Second Quarter, 1960

Estimated sales of farm implements and equipment during the first six months of 1960 were slightly below the 1959 level. The estimates shown in this report are based upon data reported by major-line companies whose portion of the 1959 total is known. When the 1960 factor is known next year, they will be subject to revision. The annual report for 1959 is now available and is not summarized in this report as was done in the second quarter report 1959.
