DEPARTMENT OF TRADE AND COMMERCE  
DOMINION BUREAU OF STATISTICS - CANADA  
INTERNAL TRADE BRANCH

(Issued October 12, 1935.)

Dominion Statistician:	R.H. Coats, LL.D., F.R.S.C., F.S.S. (Hon.)
Chief, Internal Trade Branch:	Herbert Marshall, B.A., F.S.S.
Prices Statistician:	H.F. Greenway, M.A.

PRICE MOVEMENTS, SEPTEMBER, 1935.

COMMODITIES

Activity in commodity markets during September was greater than for some months past. Wheat prices mounted sharply in the first three weeks, gaining over 14 cents per bushel, but subsequently lost over 6 cents of this gain. Although this was undoubtedly the most important movement among basic commodities, it was less spectacular than the further precipitate rise in raw silk prices which was due mainly to a shortage in spot stocks and to reports of serious storm damage done to the crop in Japan. Other commodities to register appreciable advances included copper, zinc, and eggs. Little or no change was recorded for silver, tin, cotton, rubber, coffee, sugar, and steers. Hogs suffered fair sized declines. The Dominion Bureau of Statistics index number of wholesale prices advanced from 71.6 for August to 72.3 for September. The corresponding September index for 1934 was 71.9.

COST OF LIVING

Moderate recessions for foods were responsible for a slight decline in the Dominion Bureau of Statistics cost of living index from 79.4 in August to 79.3 in September. The corresponding figure for September, 1934, was 78.8. An index for foods fell from 71.3 to 70.9, declines for beef, onions, and potatoes influencing the group more than increases for pork products, lard, eggs, and butter. Slight seasonal advances were recorded for coal and coke, but these were offset by declines in wood prices, leaving the fuel index unchanged at 85.4.

SECURITIES

Renewed evidences of strength in common stock prices appeared in the second and third weeks of September, but markets moved downward in the fourth week following the grave turn of events connected with the Italo-Ethiopian situation. A general index number of common stock prices mounted from 97.3 for the week of September 5 to 98.5 for the week of September 19, and then dropped to 95.8. All groups with the exception of milling issues moved lower.

Bond prices declined sharply in the first half of September and subsequently remained comparatively inactive at lower levels. An index of Dominion of Canada long-term bond yields reflected this movement, advancing from 71.6 in August to 79.8 for September. This was the highest index since July, 1934.

FOREIGN EXCHANGE

Exchange movements were unsettled during September. Sterling fell sharply in the opening week, reflecting <sup>in part</sup> the influence of seasonal demand for New York funds to settle autumn commitments. Gold flowed in considerable quantities from London and the Continent to the United States throughout September, the total amount exceeding \$200,000,000. Weakness in the Dutch guilder preceded the re-assembling of Parliament in the Netherlands, but this was checked by an increase in the bank discount rate from 5 p.c. to 6 p.c., along with official assurances that the present position of the guilder would be protected. Sudden weakness also developed in the Canadian dollar in the third week of September to be followed by gradual recovery. This occurred in spite of steadily "favourable" trade balances for many months past.

SUMMARY OF IMPORTANT COMMODITY PRICE MOVEMENTS: WHEAT AND OTHER GRAINS:

Following an advance of over 14 cents, No.1 Manitoba Northern quotations closed at 96 1/8 cents per bushel on September 19. This price was higher than any cash quotation posted since markets began to move upward in March 1933. It placed No.1 Northern temporarily upon a parity with levels as far back as July, 1930. The rise, which continued almost steadily for three weeks was supported by good export demand for southern hemisphere and Canadian wheat. Serious drought conditions in the Argentine brought prices for Plate wheat up sharply until it was quoted close to a parity with No.2 Northern wheat at Liverpool, if account be taken of the 6 cent preference received

by the latter. The growing threat of war, likewise, stimulated markets in the first three weeks of September, but during the latter part of the month fears in this direction tended to subside. Thus, when export demand commenced to dwindle in the fourth week, prices reacted and almost half of the preceding gain was lost. A secondary advance began on September 30, when quotations mounted 1 5/8 cents per bushel for No.1 Manitoba Northern.

Descriptions (Basis Fort William and Port Arthur cash per bushel)	1934	1935	1935
	September	August	September
	Average	Average	Average
No.1 Manitoba Northern Wheat	82.3	84.5	90.3
No.2 C.W. Oats	45.7	36.3	36.0
No.2 C.W. Rye	66.0	36.5	40.5
No.3 C.W. Barley	53.5	33.9	35.8
No.1 C.W. Flax	151.6	127.8	136.4

**MILLED PRODUCTS:** Advancing wheat prices quickened interest in domestic flour markets and demand showed material improvement, with some attention being turned again to future commitments. Prospects of less active competition from the southern hemisphere were favourable to the export outlook on the west coast.

