MERCHANDISING INVENTORIES

In this new monthly bulletin data on inventories of wholesale merchants, chain stores, department stores, and independent retail dealers are brought together to aid the special users of these particular statistics. The data are a consolidation of inventory statistics — some hitherto unpublished — and constitute a counterpart to similar statistics available on inventories at the manufacturing level (see, Inventories, Shipments and Orders, published by the Economic Statistics Branch of Statistics Canada, Cat. No. 31-001).

Inventories represent stocks of merchandise on hand for sale at the end of the month or quarter, usually valued at cost except when otherwise specified, (e.g.) department stores' stocks which are valued at market price. They do not include goods held on a consignment basis, nor do they include items not held for sale, such as fixtures, equipment and supplies. Estimates are not adjusted for seasonal variations, price changes or number of business days in the respective months.

The tables relating to inventories of wholesale merchants, chain stores and department stores, show monthly dollar volume estimates of inventories held in Canada for various individual kinds of business, as well as the stocks-sales ratios derived by dividing the dollar volume of inventories by the dollar volume of sales. No adjustment is made in these ratios for mark-up in sales which varies from trade to trade. In the case of inventories of independent retail dealers, the table shows only the quarterly percentage change in the estimated level of stocks of selected kinds of business in Canada.

A detailed description of the main classes of trade and the kind of business composition will be found in the relevant publications reporting sales data—Wholesale Trade (Catalogue No. 63-008), Retail Trade (Catalogue No. 63-005), and Department Store Sales and Stocks (Catalogue No. 63-002).

STOCKS COMMERCIAUX

Ce nouveau bulletin mensuel réunit des données sur les stocks des grossistes, des magasins à succursales multiples, des grands magasins et des détaillants indépendants, données destinées à aider les utilisateurs particuliers de ces statistiques. Les données rassemblent des statistiques sur les stocks, dont certaines n'avaient jamais été publiées; elles font pendant aux statistiques semblables qui existent en ce qui concerne les stocks des industries manufacturières (voir: Stocks, expéditions et commandes des industries manufacturières (n° 31-001) publié par la Direction de la statistique économique).

Il s'agit ici des stocks, habituellement aux prix coûtant, (sauf indication contraire, par ex., les stocks des grands magasins sont évalués aux prix du marché) de marchandises en magasin destinées à la vente, à la fin du mois ou du trimestre. Ils ne comprennent ni les marchandises en consignatior ni les articles non destinées à la vente: installations, matériel et fournitures, par exemple. Les estimations ne sont pas désaisonnalisées ni corrigées des changements de prix ou du nombre de jours ouvrables de chaque mois.

Les tableaux concernant les stocks des grossistes, des magasins à succursales multiples et des grands magasins contiennent les estimations mensuelles de la valeur monétaire des stocks détenus au Canada dans chacun des divers genres de commerce et les ratios stocks-ventes obtenus en divisant la valeur monétaire des stocks par la valeur monétaire des ventes. Aucune rectification n'est apportée à ces ratios pour tenir compte de la marge bénéficiaire de vente qui varie d'un commerce à l'autre. Dans le cas des stocks des détaillants indépendants, le tableau ne contient que le taux trimestriel de variation de l'estimation du niveau des stocks dans certains genres de commerce au Canada.

On trouvera dans les publications pertinentes qui traitent des ventes — Commerce de gros (N° 63-008 au Catalogue), Commerce de détail (N° 63-005 au Catalogue) et Ventes et stocks des grands magasins (N° 63-002 au Catalogue) — une description détaillée des principaux groupes de commerce et de la répartition par genre de commerce.

SYMBOLS

The following standard symbols are used in Statistics Canada publications:

.. figures not available.

... figures not appropriate or not applicable.

- nil or zero.

-- amount too small to be expressed.

P preliminary figures.

r revised figures.

x confidential to meet secrecy requirements of the Statistics Act.

Note: Components may not add to totals due to rounding.

SIGNEs CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada.

.. nombres indisponibles.

... n'ayant pas lieu de figurer.

- néant ou zéro.

-- nombres infimes.

P nombres provisoires.

r nombres rectifiés.

x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Nota: Les chiffres ayant été arrondis, les totaux ne correspondent pas toujours.
