SUMMARY OF PRICE MOVEMENTS. JANUARY, 1935.

COMMODITY PRICES

The general wholesale commodity price level advanced moderately during January. The Dominion Bureau of Statistics index number of wholesale commodity prices was 71.5 for January as compared with 71.2 for December 1934, and 70.6 for January 1934. A definite upward tendency was apparent as the month commenced, but many basic commodity markets reacted sharply about the 15th, when confidence was shaken by the possibility that holders of United States gold bonds might be able to demand payment in the equivalent of old gold dollars. The decline was soon followed by substantial recovery, and subsequently market fluctuations were narrow. This outline affords a rough description of market movements of grains, cotton, silk, cattle, hogs and hides. Butter rose steadily, week by week, but eggs declined sharply. Copper prices weakened slightly but other non-ferrous metals showed little change. An anticipated advance in newsprint quotations failed to materialize.

COST OF LIVING

A moderate decline in food prices was sufficient to lower the Canadian index of living costs from 79.0 in December 1934 to 78.9 in January 1935. Fuels and sundry items were slightly higher. The cost of living index has remained extremely stable during the past year, fluctuating narrowly between limits of 79.9 (March) and 78.2 (June).

SECURITY PRICES

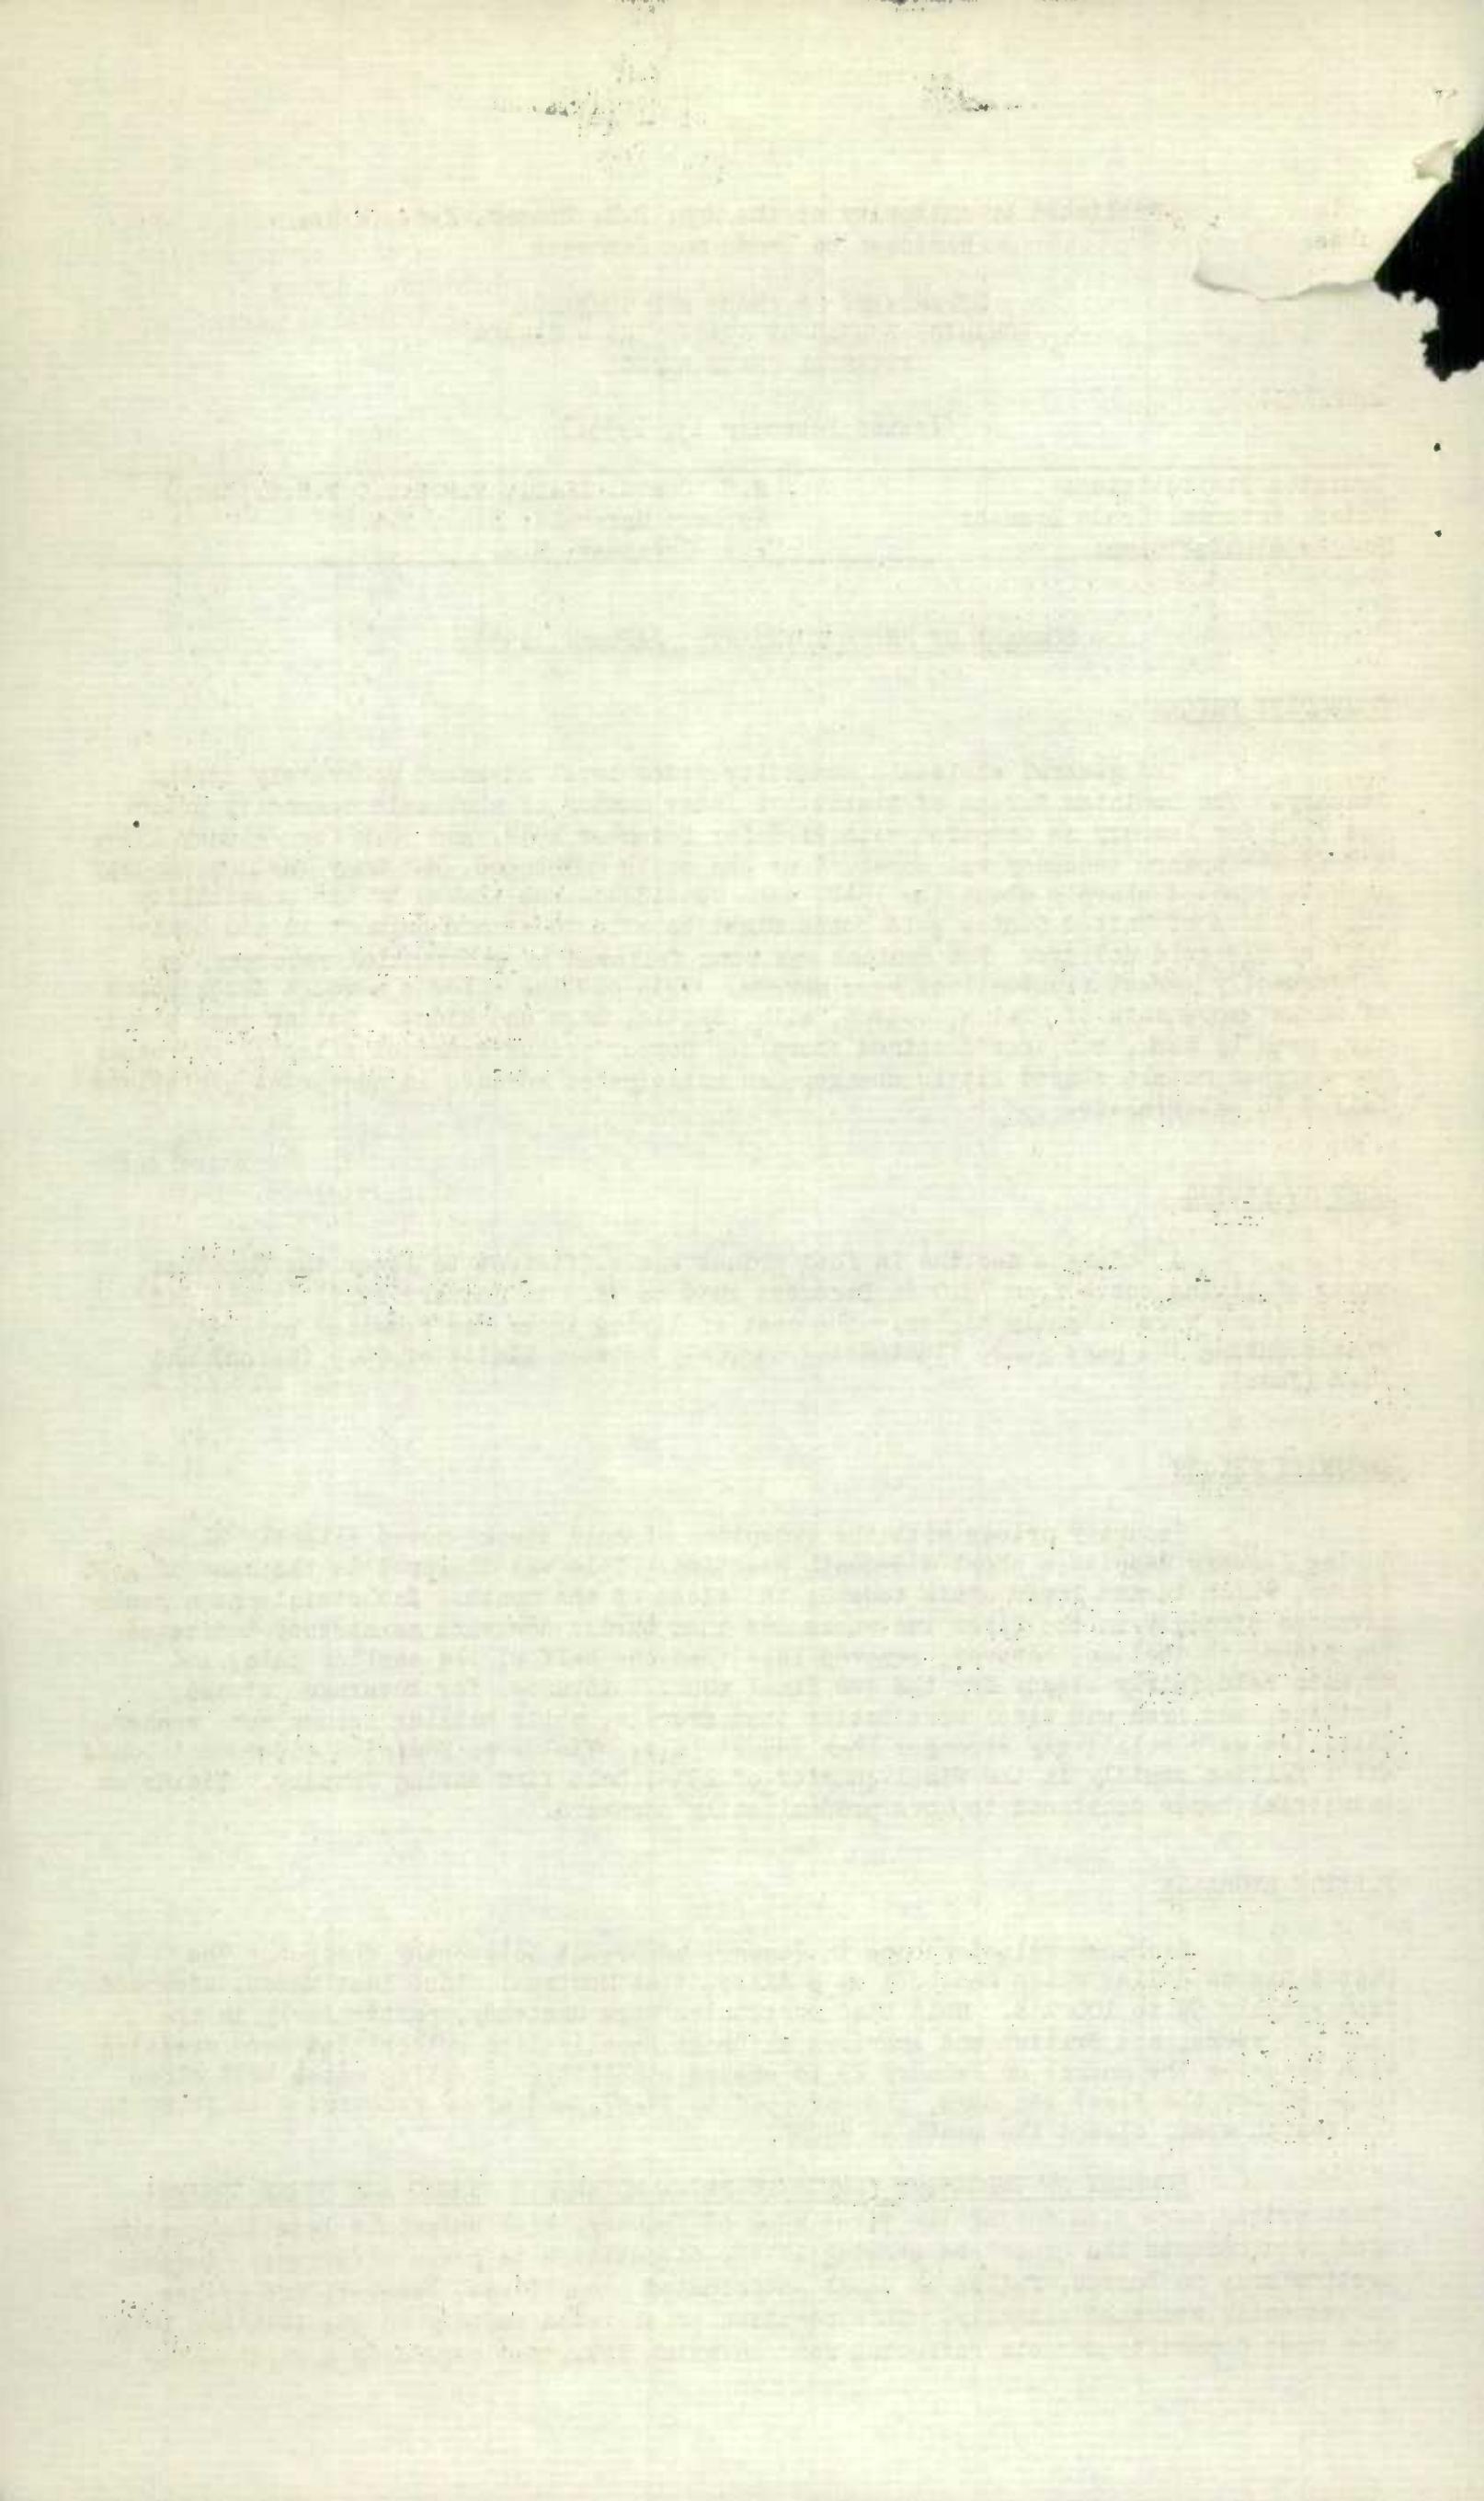

Security prices with the exception of gold stocks moved slightly higher during January despite a short mid-month reaction. This was sharpest in the case of gold stocks, which turned lower again towards the close of the month. Industrials as a group advanced strongly in the first two weeks and then turned downward as already indicated. The mid-month decline, however, removed less than one half of the earlier gain, and markets held fairly steady for the two final weeks. Advances for beverage stocks, textiles, and iron and steel were better than average, while milling issues were weaker. Utilities were relatively stronger than industrials. Yields on Dominion government bonds after falling rapidly in the final quarter of 1934, held firm during January. Yields on industrial bonds continued to move predominantly downward.