Descriptions	1934	1935	1935
	September 15	August 15	September 15
	\$	\$	\$
Flour, No.1 patent, Manitoba, per barrel at Montreal	5.50	5.30	5.70
Rolled Oats, Toronto, per 90 pound bag	3.30	3.05	2.85
Oatmeal, Toronto, per 98 pound bag	3.63	3.36	3.14

**SUGAR:** Spot quotations for raw sugar at New York advanced in spite of uncertainty caused by the possibility of an adverse ruling from the United States Supreme Court regarding the constitutionality of action taken by the A.A.A. in allocating domestic and import quotas. The London market likewise showed strength, which was attributed to the unsettled situation in Europe and Africa. An intimation that Cuba would withhold shipments until the beginning of March pending the liquidation of impounded sugar amounting to roughly 150,000 tons, gave support to the advance at New York.

Descriptions	1934	1935	1935
	September 15	August 15	September 15
	\$	\$	\$
Granulated Sugar standard Montreal per cwt.	5.09	4.90	4.71
Yellow Sugar, No.1, per cwt., at Montreal	4.80	4.61	4.42
B.W.I. raw sugar, Montreal, per cwt.	1.80	1.88	1.85

**RUBBER:** Spot quotations for raw rubber moved irregularly lower for the first half of September, but subsequently regained lost ground and were firm as the month closed. London led in the decline during the first two weeks, recessions there being attributed to the cancellation of export orders due to difficulties in arranging credits. Unexpectedly high August shipments from Malaya added to the burden upon markets. Revival of prices followed the announcement that export quotas for the fourth quarter had been reduced another 5 p.c. to 60 p.c. of basic allocations. Lower August production figures for Malaya and favourable consumption prospects in the United States supported market recovery.

Description (Basis New York, per pound Canadian funds)	1934	1935	1935
	September	August	September
	Average	Average	Average
Standard latex crepe sheets	15.9	12.1	11.8
Ceylon plantation ribbed smoked sheets	15.0	12.0	11.7

**LIVESTOCK:** During the first week of September, runs of cattle were comparatively light and prices advanced. Offerings then increased, and in the second week, reached a record for the season to date, at several yards, with the movement from the west particularly heavy. Thereafter supplies continued greater than markets could readily absorb; carryovers were common and prices generally moved downward. Quotations for calves were higher with export buying at several points, the chief supporting factor. Hogs and lambs were lower.

Descriptions		1934	1935	1935
		September Average	August Average	September Average
Steers, good and choice over 1050 pounds, per cwt. at	Toronto	\$ 5.30	\$ 6.55	\$ 6.80
	Winnipeg	3.49	5.39	4.76
Calves, good veal, per cwt. at	Toronto	6.45	7.58	8.45
	Winnipeg	3.79	5.50	5.62
Hogs, bacon, per cwt. at	Toronto	8.49	9.92	9.38
	Winnipeg	7.65	9.14	8.46
Lambs, good handyweight, per cwt. at	Toronto	5.77	7.25	6.88
	Winnipeg	4.66	5.57	5.35

**BUTTER:** Although trade was reported light, butter markets displayed a steady tendency with price advances common. This firmness was largely in sympathy with higher prices in the United Kingdom and was influenced by reports indicating arrangements for the export of considerable amounts to that country. The Agricultural Branch of the Dominion Bureau of Statistics recorded cold storage holdings of creamery butter on September 1 at 51,271,008 pounds. This was approximately 8 p.c. more than on September 1, 1934, but 30 p.c. greater than on August 1, 1935.

Descriptions		1934	1935	1935
		September Average	August Average	September Average
		\$	\$	\$
Jobbing price of No.1 creamery prints per lb. at	Montreal	21.4	22.6	24.7
	Toronto	22.2	22.8	24.3

**EGGS:** Substantial gains were shown in quotations for eggs, at practically all centres. Production was reported lower and a better retail demand developed. As prices continued to advance, demand for the higher grades waned, while inquiry for lower grades became more pronounced, at several of the major markets. This was particularly true of Ontario and Quebec where insufficient supplies necessitated some withdrawals from storage. As shown by the Agricultural Branch of the Dominion Bureau of Statistics, stocks in cold storage amounted to 10,075,864 dozen on September 1, which was about 5 p.c. greater than on August 1.

