chief factor influencing prices. No figures showing Canadian May exports of bacon and hams are yet available but it was estimated that shipments then will exceed those for any other month of the current year.

<u>Descriptions</u>		1933 May Average	1934 April Average	1934 May Average

Winnipeg	7.93	7.10	8.21	

EGGS: Considerable strength was displayed by Canadian egg markets in May. Good demand and higher prices at Montreal and Toronto, opened the way for advances at other points, while lighter receipts added strength to the situation. The movement into storage continued and holdings were reported by the Agricultural Branch of the Dominion Bureau of Statistics at 3,105,377 dozen on May 1. This was approximately 23 p.c. less than on the same date last year, but 2,966,399 dozen greater than on the first of the previous month.

Vancouver	18.0	18.0	18.6	

x Fresh extras

BUTTER: Although production of butter had not increased to any great extent, prices moved downward during the early part of May. At Montreal, quotations reached the lowest level for the current year, and shipments from the west helped to depress the market at Toronto. As receipts of fresh supplies became lighter and continued to be well cleared away, prices advanced to somewhat higher levels. Stocks of creamery butter held in cold storage were shown by the Agricultural Branch of the Dominion Bureau of Statistics at 2,515,091 pounds on May 1 which was about 28 p.c. higher than a year ago but 35 p.c. less than on April 1.

	¢	¢	¢	
Fine creamery prints per pound at Winnipeg	22.0	29.0	21.0	

COTTON: Cotton prices moved lower in the United States with the weakness ascribed largely to the influence of dullness in the textile trade and to weather conditions generally favourable to the new crop. While no definite news regarding the acreage planted was available, it was estimated at between 28,000,000 and 29,000,000 acres.

Statistics showed that visible supplies of American cotton fell from 6,666,000 bales on May 4 to 6,174,000 bales on June 1. Forwardings to mills of the world for the four week period ended June 1 were 846,000 bales as compared with 1,049,000 bales during the preceding four weeks.

Raw cotton 1" per pound at Hamilton	\$ 11.6	\$ 13.6	\$ 13.1

SILK: The decline in silk prices was attributed to reports of continued liquidation and to the situation of the textile trade in the United States which led to the closing of silk mills for the week ended May 21. Deliveries to mills there fell from 44,080 bales in March to 37,392 bales in April. Japanese port stocks at 131,469 bales at the end of April were 1,831 bales less than at the close of March.

<u>Descriptions</u>	1934	1934

20-22 " 85 p.c. grand XX	1.36	1.34

WOOL: Restricted demand in both domestic and foreign markets caused a downward revision of wool prices. Canadian woollen and worsted mills reported a lessening of orders and exports dropped from 36,913 pounds in March to 31,055 pounds in April.

<u>Descriptions</u>	1933	1934	1934
	<u>May 15</u>	<u>April 15</u>	<u>May 15</u>
Raw wool per pound in quantities of 20,000 pounds or more f.o.b. Weston.	\$	\$	\$

Western range, semi-bright fine, medium or $\frac{1}{2}$ blood staple	13.0	24.5	22.0

LUMBER AND TIMBER: In the east, conditions pertaining to lumber markets remained about the same as in the previous month with both domestic and foreign demand dull.

At western points trading was light. The expected gain in rail shipments after the opening months of the year, failed to materialize and a lull in orders from the United Kingdom became apparent. This was due partly to heavy buying earlier and partly to recent price advances. Exports of lumber from British Columbia to the United Kingdom for the first three months of 1934 at 124,177,090 feet b.m. were almost 5 times greater than for the same period in 1933. Unlike 1933, exports have been gradually declining in the current year, falling from 42,136,094 ft. b.m. in January to 40,233,913 ft. in March.

<u>Descriptions</u>	1933	1934	1933

IRON AND STEEL: Quotations for steel sheets moved upward in May. As in the previous months the automotive and mining industries were the chief purchasers of steel products. Mills were reported as operating on a 40-60 p.c. and foundries about 38 p.c. capacity basis.