FOREIGN EXCHANGE

Exchange relationships in January underwent noteworthy changes. The United States dollar which had been at a discount at Montreal since last March, advanced from roughly 99 to 100 1/8. Gold bloc currencies were unsteady, particularly in the last two weeks, and British and American Exchange Equalization authorities were credited with entering the market on January 29 to ensure stability. Sterling rates held close to \$4.90 for the first ten days, then dropped to \$4.87, and after recovering to \$4.89 in the fourth week, closed the month at \$4.88.

SUMMARY OF IMPORTANT COMMODITY PRICE MOVEMENTS WHEAT AND OTHER GRAINS:

Wheat prices were firm during the first week of January, with shipments less than estimated requirements and exporters showing little disposition to press offerings. Demand, particularly in Europe, failed to equal anticipated proportions, however, and prices subsequently weakened slightly. This reaction accelerated rapidly on the 14th and 15th, when most commodity markets reflected concern which developed regarding a forthcoming

decision by the United States Supreme Court relative to the government's monetary policy. Subsequent recovery was fairly complete, but the continued absence of active export interest prevented prices from moving far above prescribed minimums. Buying from the Orient was of appreciable proportions, but with the exception of a limited period towards the close of the month, demand from continental Europe failed to rally.

Descriptions (Basis, Fort William and Port Arthur, cash per bushel)

	1934 January Average	1934 December Average	1935 January Average
No. 1 Manitoba Northern Wheat .....	65.0	79.2	79.0
No. 2 C.W. Oats .....	33.5	44.2	44.2

No. 3 C.W. Barley .....	38.8	54.9	50.4
No. 1 C.W. Flax .....	148.0	140.1	143.6

MILLED PRODUCTS: The domestic market for flour remained rather listless and the price premium on Canadian flour in importing centres continued to restrict export business.