Descriptions		1934	1935	1935
		September Average	August Average	September Average
		\$	\$	\$
Eggs, Grade "A" large, per dozen at	Montreal	32.1	30.4	36.4
	Toronto	30.8	28.4	34.4
	Winnipeg	27.6	26.8	32.1

**COTTON:** Uncertainty regarding some of the features of the new cotton loan and lack of speculative interest were quoted as the chief causes of early declines in the United States market. Later advances were not of sufficient proportion to wipe out preceding losses. The United States government estimate of September 1 placed the crop at 11,489,000 bales which was over 400,000 bales less than generally anticipated by the trade. The pool continued to buy futures and an expansion in demand both on the part of United States mills and other countries was reported. Forwardings to mills of the world rose from 628,000 bales for the four weeks ended August 30 to 646,000 bales for the four week period ended September 27. World visible supplies of American cotton mounted from 3,072,000 bales on August 30th to 4,189,000 bales on September 27.

Descriptions		1934	1935	1935
		September Average	August Average	September Average
		\$	\$	\$
Raw cotton, upland middling, at New York, per pound (Canadian funds)		12.7	11.5	10.9

**SILK:** Scarcity of spot supplies of the heavier deniers, together with reports indicating considerable damage to the new crop in Japan were regarded as the chief causes of price advances for raw silk. The National Federation of Textiles showed August deliveries to American mills at 41,715 bales against 44,166 bales in July. This was said to have been below trade expectations but was considered to have had little effect on market conditions.

Descriptions	1934	1935	1935
	September 15	August 15	September 15
	\$	\$	\$
Raw silk per pound, New York basis (Canadian funds)			
Special grand XX 85 p.c. 20-22 deniers	1.09	1.79	1.86
Grand XX, 83 p.c., 13-15 deniers	1.18	1.94	2.03

**WOOL:** Prices remained fairly steady and sales of wool and tops were reported in good volume. Stocks in manufacturing plants were believed to be low while considerable activity on the part of woollen and worsted mills was reported. Exports of raw wool rose from 755,842 pounds in July to 1,197,748 pounds in August.

Descriptions	1934	1935	1935
	September 15	August 15	September 15
	\$	\$	\$
Raw wool, per pound, in quantities of 20,000 pounds or more, f.o.b. Weston.			
Eastern, bright, low, medium or 3/8 blood staples or 50's	15.0	16.5	16.0
Western semi-bright, medium, or 1/2 blood staple, or 58's-60's	16.0	18.0	18.0

**LUMBER AND TIMBER:** A fair amount of business was reported but prices continued generally low. Although foreign shipments rose from 101,926 M bd.ft. in July to 164,452 M bd.ft. in August, several unsatisfactory features obtained in the export situation. Ample supplies were reported in the United Kingdom while keen competition was registered as between Canadian and Baltic lumber. It was assumed that the resumption of operations by shingle mills in the United States would affect the Canadian market adversely. Little demand from the Orient was apparent as the Japanese market was practically closed to Canadian shippers and purchases from China continued restricted. Domestic dealers have apparently assumed a waiting attitude until crops are harvested, and little replenishing of stocks was recorded.

Descriptions (Price Index Numbers 1926-100)	1934	1935	1935
	September	August	September
White pine lumber	87.9	87.3	87.5
Spruce lumber	75.6	69.7	69.7
Fir Lumber	85.0	77.4	78.1
Cedar lumber	66.4	78.0	94.1

**IRON AND STEEL:** Prices of iron and steel products held at relatively steady levels in September. Moderate demand from various sources was reported and orders recorded for repair work were higher than for some time past. The output of pig iron rose about 8 p.c. between July and August to a total of 54,414 tons, but the production of steel ingots and castings dropped 3,613 tons to 82,488 tons during the same period.

Descriptions	1934	1935	1935
	September 15	August 15	September 15
	\$	\$	\$
No.1 foundry pig iron per gross ton, carlots f.o.b. seller's works	20.50	20.50	20.50
No.1 scrap iron per gross ton, delivered at Canadian foundry	9.50	10.00	10.00

**COPPER:** Demand was fairly well sustained in the United States market in September despite heavy August buying. Persistent rumours of rising prices, caused unusual activity among consumers. A 1/2 cent advance on the 18th brought prices, delivered Connecticut Valley, up to 9¢ per pound, the same level as for Blue Eagle Metal. Immediately the price, c.i.f., European ports, rose from 8.42 1/2 cents to 8.52 1/2 cents per pound. Export quotations continued generally upward throughout the remainder of the month, with war talk regarded as the chief supporting factor. A gradual expansion in mine production in the United States was reported during September. World visible supplies of refined metal were placed at 549,830 tons on August 31, or 16,870 tons less than at the close of the previous month.

Wholesale Prices, Years 1934 and 1935  
(1926=100)

INDEX NUMBERS OF RETAIL PRICES, RENTS, AND COSTS OF SERVICES IN CANADA, SEPTEMBER, 1935.

(Calculations based on prices for the first of each month)

The index number of retail prices, rents, and costs of services, on the base 1926-190, fell slightly from 79.4 in August to 79.3 in September, owing to a moderate decline in food prices.