WHOLESALE PRICES, YEARS 1933 AND 1934 (1926=100)

INDEX NUMBERS OF RETAIL PRICES, RENTS, AND COSTS OF SERVICES IN CANADA, MAY 1934
 (Calculations based on prices for the first of each month)

The general index of retail prices, rents, and costs of services moved down from 79.6 in April to 78.7 in May. Three groups were lower, one was higher, and one was unchanged.

An index for retail prices alone fell from 74.6 to 73.4. When foods were removed from this index it remained unchanged at 77.9.

For 46 food items the index declined from 71.0 to 68.6, due mainly to seasonal decreased in the prices of butter and eggs. Creamery butter dropped from 32.9¢ to 27.8¢ per pound while dairy butter averaged 24.5¢ in May as compared with 29.3¢ for April. Fresh eggs moved down from 27.1¢ to 22.3¢ and grades B and C from 22.8¢ to 18.5¢ per dozen. Beef prices continued to advance, but increases were fractional. Mutton rose half a cent to 22.1¢ per pound. Veal, fresh and salt pork, bacon and cooked ham registered declines, varying from one cent for fresh pork to one-third of a cent each for bacon and cooked ham.

The rentals index fell from 80.4 to 79.7, continuing a decline first apparent in October, 1930. Workmen's dwellings declined only one-half of one per cent., while medium grade dwellings were down 1.4 per cent.

The fuel and lighting index changed from 87.7 to 87.8. The advance was due to slightly higher prices for wood, sub-indexes for coal and coke being unchanged.

The index for miscellaneous items receded from 93.9 to 93.7, owing to a decline in the motor operating costs sub-index.

INDEX NUMBERS OF RETAIL PRICES, RENTS, AND COSTS OF SERVICES, 1913-MAY, 1934.

WORLD PRICE MOVEMENTS, APRIL, 1934.
WHOLESALE PRICES

Further general declines in wholesale price index numbers occurred in April. Vegetable products, animal products and textiles were commonly lower than in the month preceding.

The increase of almost 1 p.c. in indexes for Norway and Sweden were of interest in view of the prevalence of lower prices in other countries. The Swedish index has moved steadily upward for the better part of a year and its gains in recent months offer a marked contrast to the declines apparent in other parts of Europe.

In relatively few cases are wholesale indexes now below those of a year ago. Price levels in most countries appear to have risen from 2 p.c. to 9 p.c. during the past twelve months.

Comparative Wholesale Prices Data for April, 1934.
March, 1934 and April, 1933.

Country	Apr. 1934	Mar. 1934	Apr. 1933	Apr. 1934 or p.c. compared with -		Source and Base

x Since February, 1934, compiled according to the new gold parity (devaluation 16.66 p.c.)

WORLD PRICE MOVEMENTS, APRIL, 1934.
COST OF LIVING

Cost of living indexes were predominantly lower in April, although a great many showed no change from March. Seasonal declines in fuel indexes were common, and foods and clothing in many instances were lower.

Another two point decrease for foods was responsible for the fall in the United Kingdom series issued by the Ministry of Labour.