<u>Descriptions</u>	1934 January 15.	1934 December 15.	1935 January 15.
Flour, No.1 Patent Manitoba, per barrel, Montreal...	5.40	5.40	5.20

Oatmeal, Toronto, per 98 pound bag .....	3.30	3.47	3.36

SUGAR: Raw sugar prices opened strong in January and during the first week futures at New York advanced to the highest levels reached in five years. Spot quotations for Cuban raw sugar 9<sup>10</sup> on a c. and f. basis touched 1.95¢. Action on the part of the Cuban Government in reducing decree prices from 2.185¢ to 1.947¢ and soon afterwards to 1.90¢ checked the advance although trading interest continued active. In the third week Cuba removed all official price control, but little further reaction resulted. Cuban raws sold for 1.86¢ as the month closed. It was stated that 1,456,549 long tons of the 2,315,000 ton Cuban production for 1935, will go to the United States. The balance of the United States quota fixed by sugar control legislation at 1,658,055 long tons will be filled presumably from sugar already in store.

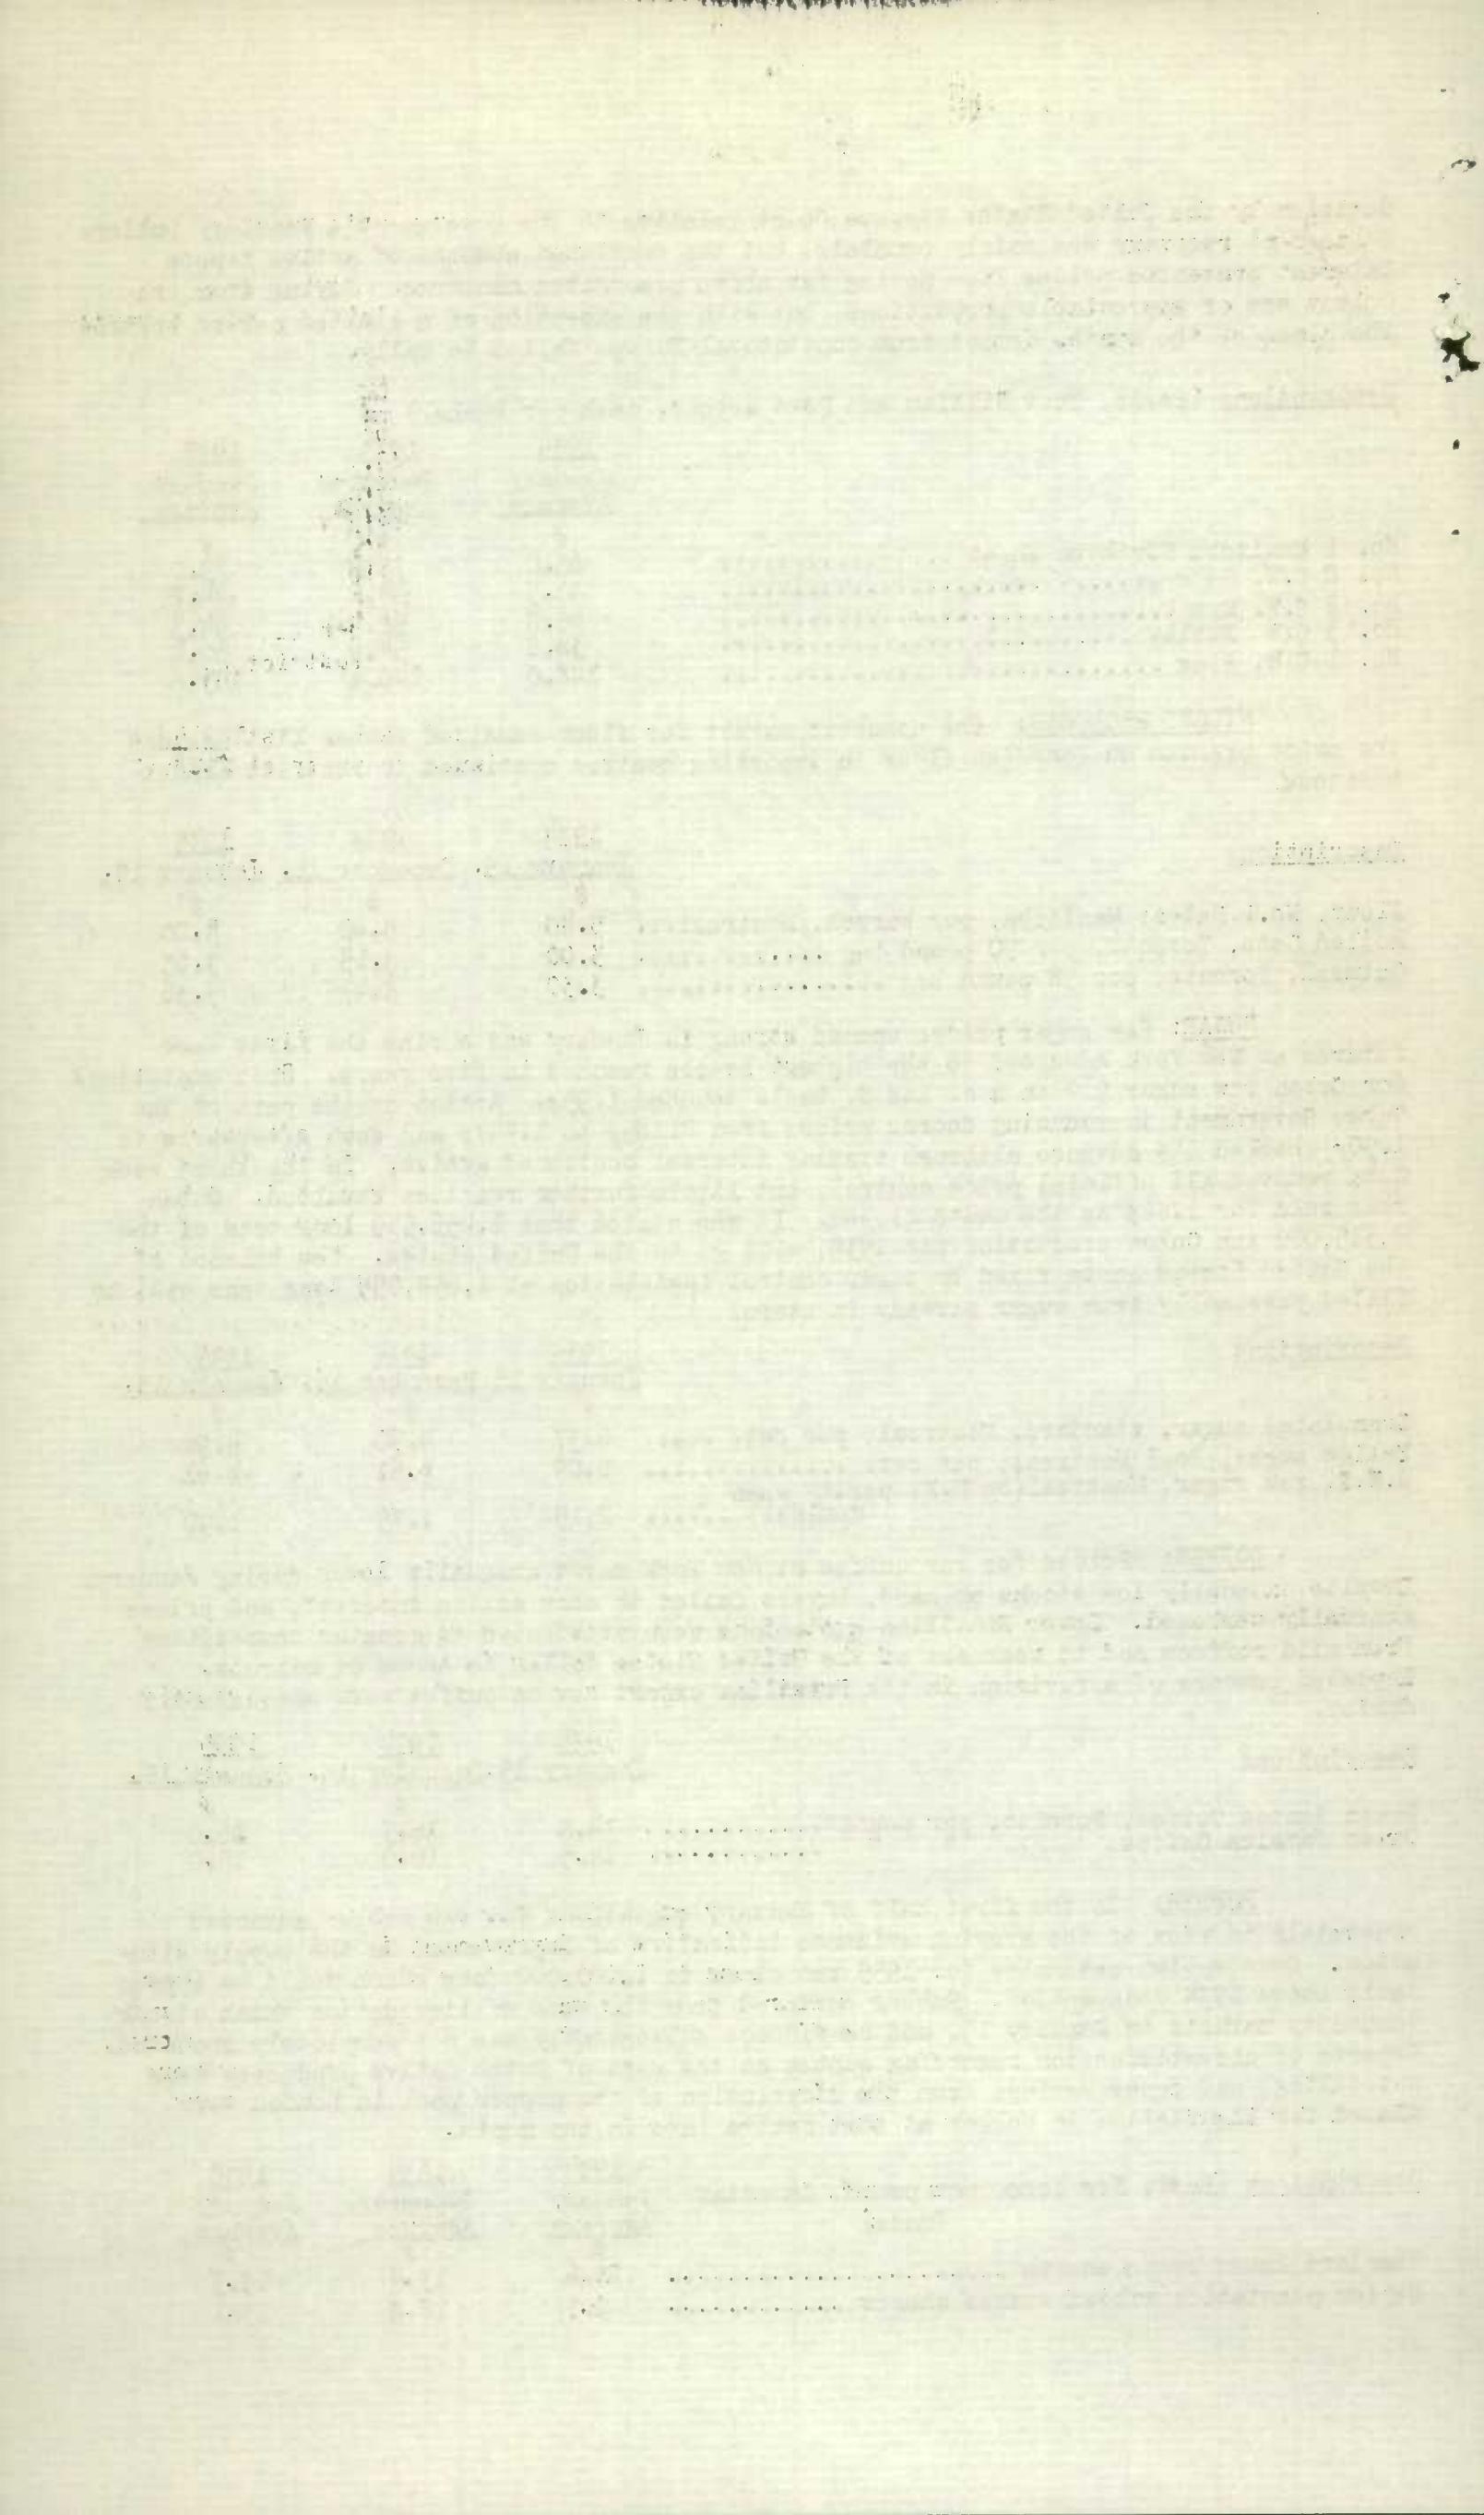

<u>Descriptions</u>	1934 January 15.	1934 December 15.	1935 January 15.
Granulated sugar, standard, Montreal, per cwt. ....	6.37	4.90	4.90

B.W.I. raw sugar, Montreal (on U.K. parity when nominal) .....	2.15	1.75	1.90

COFFEE: Prices for raw coffee at New York moved gradually lower during January. Despite unusually low stocks on hand, buyers failed to show active interest, and prices gradually weakened. Lower Brazilian quotations were attributed to greater competition from mild coffees and to weakness of the United States dollar in terms of milreis. Repeated rumours of a revision in the Brazilian export tax on coffee were consistently denied.

<u>Descriptions</u>	1934 January 15.	1934 December 15.	1935 January 15.
Green Santos Coffee, Toronto, per pound .....	14.8	16.3	16.0
Green Jamaica Coffee, " " " .....	14.5	16.0	15.0