An index for retail prices alone including foods, coal, coke, clothing and household requirements, etc., receded from 74.4 to 74.3. When foods were removed from this index it was unchanged for September at 77.4.

For 46 food items an index fell from 71.3 to 70.9, declines for beef, mutton, bread, flour, onions, and potatoes being of more importance than advances for pork, lard, eggs, butter, and tea. The corresponding figure for September, 1934, was 78.8. An upward movement in fresh pork from 22.6¢ to 23.1¢ per pound, and in bacon from 30.5¢ to 31.6¢, were indicative of higher pork prices. Lard averaged 17.2¢ per pound as against 15.9¢ in August. Grade "A" eggs rose from 27.7¢ to 31.2¢ per dozen, while an average of grade "B" and grade "C" eggs was 23.7¢ and 26.4¢ per dozen, respectively, for August and September. Creamery butter rose from 25.0¢ to 25.4¢, and dairy butter from 21.3¢ to 21.9¢ per pound. Tea increased from 51.5¢ to 52.4¢ per pound. Sirloin beef declined from 24.8¢ to 24.3¢ per pound, while mutton was 20.9¢ as compared with 21.1¢ for August. A decline in bread from 5.7¢ to 5.6¢ per pound kept pace with a decrease in flour from 3.3¢ to 3.2¢ per pound. Onions moved down from 6.1¢ to 4.2¢ per pound, and potatoes from 27.5¢ to 20.4¢ per peck.

The fuel and lighting index was unchanged at 85.4, slight advances in coal and coke being offset by easier wood prices. From May onward, fuel prices were considerably below the level of those for the same period of 1934, as illustrated by the index of 85.4 in September, 1935, which compares with 88.0 in September, 1934.

Other indexes were unchanged.

INDEX NUMBERS OF RETAIL PRICES, RENTS, AND COSTS OF SERVICES, 1913-SEPTEMBER, 1935.

# INVESTORS' INDEX NUMBERS OF COMMON STOCKS

Banks, Utilities and Companies abroad were responsible for a decline, in the general index of 121 common stocks, from 94.7 for the month of August to 93.6 for the month of September. In the industrial series, four sub-groups were higher and four were lower but the gains, due chiefly to International Nickel and Beverages, more than outweighed losses. Consequently the index moved upward from 146.1 for August to 147.1 for September, a new high for Industrials in 1935. Twenty Utilities maintained their irregular movement and declined from 47.7 in August to 46.3 in September. Transportation and Power and Traction registered losses while Telephone and Telegraph showed a fractional gain. Five companies located abroad sustained a loss of 2.8 points, placing the index at 119.9 for September. Nine banks continued downward, receding from 70.6 in August to 65.9 in September, the minimum since December, 1933.

## PREFERRED STOCKS

The index number for twenty-five preferred stocks was 69.2 in September as compared with 70.9 in August. Canada Cement fell from 56.1 to 53.1, Canadian Car and Foundry from 13.5 to 11.8, Canadian General Electric from 59.9 to 57.8, Canadian Hydro-Electric from 52.5 to 47.8, Canadian Oil from 124.9 to 119.9, National Breweries from 41.1 to 39.9 and Simpson's from 69.9 to 65.8. Canada Bread, first preferred, rose from 79.8 to 88.8, Ogilvie Flour Mills from 140.4 to 145.3 and St. Lawrence Corporation "A" from 6.4 to 7.2.

## WEEKLY INDEX NUMBERS OF 23 MINING STOCKS

(1926=100)

A firmer tendency with moderate price gains was apparent for each of the first three weeks of September, the general index of mining stocks, advancing from 114.9 to 119.7. In the final week of the month, the previous advance was lost and the index dropped back to 117.6, which compares with 113.4 for the corresponding week in August.

Nineteen gold issues followed the same trends. The index recorded for the week of September 26th was 106.8 against 102.9 for the comparative week in August.

Base Metals were unsettled, moving irregularly from 157.2 for the week of September 5th to 162.1 for the last week of September. For the week ending August 29th, the index was 157.4.

Listed below is a table of prices for these weeks, as compiled by the Dominion Bureau of Statistics.

MONTHLY INDEX NUMBERS OF LONG-TERM BOND YIELDS

The index of Dominion of Canada long-term bond yields rose from 71.6 for the month of August to 79.8 for the month of September. For the first ten days of the month prices of Dominion bonds fluctuated within narrow limits but on September 11 a sharp decline commenced which continued to September 17. From that date until the end of the month prices were comparatively steady but the average yield of the six leading Dominion issues used in calculating the index was 3.96 for September 30 as compared with 3.45 for August 30. The Province of Ontario index rose from 79.7 to 88.3, and information from Messrs. Wood Gundy indicated that popular Ontario issues sold on a 4.23 p.c. basis during September.