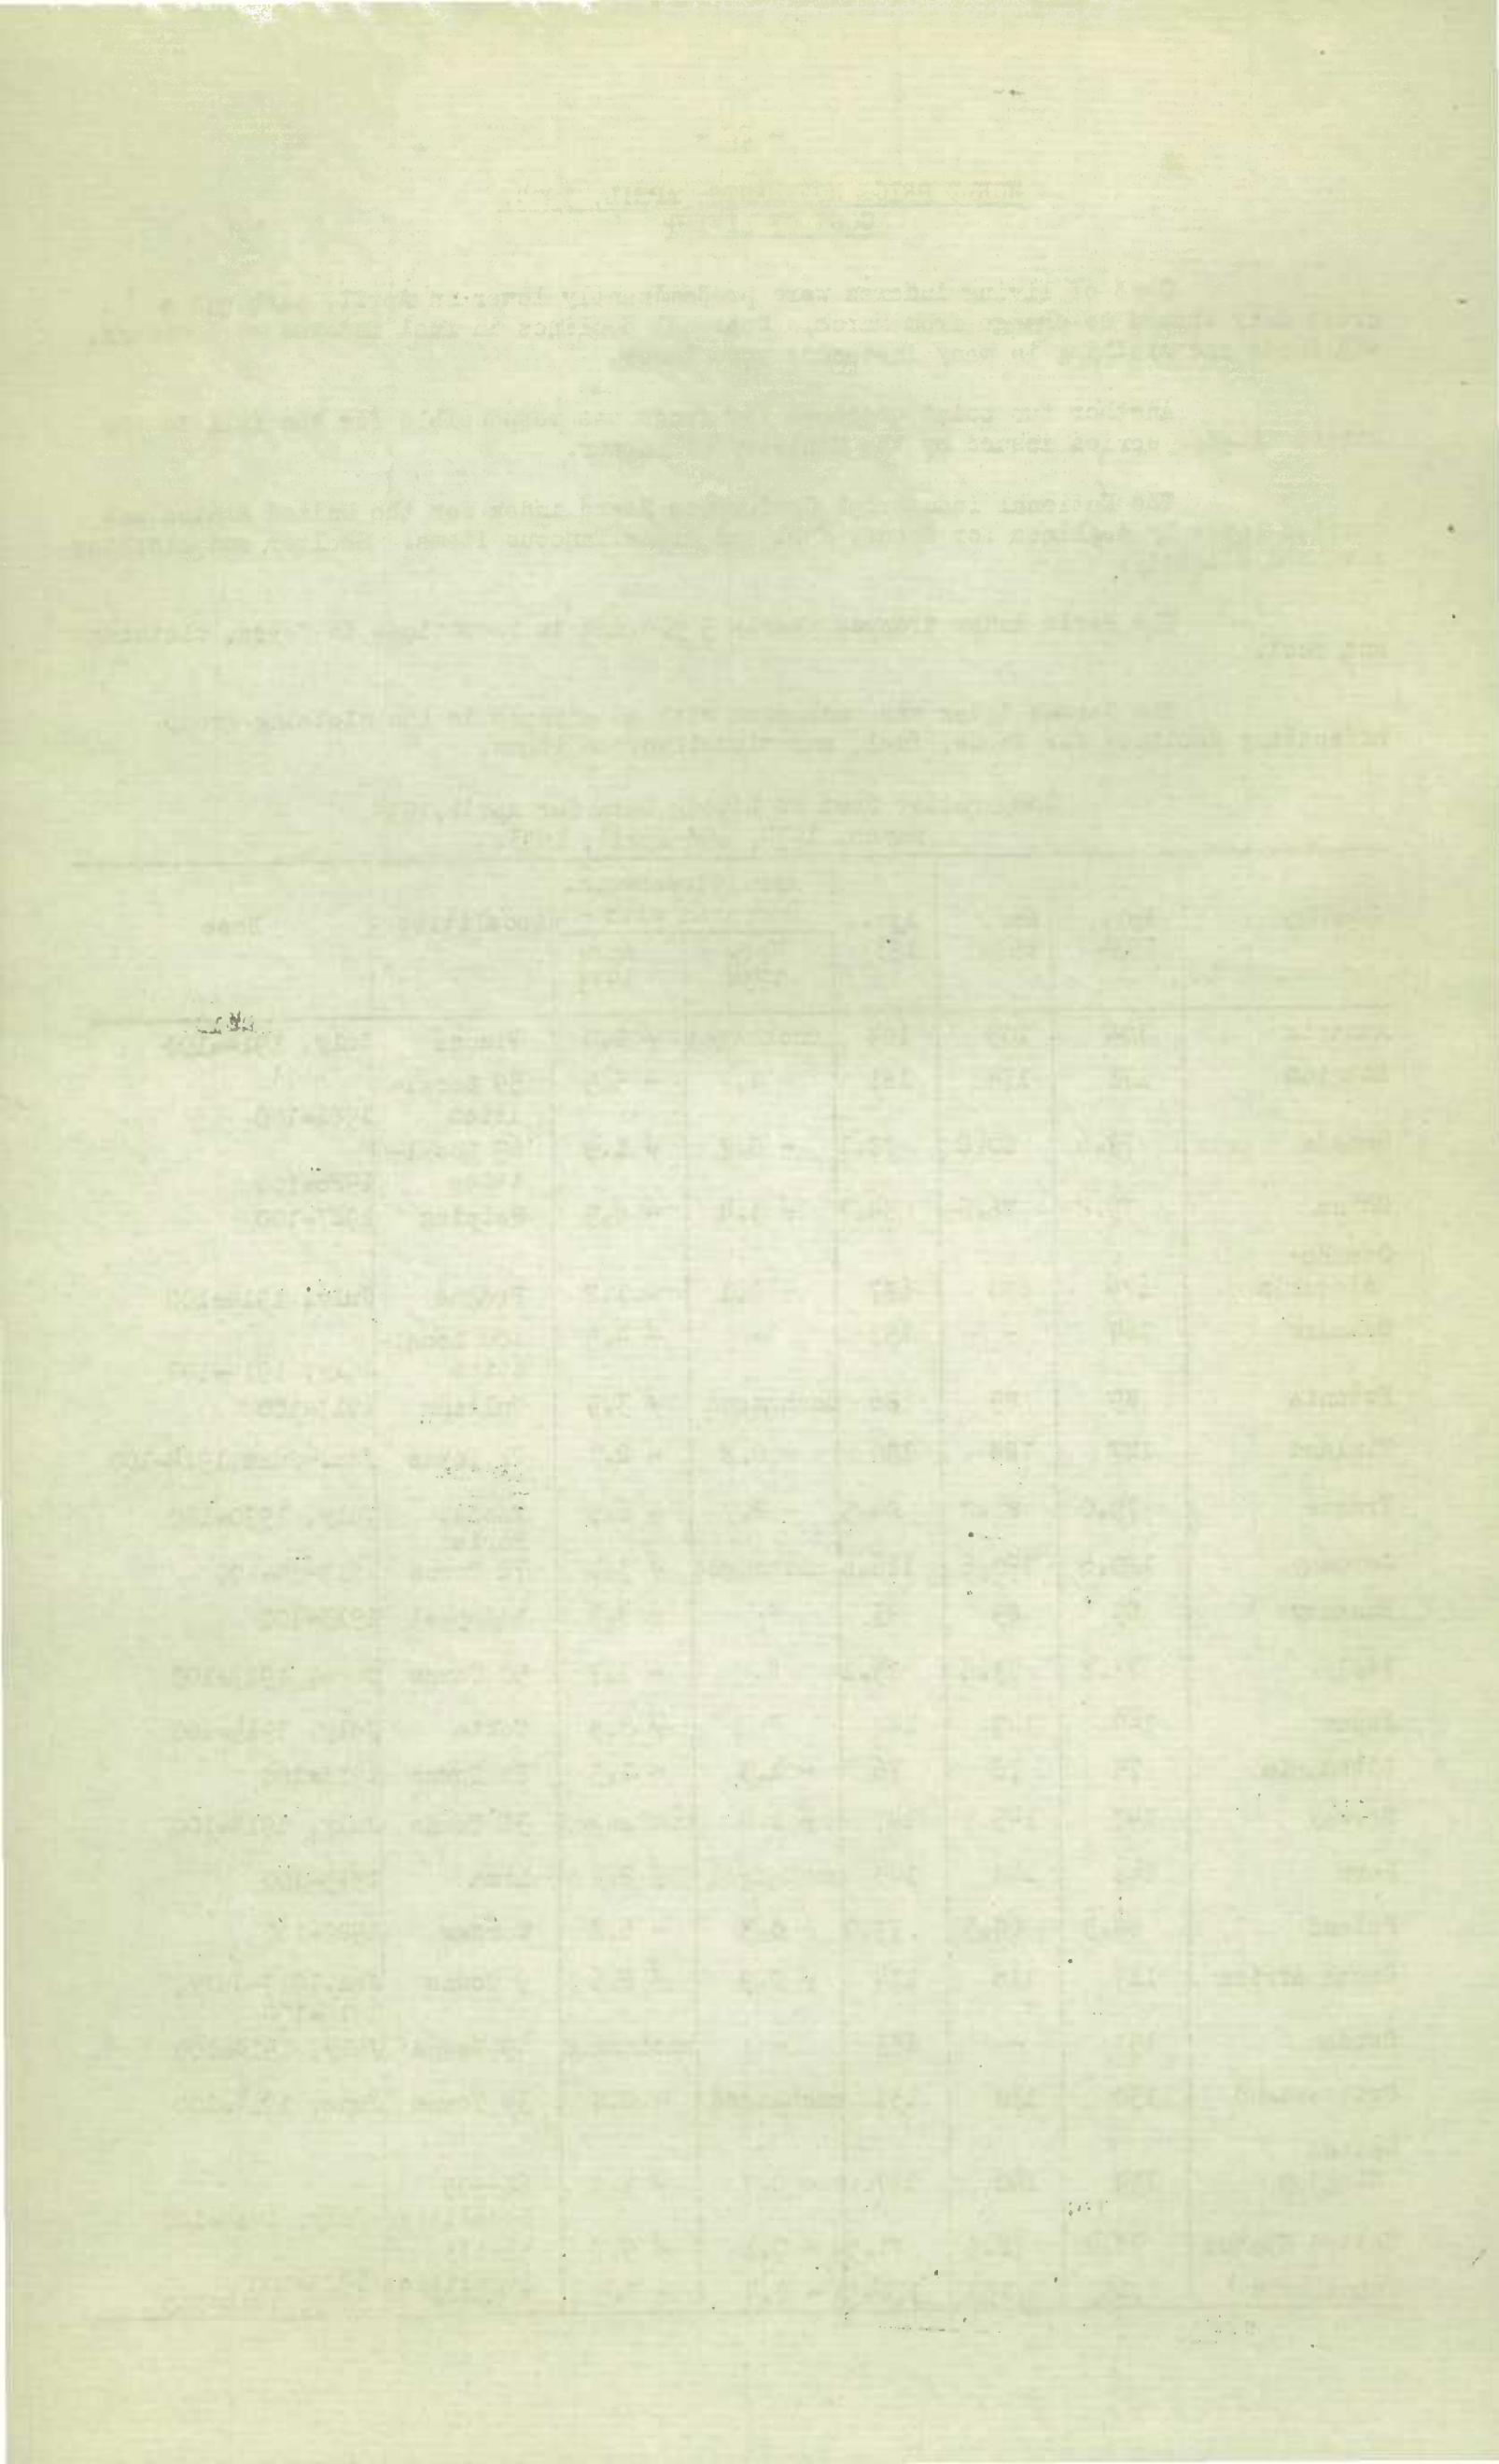

The National Industrial Conference Board index for the United States was carried lower by declines for foods, fuel and miscellaneous items. Shelter and clothing advanced slightly.

The Paris index dropped nearly 3 p.c. due to reductions in foods, clothing and fuel.

The German index was unchanged with an advance in the clothing group offsetting declines for foods, fuel, and miscellaneous items.