RUBBER: In the first half of January quotations for raw rubber advanced moderately in view of the growing evidence indicative of improvement in the supply situation. Consumption estimates for 1935 ran close to 1,000,000 tons which would be appreciably above 1934 consumption. Rubber suffered from the wave of liquidation which struck commodity markets on January 15, and confidence subsequently was not completely restored. Reports of dissatisfaction regarding quotas on the part of Dutch native producers were unsettling, and repercussions from the dissolution of the pepper pool in London were blamed for liquidation in rubber at that centre late in the month.

<u>Descriptions</u> (Basis New York, per pound, Canadian funds)	1934 January Average	1934 December Average	1935 January Average
Standard latex crepe sheets .....	10.6	13.4	13.3
Ceylon plantation ribbed smoked sheets .....	9.3	12.8	13.1

LIVESTOCK: Increased offerings of poorly finished cattle in the early part of January were not readily absorbed and prices weakened. As the month advanced, markets strengthened under the stimulation of better export demand. Buying from the United Kingdom continued while shipments to the United States, particularly from western points, took care of the bulk of supplies, in excess of domestic needs. Hog markets reacted mainly to the size of runs and prices moved up latterly as receipts diminished. Lambs and calves also averaged higher with noticeable divergence recorded between calf prices in various centres.

<u>Descriptions</u>		1934 January Average	1934 December Average	1935 January Average

Lambs, good handyweight, per cwt. at	Toronto .....	7.21	7.26	7.55
	Winnipeg .....	5.78	5.93	6.01

BUTTER: Butter markets were firm during January. Although the "make" showed a slight increase, supplies at some centres were still insufficient to meet demand. Creamery butter in cold storage on January 1 was reported at 31,699,532 pounds by the Agricultural Branch of the Dominion Bureau of Statistics. This was about 48 p.c. in excess of holdings on January 1, 1934, but about 24 p.c. less than on the first of the previous month.

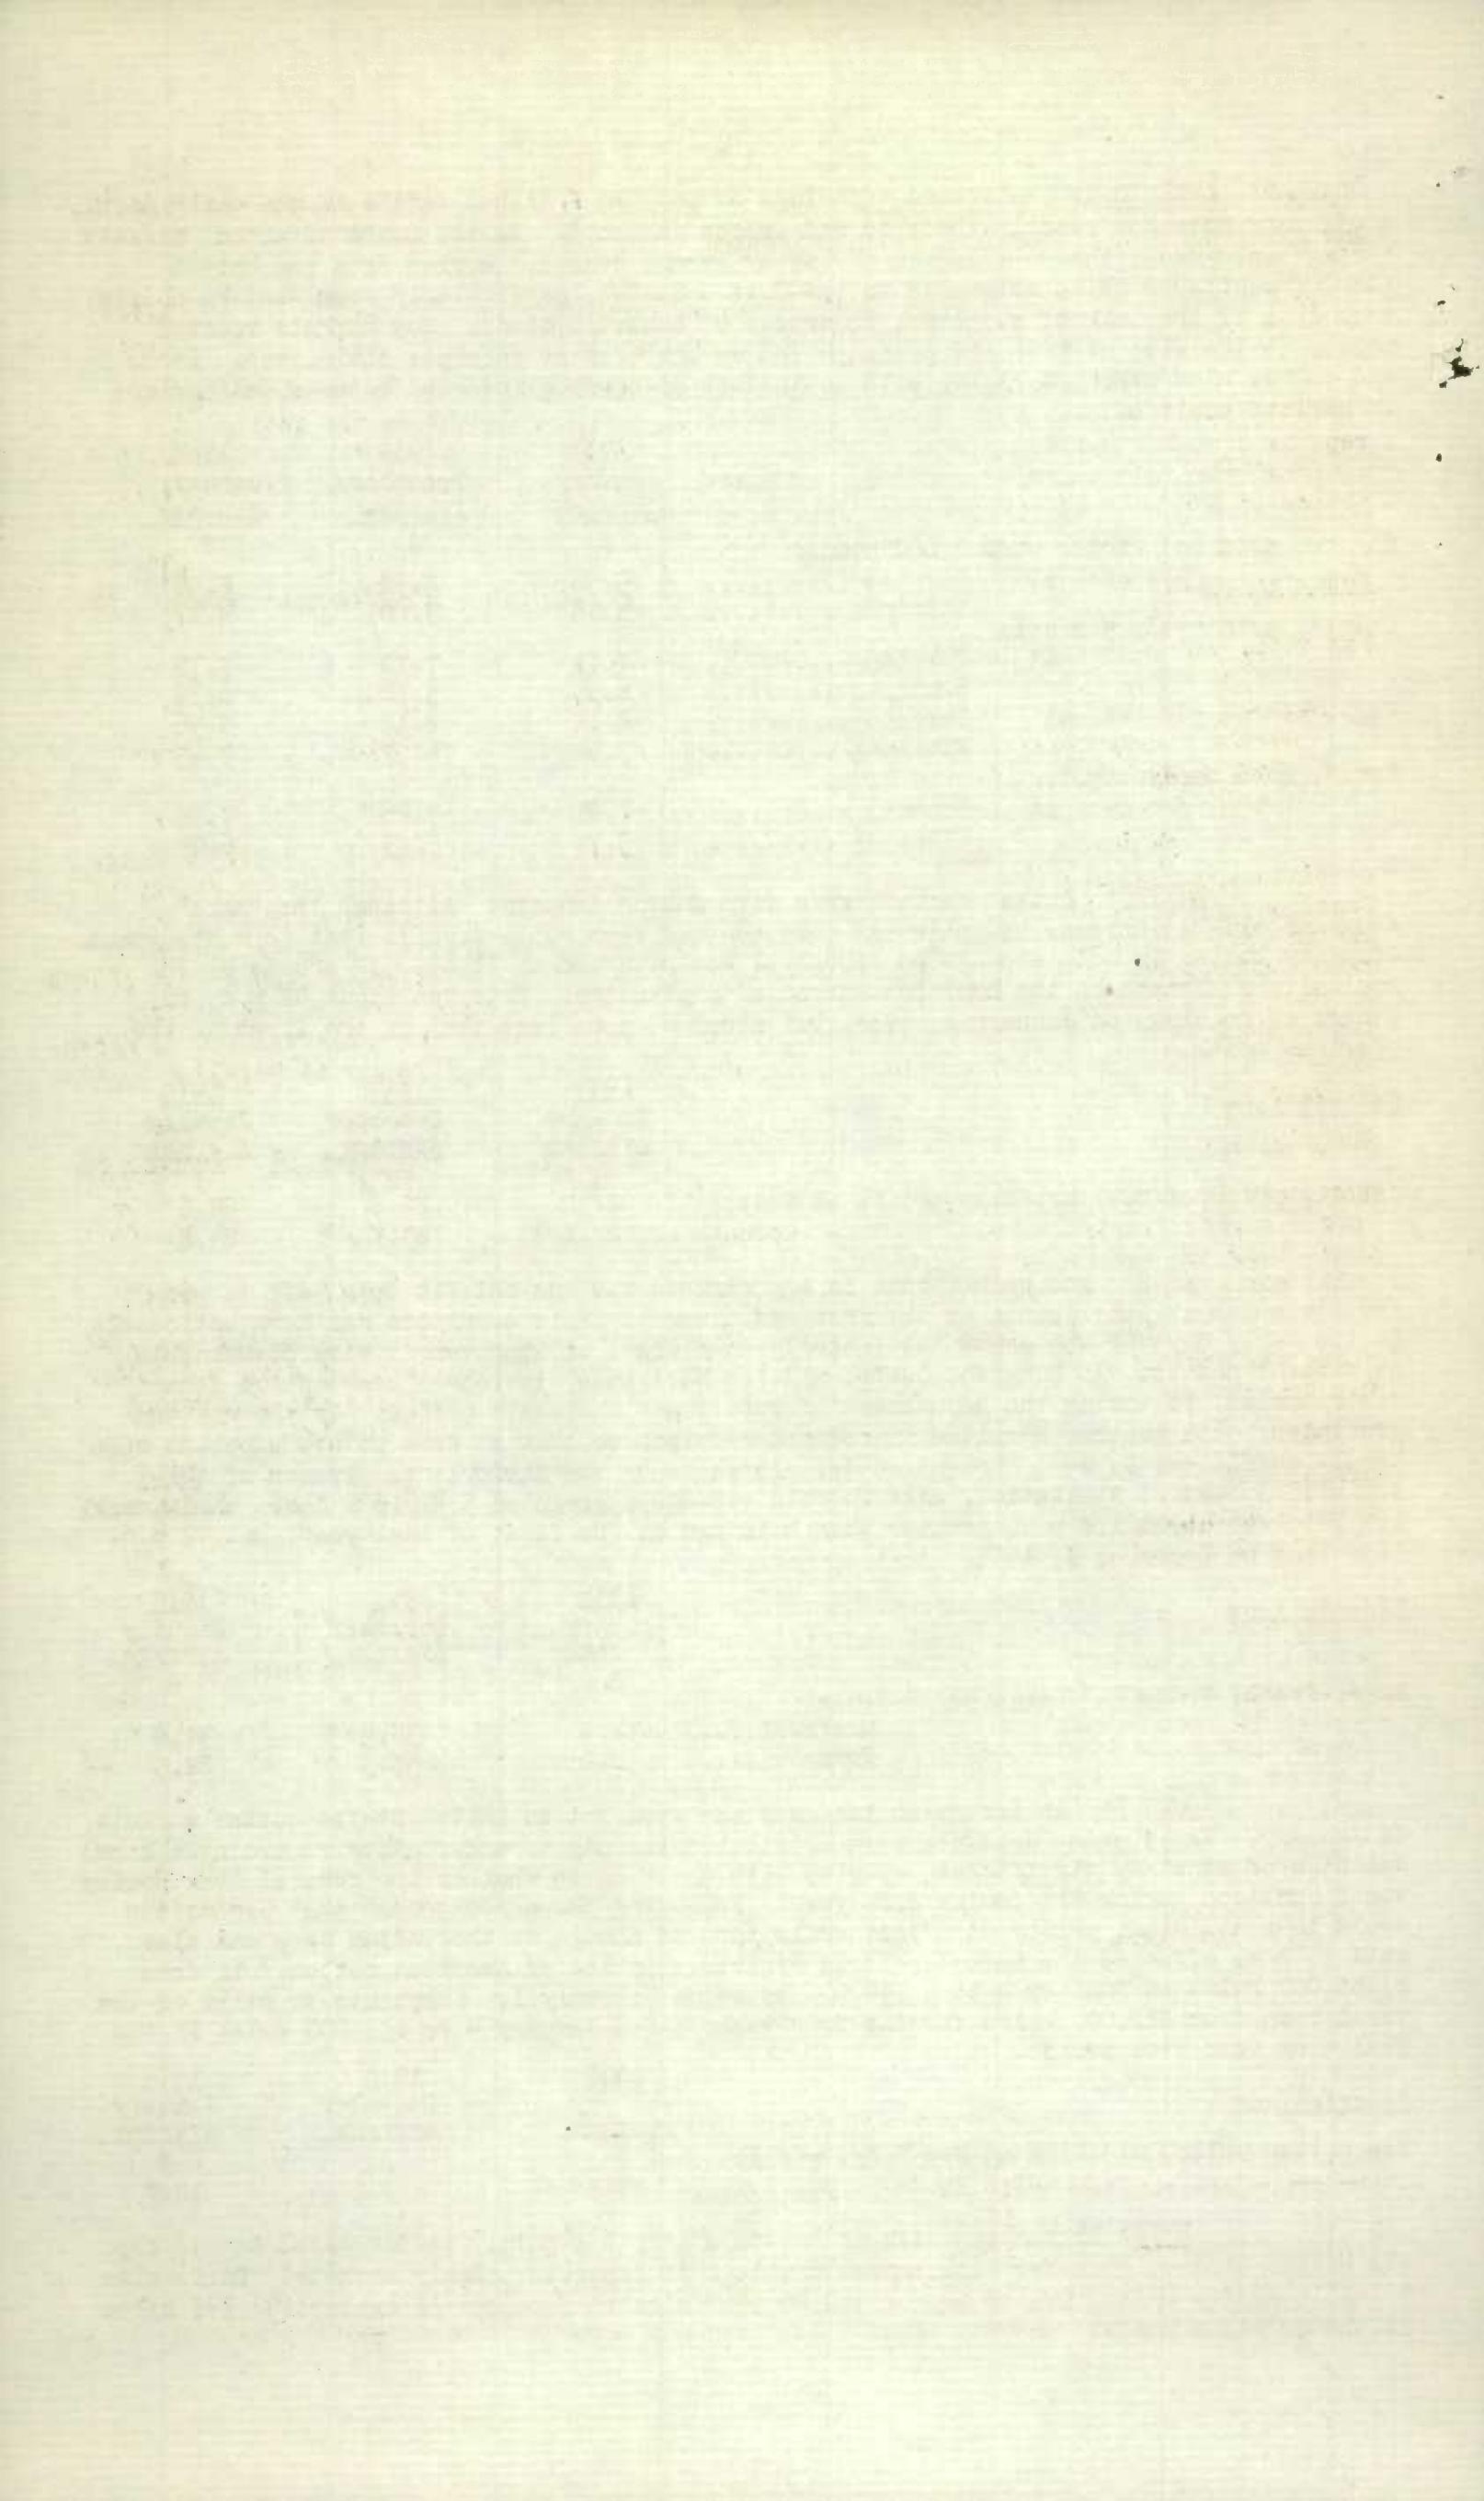

EGGS? The weaker tone in egg markets was due chiefly to a gain in production which at this season of the year was unusual. This condition was more noticeable in the early days of the month but latterly some signs of improvement were discernible at several points. In Ontario, Quebec and the Maritimes, increased consumptive demand was reasserted, following the adjustment of retail and wholesale prices. In the western provinces, cold weather resulted in reduced receipts so that at some points supplies were barely sufficient to meet current needs. As shown by the Agricultural Branch of the Dominion Bureau of Statistics, eggs in cold storage aggregated 3,473,522 dozen on January 1. This was about 178 p.c. greater than holdings on the first of last year, but 42 p.c. less than on December 1, 1934.

COTTON: An irregular tendency was apparent in United States cotton markets in January. Early price declines were attributed largely to uncertainty regarding a legal decision of monetary significance coupled with doubt as to whether the federal loan policy would continue during the coming crop year. Following the announcement that production would be restricted, prices steadied, while news of damage to the Indian crop was also said to have affected the market. World visible supplies of American cotton fell from 6,758,000 bales on January 4 to 6,394,000 bales on February 1. Shipments to mills of the world rose from 818,000 bales for the four weeks ended January 4 to 858,000 bales in the following four week period.

<u>Descriptions</u>	<u>1934</u> January <u>Average.</u>	<u>1934</u> December <u>Average.</u>	<u>1935</u> January <u>Average</u>
Raw cotton upland middling at New York, per lb. (Canadian funds) .....	\$ 11.3	\$ 12.6	\$ 12.7

SILK: Higher raw silk prices were ascribed mainly to increased demand from the United States, together with improved values in Japanese primary markets. Deliveries to mills of the United States aggregated 40,941 bales in December as against 37,548 bales in the previous month.

<u>Descriptions</u>	<u>1934</u> <u>January 15.</u>	<u>1934</u> <u>December 15.</u>	<u>1935</u> <u>January 15.</u>

20-25 deniers, 85 p.c. special grand XX .....	1.453	1.356	1.510

WOOL: Lower prices and restricted sales owing chiefly to stock taking characterized Canadian wool markets in January. A firmer undertone was indicated by reports of low supplies of wool and tops in the hands of manufacturers, together with somewhat limited stocks of manufactured goods. Exports of raw wool fell from 638,701 pounds in November to 338,335 pounds in December.

<u>Descriptions</u>	<u>1934</u> <u>January 15</u>	<u>1934</u> <u>December 15</u>	<u>1935</u> <u>January 15</u>

Western semi-bright, medium or $\frac{1}{2}$ blood staple .....	25.0	14.0	13.0

LUMBER AND TIMBER: Narrow price changes were recorded in lumber markets. Conditions pertaining to the export situation were practically unchanged with stocks of Canadian lumber in the British market reported heavy. Weather conditions during the latter part of January, held up production in many parts of British Columbia, and as a result a probable shortage of logs was predicted. Although inventories showed that stocks in the hand of retail dealers in the prairies and eastern Canada were low, no general improvement in rail shipments was expected until freight rates are again reduced in March. Exports of boards and planks dropped from 120,558 M bd.ft. in November to 98,238 M bd.ft. in December.

<u>Descriptions</u>	<u>1934</u> <u>January 15</u>	<u>1934</u> <u>December 15</u>	<u>1935</u> <u>January 15</u>

Maple hard 4x4 f.o.b. per M bd.ft. f.o.b. mill carlots .....	52.00	55.00	60.00

IRON AND STEEL: A gradual improvement in small lot business was apparent since the beginning of the year and prices held steady. Demand from railways and building trades remained dull, but orders from manufacturers of automobiles and electrical equipment and the mining industries were maintained at fairly good levels.

<u>Description</u>	<u>1934</u> <u>January 15</u>	<u>1934</u> <u>December 15</u>	<u>1935</u> <u>January 15</u>
Galvanized corrugated iron, 28 gauge f.o.b. destination, per 100 sq.ft. .....	\$ 4.65	\$ 4.60	\$ 4.85

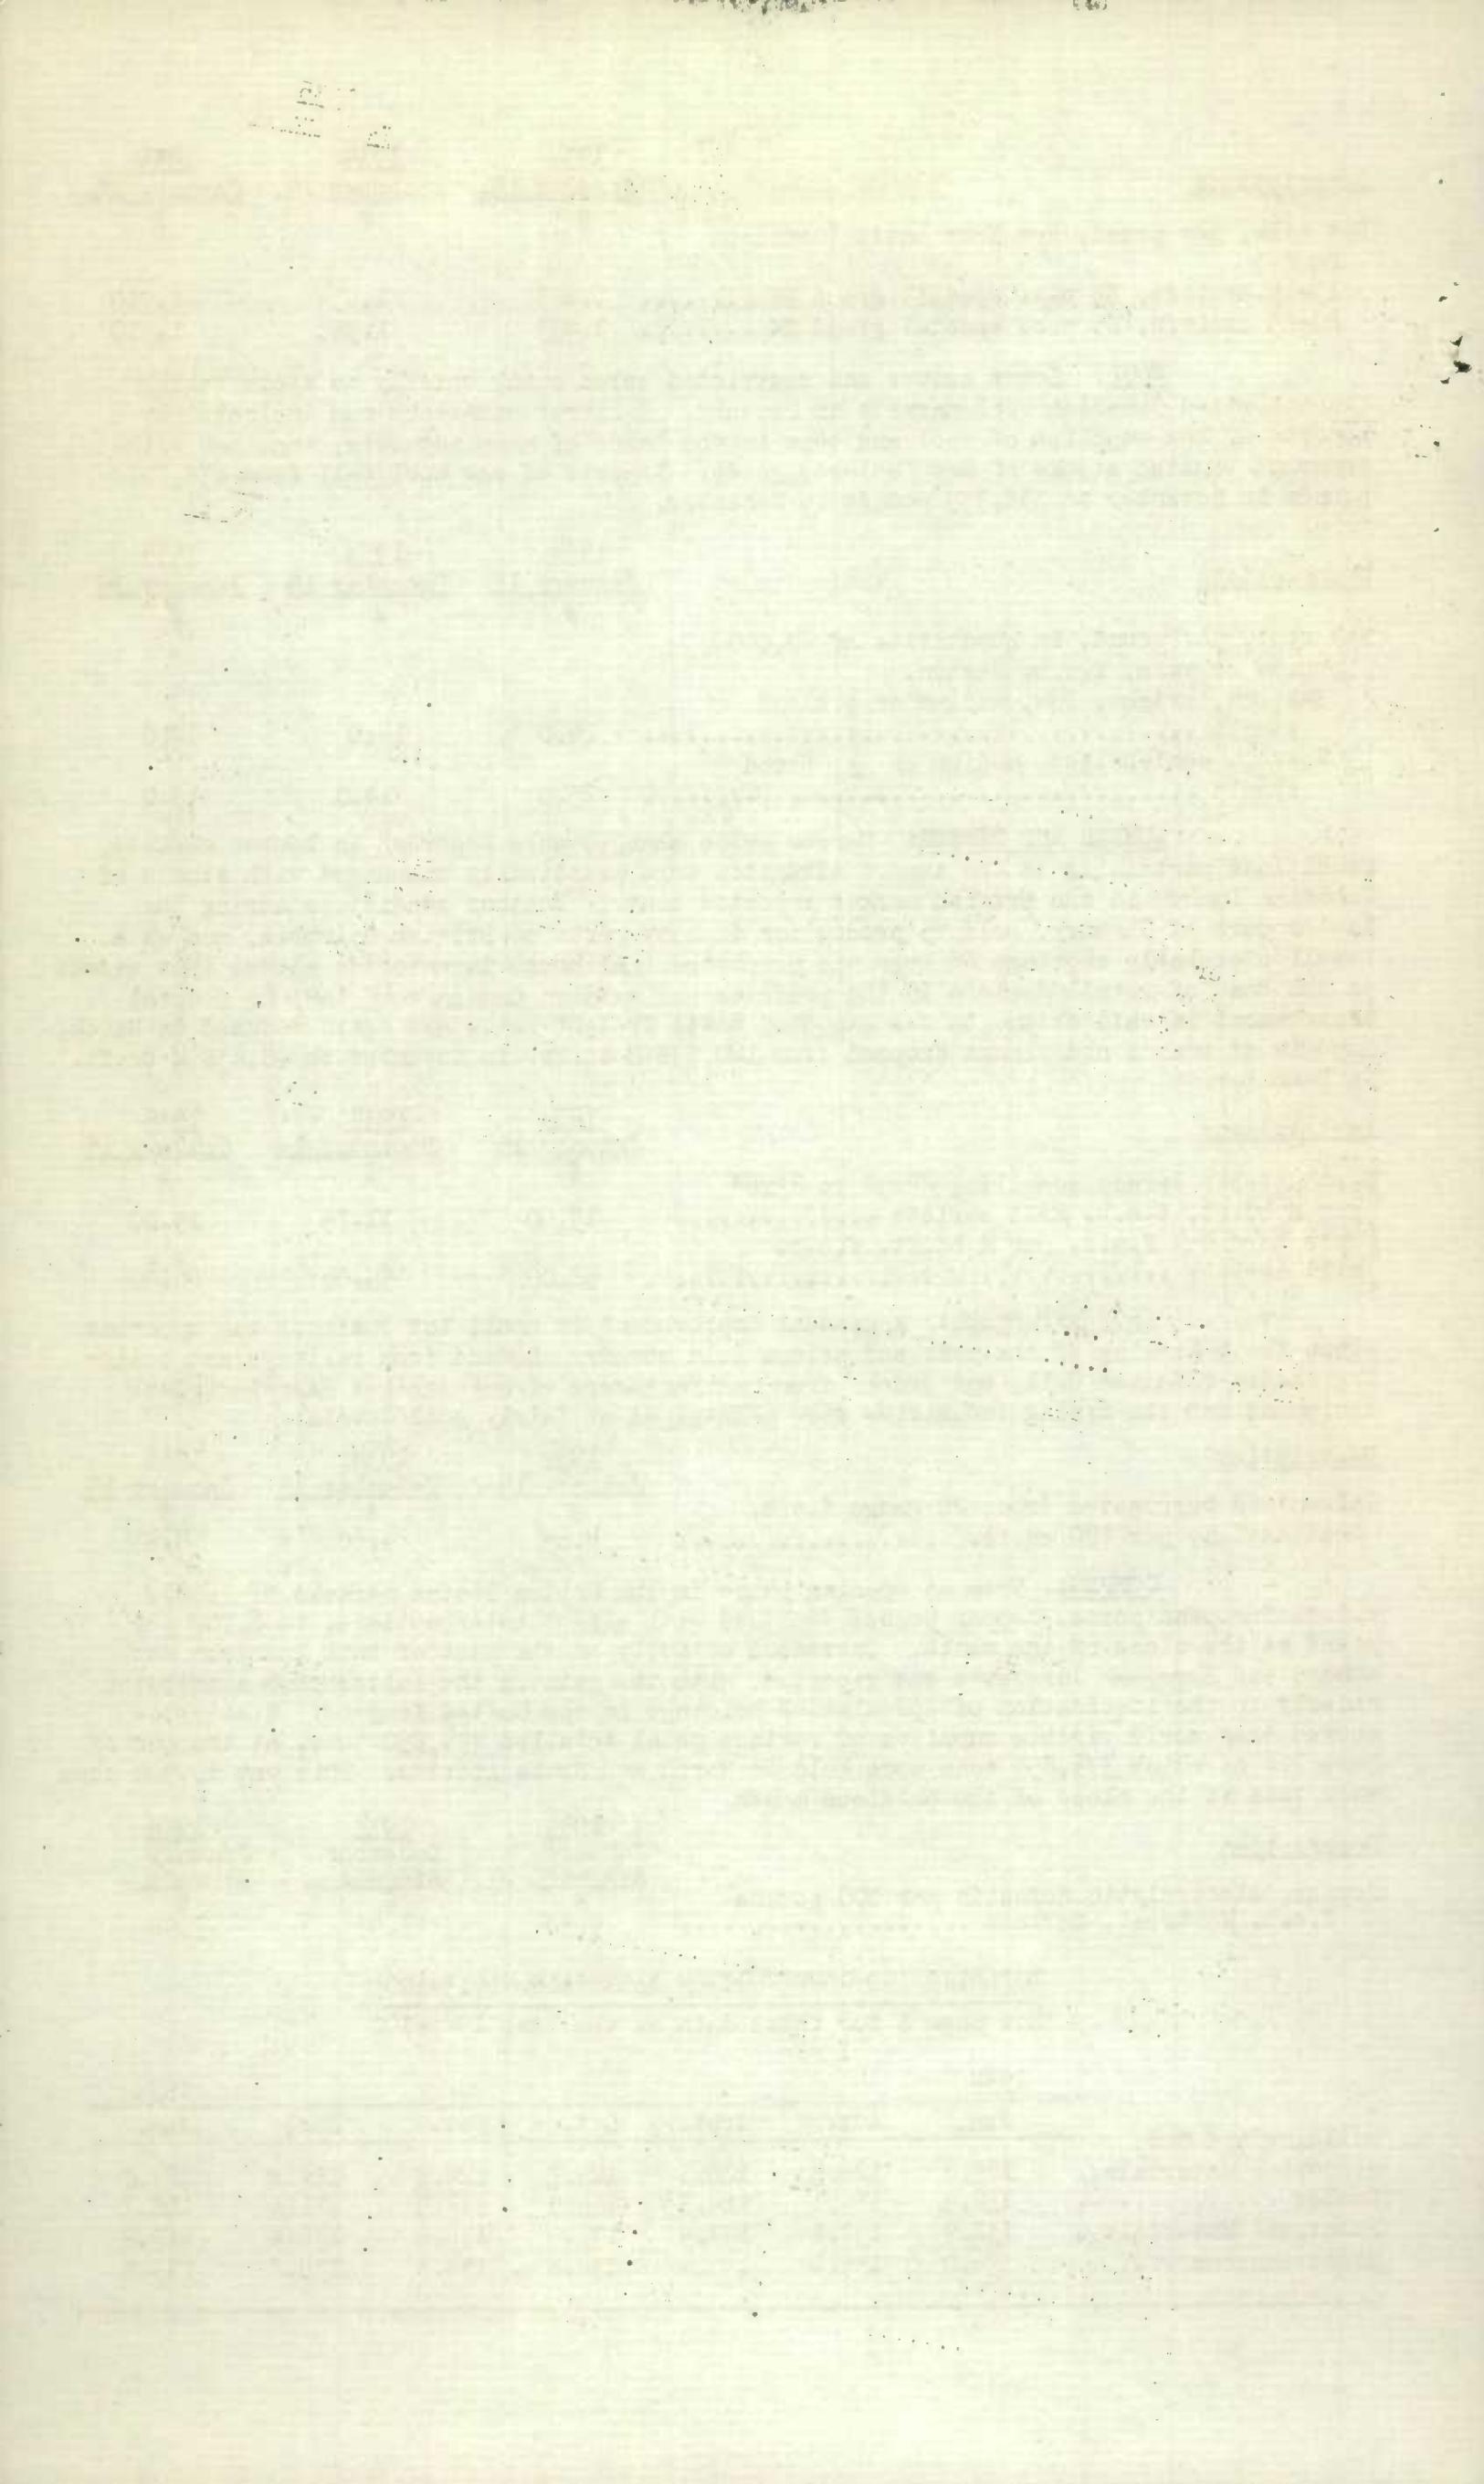

COPPER: From an opening price in the United States markets of  $7.02\frac{1}{2}$  c.i.f. European ports, copper prices declined with slight interruptions, to 6.70¢ per pound at the close of the month. Increased activity on the part of both American consumers and European interests was reported, with the gain in the latter case attributed chiefly to the liquidation of speculative holdings in the United Kingdom. Statistics showed that world visible supplies of refined metal totalled 494,250 tons, at the end of December of which 373,250 tons were held in North and South America. This was 10,500 tons more than at the close of the previous month.

Wholesale Prices, Years 1934 and 1935  
1926=100

INDEX NUMBERS OF RETAIL PRICES, RENTS, AND COSTS OF SERVICES IN CANADA, JANUARY, 1935.  
(Calculations based on prices for the first of each month)

The index number of retail prices, rents, and costs of services fell from 79.0 in December to 78.9 in January, advances in the sundries and fuel groups being more than offset by declines for foods.

An index for retail prices alone, that is, excluding rents and costs of services, receded from 74.1 to 73.9. When foods were removed from this index it was 78.7 for January as against 78.6 in December.

For 46 food items an index moved down from 69.3 to 68.8, declines for eggs, bread, flour and tea influencing the group more than advances for creamery butter, potatoes, and most meats. Eggs showed seasonal declines, Grade "A" eggs being down from 41.4¢ to 37.1¢ per dozen, while an average of Grade "B" and Grade "C" eggs was 29.3¢ as compared with 31.2¢ for December. Flour at 3.3¢ per pound was fractionally lower, as was bread also at 5.7¢ per pound. Tea receded from 53.2¢ to 52.9¢ per pound. Creamery butter rose from 25.1¢ to 25.5¢ per pound. Potatoes averaged 16.4¢ per peck as compared with 16.0¢ for the previous month. Advances in meat prices were as follows: Sirloin beef from 19.3¢ to 20.0¢ per pound, shoulder beef from 10.3¢ to 10.8¢, veal from 11.6¢ to 12.1¢, mutton from 18.8¢ to 19.8¢, and fresh pork from 19.1¢ to 19.4¢.

The fuel and lighting index moved up from 88.4 to 89.0, owing to increased prices for coal, coke, and wood.

The index for miscellaneous items rose from 92.6 to 92.8, due mainly to an advance in the motor operating costs sub-index from 92.3 to 93.1. Increases in the price of tires, and to a lesser degree, for gasoline, were responsible for this upward movement.

INDEX NUMBERS OF RETAIL PRICES, RENTS, AND COSTS OF SERVICES, 1913-JANUARY, 1935.

INDEX NUMBERS OF INTEREST RATES IN CANADA  
1926 = 100

The index numbers of interest rates calculated from the yields of the most popular Province of Ontario Bonds on the basis 1926 = 100 at 76.2 for January was the same as in December 1934. The index is based on information received from Messrs. Wood, Gundy and Company Limited, showing the yield on these bonds to be on a 3.65% basis for January.
